The large and destructive fires which continually occur in cities and villages, and the great number hap pening to public property of all kinds, have convinced us that the Insurance our "HOMES" should not be propordized in the least by any connexion whatever with the more hazardous kind of property.

Every person interested, must at once see the great advantage thus offered to Farmers and the owners o unexposed dwellings. Our risks being confined to this class of property, we feel the utmost confidence in saying, that the "UNION" stands on a firmer basis than that of any other Company, for no other, we be heve, has adopted this course.

Many Companies have assumed to-themselves the title of " Parmers' Company," but such Companies have in most cases, if not invariably, included in their arm Risks Country Taverns, Mills, Workshops, Churches, and other classes of Property, much more hazardous than the private dwelling. Or, they have united in one Company, the Farm department with a City department. In such case, there must of neces sity be a close alliance in interest and character, and in fate between the two. The success or failure of

the one must determine the destiny of the other They submit for the judgment of their fellow-citizeus the following plan of operations, viz ; 1s. By the Charter, risks can be taken only or Dwellings, private Baris, Carriage Houses and Parm Buildings, and the Personal Property therein. No more than two-thirds the value of any building to be insured; personal property therein may be insured at

its cash value.

2d. Any applicant may, at his option, pay a definite sum in full for his insurance in lieu of giving a prenuum note.

3d. Not more than \$2,000 will be taken in one 4th. Any policy holder-may at pleasure withdraw from the Company, by paying his share of the losses up to the time of such withdrawal.

5th. The Charter provides, and the Company will hold itself responsible, for the correctness of surveys and other official acts of its authorized Agents, done in accordance with its charter and published rulesthus ending all cavil as to the technical correctness of surveys, and the consequent liability of the Company 6th. This Company will pay losses caused by lightming, whether the buildings are burned or otherwise atanage k

to By rejecting wholly every class and kind of tiazardous risks, this Company will not be subjected to the great disasters and losses that so frequently proweeks ave taxation and bankruptcy among lasu m panies.
