## Gen. Dix and the Slavery Question.

### The Execution of Rees W. Evans.

The following from Hon John A Dix, of New York, to a citizen of Georgia is copied from the New York E e. Pos. 1 appeared fist in the Gorgia Constitutionalist :

" NEW YORK, AUGUST 31, 1833. Dr. I. P. Garvin-Dear Sir: I have just received your favor of the 26 h instant stating that I am represented by whig presses and ninerant orators in Georgia, as an abolitionist, & ... and Tthank you for the opportunity you have afforded me, of saying in reply

"1st, that I am not, and never have been an ab-olitionist in any sense of that term On the contra ry, I have been an open and unifirm opponent of all abolition movements in this state, and elsewhere since they commenced in 1835, to the present time While in the Benale of the United Sta es, I opposed the extension of slavery to tree territory - a ques tion entirely distinct from interference with slavery where it sirenity exists. In the latter case, I have steadily opposed all external interference with it. 2d. That I have on all oceasions, public and private, since the lugitive slave law passed, declarad myself in favor of carrying it into exerction in

good faith, like every other law in the land. "3d. That I was in lavor of the union of the democracy of this state, which was consummated in

1850, continued in 1851 on the basis of the compromise measures, and in 1852 on the basis of the " 4th. That I ave since the Baltimore Conven Baltimore platform:

a few days, and in the meantime you are at liberty to use this brief reply to your note as you may think proper. "Lam, dear sir, very respectfully yours, "JOHN A DIX"

NORTH BRANCH CANAL -- We are informed by one of the Board of Canal Commissioners, that they have just completed a thorough tour of inspection along the North Branch Canal. They have passed a resolution directing the water to be let in on the 16th of October. An extent of ninety-five miles of new canal, reaching from Pittston, Luzerne county, to Athens, in Bradlord county, will then for the first time be brought into use.

It will promote yastly the business of that region. giving ready access to the immense coal mines of the Wyoming Valley and adjacent country. From Athens to New York State line, 2 5 8 miles distant, an extension Canal is making to connect with the New York Junction Canal leading direct to New York city. This work is to be completed by the first of April next.

Men engaged extensively in the coal and iron business, in New York State, have already been along the line, endeavoring to make extensive contracis for Buffalo and New York city. One gentleman for the former city, it is said, visited Wilkes-Barre, last week, and made proposals for two miltion tons of coal, to be delivered in Western New York as soon as could be, after the opening of the extension canal. It is said the new work, just completed, will probably be the most valuable of the public improvements, and afford an enlarged ource of revenue for the coming year.-Pittsburg Union.

INCIDENTS OF THE YELLOW FRYER - A last number of the New Orleans Croscent Cuy speaks of a merchant there who " took to his home and heart a a youthful bride, and went to reside in the Fourth district. Wishing to live in privacy, he engaged only one servant-a tresh green girl, from the Emerald Isle. She took the fever, and in a few days died. Another was hired, and shared the same fate. And a third and tourth filled the vacancy in the house hold, and followed in succession the sweeping summons of the tell destroyer. Following the impulse of a natural dread, the merchant went to Mobile to avoid the destructive visitation of the scourge, and the next day buried his young and beautiful bride. Disgusted with a home where nought but empty shambers served to call up the memories of depared joy, he returned to the city to sell out his house-

The execution of Rees W. Evans, who was convicted of the mutder of Louis Reese, of Wilkes-Barre, at the April Session, of the Luzene County-Court, took place in the Jail yard on Friday last, at t o clock in the abernoon. The event was one which had filled the mind of the people with ping, even in the face of all his guilt. From early in the day, until the body of the deceased was removed from the scaffold, every available elevation was eagerly sought by the curious crowd, in order that view of the convict in his last trying moments might be ob ained. T. e weighb ring trees and house tops were resorted to by such numbers as to bene beneath their burdens. The fear of danger had fled, and every breast scemed to be filed by the palpi rations of its own heatt. About one hundred per sons were admitted juio the yard, and among the number we no need the father of young Evans. To

After bidding him farewell the clergy man left the scallold to the Sheriff for the performance of his solemn duty After the rope had been adjusted, a mask was drawn over the head of the prisoner, and he stood alone in the attitude of prayer, which from the motion of his lips, seemed to increase in fer vence as the warnings of the executor assured him of his near approach of death. The crowd stood in breathless silence at the last announcment to him which was-" Rees Evans! you have but one half moment to life !"- and ere the words had been echoed back, the fatal prop had fallen, and law and iustice had seized their dowry, and the transgressor had paid the penalty of his evil deeds. He met his fate with a fortitude which surprised all who saw him. His physical appearance and health did no appear to have been much affected by his confinement or the goadings of a guilty conscience. His

hope of either escape or Executive clemency con tinued strong with him until a few Cave before the one fixed for his execution. #### The Prospect.

We feel safe in assuring our Democratic friends hat the prospect of securing the election of our enire ticket is in all respects as favorable as we could wish. We hear of no serious complaints or disaffecion ; all concede that the ticket is a good one, and every democrat will go forth to duty with a firm letermination to battle against the enemies of his principles, efficiently and successfully-and the second Tuesday of October shall bear testimony to the future of its signal and triumphant success .-Such we believe, from the information we have from all parts of the County, is the sentiment which prevades the party, and animates the bosom of every lover of the Democratic cause-every triend of equal rights. This is right. No personal hostilitias -no personal preference for the nomination of a friend, should testrain a single democrat ficm entering warmly, fearlessly, and actively into the support of the entire ticket when formed.

We have said we believe that harmony eelings prevail, and that we are marching forward a certain and honorable victory at the polis .---Yet we would urge upon our fellow democrats, the at the coming election, it is necessary that he shall be admitted as a general rule that the pendency of Eternal Vigilance" is the price of liberty. Agam, let not the fact, that we carried every thing in this county last full induce a single man cessary, it must have been assessed ten days preto stay at home under the belief that we have votes vious to the election. We hope, therefore, that victory certain. We have a wiley, managing foe sor and see that his name is on the list- and see to to contend with. Their leaders are already endeav. it in time. The coming election is one of momenoring to throw sand into our eyes, by saying on the tous interest, and it is necessary that every demo corners of the streets and other public places-that crat should be fully armed and equipped as the law they don't expect to to elect their men-they know directs we have strength, and of course they must be beaten. This is all gammon. They hope, by holding out false lights, as the same party did during the craf thus speaks of the Democratic candidate for last war, to deceive our democratic friends. They cry peace, peace, when there is no peace. Beware of their devices, they mean by their tricks to juiet your fears and operate upon your credulity .---They are now secretly pushing every exertion on their part to the utmost, and could they succeed in making our friends believe that their operations are merely to keep up an organization. without any expectation of success-we might, when too late, discover at our cost, their real design. Be assurred now, that they mean to defeat us, and elect their own men! and being conscious of their weakness, in open battle, they are resorting to such scheme- to accomplish coverily and underhandly what they cannot do in fair and honorable conflict. Democrats ! be not deceived-but enter at once, boldly and manipily upon the work before you .---Leave nothing undone that can be done honorably to serve the election of your condidates. Many a battle has been los' for want of a single vote, and every democrat should exert himself for the coming contest as if the result depended on his vote alone Let him do this, and at the same time guard against the wilest and crafty devices of the energy to fall them into a careless indifference, or divert our attention from the point of allack, and we will certainly come off victorious as the sun shall rise on the second Tuesday of October.

MONEY MATTERS -The stringency in the money market at Philadelphia increases, and the rate per cent of interest advances. Bonds and other evi dences of indebtedness are fast coming on the martet, and are very generally sold at a heavy depreciation on their face. The stringency, if continued, must seriously check the enormous botlay making throughout the country in Railway construction.

Money is in active demand at New York at 7 per cent on call, and 9 a 12 per cent. on first class but moderate contraction of loans; a small increase of specie and of deposits.
