

"Quietly and Vigorously."

At the trial of a cause a few years since in Dublin, one of the jury was observed to be the least asleep.

The Washington Union accounts, in the same happy manner, for the absence of any show of popular feeling in favor of the Nebraska bill.

That we may do no injustice to the Washington point, we quote its words from the commencement of an editorial article in the Standard yesterday.

"Dignified contempt" is a very fine phrase. We saw, the other day, a gentleman from Buffalo, a staid and venerable man, who informed us that out of a thousand persons of that city, and Western New York generally, only three would take an interest in the Nebraska bill.

"The Union furnishes a reply; it is because the one man in a thousand, the name of whom the Washington Union applies the name of 'the people,' regards all these things with 'dignified contempt.'"

It is a project which the people of the United States earnestly desired to see adopted by Congress—has, according to the journal from which we have taken it, been deferred from false friends as well as open enemies; it has been sent to the Committee of the Whole, where its framers never meant that it should go, and it is in danger.

The people are acting, says the Union, "quietly and vigorously" in favor of the measure. So quietly, that not the least demonstration of popular feeling in favor of the measure has been made, either at the North or South.

DEADLY OCCURRENCE.—The Buffalo Republic learns that a few days since a house in the town of Northbush, in Erie county, was entirely destroyed by fire and two children burned to death.

EXCESSIVELY INTERESTING TO POSTMASTERS.—The House Committee on Post Offices and Post Roads, have unanimously agreed to report a bill increasing the compensation of the Postmasters in the United States.

ARRIVAL OF MOROCCANS.—The Steamship St. Louis, on arrival from Orleans last week, brought to St. Louis about five hundred Moroccans, late immigrants from Europe.

THE RELEASE OF THE BLACK WARRIORS.—The second edition of the Charleston Standard, of Saturday, brings us the details of the news from Havana, received by the Isabel, Capt. Rollins, but here is in addition to what the telegraph has already furnished.

Another Fire! Several months having passed, without a visit from the incendiary torch, our citizens were beginning to congratulate themselves upon the fact and to hope that the last fire had occurred.

The two adjacent buildings, occupied by Wm. Bacon and C. T. Smith, were entirely at the mercy of the flames, being built of wood, and in close proximity. The dwelling of Major Colt, was saved by extraordinary exertions, favored by the wind.

The wind, which blew almost a gale, was from the North, and placed the buildings on the opposite side of the street in much danger. The dwelling of J. E. Graess, was much scorched, as was the corner dwelling owned by Mrs. Bull.

The loss by this fire is considerable. Col. Bailey's barn contained a quantity of lime and plaster, which was damaged by the fire.

Mr. Keeler was not insured—and the rapidity with which the flames spread, prevented the removal of all his furniture, &c. The house next to Mr. Keeler, was lately occupied by Wm. A. Chamberlain, who had partially disposed of the property to Mr. Briggs, who had that day moved into it.

The household goods in the next dwelling, owned and occupied by C. T. Smith were mostly removed, but in such haste as to cause great damage. Mr. S. has an insurance upon both dwelling and goods.

If this fire was the act of an incendiary, and the object was to cause the greatest possible amount of damage to the place to apply the much was well chosen. North of the barn where the fire originated is a compact square of barns, dwellings, &c., and had the wind not been favorable, or had it been in the opposite direction, there can hardly be a calculation formed as to the extent over which the fire would have raged.

Our "consistent" neighbor, the Argus attempts to read us a lesson, for our remarks upon the issues involved in the gubernatorial contest in this State. We shall not stop to attempt to controvert the positions taken in the lecture, because they seem to be based upon an assumption, which is historically false.

Now the issue shows just the reverse of this. It was a resolution in favor of Douglas's bill, that was "hounded out of the Convention." If then the logic founded upon the misstatement of the Argus has any force, we have a right to say that the action of the Convention was hostile to the Nebraska outrage, and if an expression at all, is a committal of the party against it.

A meeting of the citizens of this borough, will be held at the Court House, this (Saturday) evening, at 7 o'clock, for the purpose of taking preliminary steps towards the organization of a Fire Department.

Our Town Council, some time since, ordered from the celebrated manufacturer, Burrows, of Watertown, N. Y., a machine, with the necessary hose and carriages, which are expected here this week. We shall not much longer be justly liable to censure, for not being provided with the means of extinguishing fire.

STATE CENTRAL COMMITTEE.—We learn that the Hon. P. C. Shannon, President of the late Democratic State Convention, has appointed J. Ellis Bonham, Esq., of Carlisle, Chairman of the State Central Committee. The whole Committee will be announced in a few days.

ADDITION ARRIVED.—The Elmira Republican says: Two women residing at Addison gave birth to three children each, last week. The commissioners to locate the rail Shire in Sweden should reconsider their action, and give Addison the preference.

THE DIFFICULTY BETWEEN MESSRS. BECKENRIDGE AND CUTTING, has been amicably adjusted, and both gentlemen have made their appearance in Congress.

HON. JOHN HOOD, of Mercer, formerly a member of the State Senate, died of apoplexy at Morgantown, Va., on Tuesday last.

Another "Settler" for Nebraska.

John Snows, the Jersey City Ferryman, in one of his letters to the editor of the Evening Post makes the following significant enquiry:

I understood you to say the other day, in the Evening Post, that the President was in favor of leaving the subject of slavery in Nebraska to the settlers. Will you please to inform me whether the New Hampshire election is one of 'the settlers' he refers to!

Connected with his election on Monday last, and the result is what might have been expected after the efforts which have been made to identify the Democratic party with Douglas' iniquitous scheme. This State, which last year went largely Democratic, has now been completely revolutionized, and though possibly there may not be any choice for Governor by the people, the Legislature is certainly and strongly Whig and anti-Nebraska.

Let the advocates of the repeal of the Missouri Compromise behold the first fruits of their scheme. In New Hampshire, the home of the President, there is a great question if the Democracy have a working majority in the Legislature and the election of two U. S. Senators is involved in great doubt.

The second State which has spoken is unmistakably rebuking the scheme at the expense of the Democratic party. We shall be fortunate indeed if other rebukes are not in store for us, if the madness is persisted in if insisting upon Douglas' swindle as a Democratic measure, and in favor with the National Administration.

Gov. Seymour's Veto.

Gov. Seymour has vetoed the liquor bill lately passed by the New-York Legislature. The veto message is long and ably written. The objections urged by the Governor to the bill are, in substance, these:—

That the right of the citizen to be secure from unreasonable searches, which is guaranteed to him by the constitution, is violated by the provisions of the bill, which authorizes, merely for the sake of discovering evidence of the possession of intoxicating liquors, intrusions and searches in dwellings, which it is not now lawful to break open and enter, even in case of murder and other heinous crimes.

That the seizure of liquors, followed by their forfeiture and destruction, as directed by the bill, is contrary to that provision of the constitution which forbids the taking of private property "without compensation and due process of law."

That, contrary to the constitution, the bill compels persons suspected of offenses against its provisions to become witnesses against themselves.

That the bill provides for pronouncing sentence against persons suspected of being concerned in the sale of intoxicating liquors, without the complete proof, which, in other criminal cases, is always required by law.

That the extreme severity of the provisions of the bill will prevent its due execution in many places, make it difficult everywhere, and finally, in all probability, lead to the general neglect of its enforcement.

An attempt was made in the Senate, to pass the bill by a constitutional majority, which failed, and the measure is now considered dead for the session.

Small Pox.

This disease seems to be prevailing in several townships in this County, causing great alarm and consternation among our citizens. In Athens township these have been many cases, and several deaths. In Pike township, several cases have occurred, one family having lost several members.

In Rome we also learn there are several cases. On Wednesday week, Fausa Long, an old and respectable citizen, father of John F. Long, Esq., fell a victim to this disease. Mr. Long had been at Elmira, a short time since, and soon after his return, was taken sick. Not being aware of any exposure to small pox, he was not treated for the disease, until too late.

Hitherto this place has escaped. But it is clearly the duty of our citizens to provide all possible means of protection against its approach. Those who have neglected vaccination, should at once see that every member of the family is vaccinated, while those who have been should be re-vaccinated, because it is an established fact, that in some subjects, after a lapse of years, the virtue of the operation appears to be lost.

ANOTHER COMET.—A correspondent of the Providence Journal, dating from Brown University, states that a brilliant comet is in the northwest. Its altitude at seven 7 1/2 P. M., on Wednesday, was ten or twelve degrees, and its bearing a little to the west of northwest. Notwithstanding a pretty strong twilight, it appeared quite bright to the naked eye, with a tail somewhat hoary, and four or five degrees in length. With a good common spyglass, this nucleus was very distinct, and pretty well defined.

DWELLING HOUSE AND SEVEN CHILDREN BURNED.—The dwelling house of Mr. Cooper Tyler at North Lawrence, St. Lawrence county, was destroyed by fire on the 29th ult., together with all its contents.—Seven small children, the oldest being only nine years of age, were burned to death in the house.—Their parents had, after seeing the children safely in bed, went to a neighbor's house to pass the evening. The fire broke out soon after they left their house but they unfortunately returned too late to save any of the children or any portion of the furniture.

COL. JOHN W. FORNEY, Clerk of the House, has become an equal partner in the Union news paper.
