

Three Days Later from Europe.

The British mail steamer, Europa, Capt. Shannon, from Liverpool March 25th, arrived at New York Saturday afternoon, with three days later news from Europe.

Although no direct official answer has been received by the British Government, the Emperor will give no answer at all to their joint summons. This is considered authentic, from the London Times of the 23d of March alludes to it in these terms, while speaking of Russia. The Times says: "A power which announces that it will return no answer at all to the summons of the western cabinets, and thus gives the signal of war."

We submit the following particulars of the movements of the French and English land forces. It is thought the French expeditionary army will stop at Gallipoli, and that the English will establish themselves in the Gulf of Enos. After a short time for repose, the Anglo-French army will be despatched to Adrianople and to the Crimea.

The London Chronicle says, the first squadron of English cavalry will embark on Dover or Folkestone on the 1st of April, passing through France. The following is the first announcement in the Paris papers. For some time past it has been rumored, as is known that a part of the expeditionary corps sent from England to the East is to pass through France. We are assured that the project is to be carried into execution. Two thousand of the cavalry, and one thousand of the artillery of the English, will be sent to Gallipoli, to proceed to Mar-selles and Toulon, by Lyons and Rhone. The cavalry is to consist principally of dragoons, one of first corps of the British army. We are informed, also, that Lord Raglan and his staff will arrive at Paris within the first two or three days of April, on their way to Turkey.

The French despatches from Constantinople state that the object of Gen. Sir John Burgoyne's recent visit to Gallipoli, was to examine the capabilities of the place with a view to its fortification, so as to render it a good naval station for our vessels of war. For the present, however, Gallipoli is chiefly mentioned as the rendezvous of the French troops.

The Sultan intends to place at the disposal of the English and French armies, on their landing, 12,000 horses and 18,000 mules.

From the seat of war it is reported: The latest authentic despatch from Bucharest mentions great stir in the Russian armies. Some reinforcements had arrived, and it was known that the Czar had desired the capture of Kalafat, at any risk and cost of money or life.

Letters from Orsova state, that a smart affair of arms came off in front of Kalafat on the 8th March.

There were skirmishes at Kalafat, from the 11th to the 16th March, but with slight loss of life.

On the 2d March, an engagement took place opposite Brash, where the Russians attempting to cross the Danube to destroy some work on the right bank, were vigorously repelled by the Turks, and lost 120 killed.

Democratic State Nominations. FOR GOVERNOR. WILLIAM BIGLER, OF CLEARFIELD CO. FOR JUDGE OF THE SUPREME COURT. JEREMIAH S. BLACK, OF SOMERSET CO.

FOR SENATE COMMISSIONERS. HENRY S. MOTT, OF PIKE COUNTY. SHILOH-POX.

We hear that rumors have been circulated that cases of small-pox have occurred in this borough. Such reports are totally without foundation. There has not been a case of the disease occurring here, and we have every reason to hope that we shall escape entirely.

Our citizens almost universally have resorted to vaccination, as a safe-guard, and if any faith can be placed in medical experience, the present type of the disease, even should it reach us, would be confined to very few cases, and those of a mild character.

A bill, regulating the execution of criminals passed the State Senate on Friday, by an almost unanimous vote. An amendment to this act provides that the number of persons present at any execution, including the Sheriff's or Coroner's Deputies, shall in no case exceed twenty-five; that any Sheriff or Coroner allowing a greater number to be present, shall, on conviction, be fined \$500, one-half to go to the informer and one-half to the county; that during the hours specified by the death warrant, the enclosure where the execution is to take place shall be under the exclusive control of the Sheriff or Coroner, and it shall be the duty of these officers, or the general Deputy of either, to inflict the punishment of death in cases provided by law, and in no case shall such punishment be inflicted by a professional hangman, or one employed wholly for that purpose.

SUNDAY AND ERIC RAILWAY.—The Philadelphia Ledger states that on Monday evening, there was a special meeting of the City Council when it was expected that such an exhibit would be made by the President of the Sunday and Eric Railroad Company, as would entitle the Company to the conditional subscription of two millions of dollars made by the city to the work a month or two ago. In Select Council there was no quorum, and consequently nothing was done. It is understood that the absentees were purposely out of their seats that there should be no quorum, thus to defeat the subscription. There is some apprehension we believe that the proposed road will not be as thoroughly identified with Philadelphia interests as it is desired it should be. There is talk of connections with the Venango, Catawissa and other roads, which will form a detectable direct road from the interior of Ohio to the city of New York.

FIRE COMPANY.—The Town Council having purchased a fire engine and apparatus, a Fire Company was organized on Tuesday night last. The officers are as follows: Foreman—Wm. C. BOGART. First Assistant—COL. JOHN F. MEANS. Second Assistant—D. C. KINSMAN. Pipe-man—JAMES P. KINSMAN. Secretary—J. DE LA MONTAGNE. Treasurer—ALLEN M'KEAN.

FIVE HUNDRED DOLLAR REWARD.—The gross and criminal act of vandalism at Washington, which we recorded some weeks since as resulting in the destruction of the block of marble presented by the Pope of Rome as his contribution to the national monument, has not yet been traced to the disgraceful perpetrator. The Washington Monument Association offers a reward of five hundred dollars for his detection.

SALE OF THE MAIN LINE.—The bill for the sale of the Main Line of the Public Works, passed the House of Representatives Tuesday last—yeas 64, noes 30. The amendment proposing to make the Stockholders individually liable in default of payment of the instalments, was negatived—yeas 31, noes 56. The minimum price fixed is eleven millions. The bill now goes back to the Senate for concurrence.

CAPT. SCHADENBERG, who it will be recollected attempted to kill Mr. Fuller, some time since, by shooting him with a pistol, has been found guilty by the Court at Washington city, of a simple assault and battery, and sentenced to six months imprisonment, and a fine of one hundred dollars. The jury are entitled to a premium for their verdict.

THE Weaver's Advocate says: "Eq Wilcox offers to the North Penna Railroad Company the right of way across his farm, bid fifteen acres of land for the use of said Company. Mr. Spring and Mr. Rice also offer the right of way."

CONSOLIDATED.—The Elmira, Williamsport and Catawissa Railroads are now consolidated. The first of July is now specified as the time for the completion of the Roads.

Alfred H. Hanson, of Michigan, has been appointed U. S. Consul at the Port of Rio Grande, in Brazil.

IMPORTANT DECISION.—Judge Pearson, of Harrisburg, recently made an important decision as to the power of Courts of Quarter Sessions to revoke licenses. A rule was granted on James Gowen, of Harrisburg, to show why his license should not be revoked on account of violating the law in selling liquor to a minor and apprentice; also, for selling on Sunday. It was proved that he had sold liquor on Sunday to a minor apprentice, and to several others; and two records of conviction were produced, the one by a justice of the peace for selling liquor to a minor apprentice, the other by a different magistrate for selling on Sunday; both of which offences were committed since the renewal of license at the January Court. Under these facts, Judge Pearson, in an able, elaborate opinion, decided that the Act of March 11, 1834, invested the Courts with power to revoke licenses. The power is a discretionary one with the Courts, to be exercised or not as the special facts might indicate.—Mr. Gowen's license was revoked. The decision is important, as doubt has existed as to whether Courts have the power to revoke licenses for violations of the Sunday Act and selling to minors.

BOSTON MONEY MATTERS.—In Boston, the Money market is still hard and the demand unabated. On call rates range from 12 to 18 per cent, among the brokers, but these figures are submitted temporarily with a view to carry loan over the present week. Quotations for good paper range from 10 to 12 per cent, while the banks are not doing a great deal to ease their customers over the hard places.

A HANDSOME REWARD.—The United States Government has presented the owners of the ship Anetara (which took off a portion of the passengers on the wrecked Steamer San Francisco) the sum of \$25,000 as a token of gratitude for the service rendered. It was a voluntary gift, as the owners of the ship made no charge.

J. M. Alexander, Esq., has retired from the Luzerne Union, having disposed of his interests in the concern to Gen. S. K. Winchester. Mr. Winchester has associated P. K. Barger, with himself in the conduct of the Union.

The Senate bill, appropriating \$3,000,000 for the construction of six first class frigates, passed the House of Representatives on Friday, by yeas 113 to noes 43.

THE PROHIBITORY LIQUOR BILL.—The whole subject of a prohibitory liquor law is now likely to go to a Committee of Conference of the two Houses of the Legislature. The point of difference between the House and Senate seems to be this.—The House bill gave the enactment immediate force, and the Senate insisted on its continuance in force. The Senate insisted, instead of this, its own bill, giving force to the enactment only upon its being sanctioned by a vote of the people. The House refused to concur in this amendment, and the Senate have insisted on it and directed a Committee of Conference. The House will probably appoint its committee to-day.—This, then, is the present position of affairs. The main principles of the bill having passed both Houses, the committee of each House must be composed of a majority of the friends of that principle, and the joint committee can only act upon such points in the bill as are in dispute between the two Houses. If the report of the committee, when made, is negatived in either House the whole measure falls, and can only be reviewed by the introduction of a new bill.

LIUTENANT STRAIN ALIVE.—The arrival of the steamer El Dorado at New Orleans brings the welcome intelligence of the safe arrival of Lieut. Strain and his party, on the Pacific side of the Isthmus of Darien. Lieut. Strain is an old traveller. His experience in roughing it, the calm courage and unshaken perseverance he has always exhibited in his adventurous explorations gave great confidence to his friends in the hope of his ultimate safety.—Their expectations have been fortunately verified by the result. Lieut. Strain is not only a hard adventurer, but a spirited chronicler of his trials by flood and field, and we shall expect an interesting account of his wild experiences among the savages of New Guinea. Lieut. Strain is known as the writer of an interesting series of his travels in South America. The crossing the continent of South America, from the Atlantic to the Pacific, starting, we believe, at Buenos Ayres, and joining his ship on the Pacific ocean, is one of the many recorded experiences in travel of the adventurous lieutenant. We expect to hear from him a stirring history of adventure, and his safety is a benefit to literature and science, as it is welcome news to his friends.

FATAL ACCIDENT.—We are again under the painful necessity of recording another of those sad accidents which befalls a whole family, and robs society of one of its most useful members. The particulars of the sad affair as near as we can learn, are, that Mr. A. Elliot, a young man of 24 years of age, while at work at an excavation on the Williamsport and Elmira railroad, on Mr. Dull's section, went under an embankment, for the purpose of removing some stones, when the mass of earth gave way burying him beneath it, crushing him in a most shocking manner and killing him instantly, and somewhat injuring two Irishmen. Mr. Elliot was a young man of good, steady habits, and possessed of business qualities rarely met with among young men of his age. He leaves a large circle of friends and relatives to mourn his sudden and early departure.

This stroke of Divine will falls doubly heavy upon this family, it being only a few weeks since, when a cousin of the deceased was suddenly cut off from mortal existence by the falling of a tree, which instantly killed him. We have the assurance that the sympathies of the whole community are with them in this their double bereavement.—Trojan.

TRAGIC SCENE.—The Cleveland Leader says in Waupaca county, Wisconsin, a farmer sold a yoke of oxen, and received his pay in paper money. The man who purchased the oxen, being in a hurry to start off, requested the farmer to assist him in yoking them up. He accordingly went to the yard with the man for that purpose, leaving the yoke on the table. On his return to the house, he found his little child had taken the money from the table and was in the act of kindling a fire in the stove with it. From the impulse of the moment, he hit the child a slap on the side of the head, so hard to knock it over, and in so falling, it struck its head against the stove with such force as to break its skull. The mother, who was washing a small child in a tub of water, in an adjoining room, on hearing the fracas, dropped the child and ran to the room where the noise proceeded—and was so much terrified at what she there beheld, that she forgot the child in the tub for a time, and upon her returning to the room, she found the child drowned! The husband, after a few moments viewing the scene before him, seeing two of his own children dead, without further reflection, took down his gun and blew his brains out!

The steamer Florida brought to New York on Tuesday, between thirty and forty bushels of green peas, and six champagne baskets of straw-berries. They were raised at Savannah and Florida. This season is said to have been favorable for fruit at the South, and the next steamer from Savannah will doubtless bring large quantities of peas, strawberries, &c.

ENTRANCE OF A HUMAN BODY IN A FEVERED STATE.—Yesterday afternoon, two stout workmen were engaged in excavating a cellar on Lincoln st., a short distance below John street, they came in contact with a hard substance about two feet below the grade of the street, which, after some trouble, was excavated and brought to light, and proved to be a human body in perfect state of preservation.—This extraordinary specimen of the human race is a male about five feet seven inches in length. The hair is very short, and seems to have been shaved in several parts, as its insertion is perfect and apparently, and differing in shape and expression from any of the races of the present age. What is most remarkable, the body is perfect in all its parts, every muscle, fibre and nerve being perfectly developed. The color is rather of a light gray, and in some parts approaches very near the white man, although the may have been produced by the action of the soil in which it has been buried; perhaps for ages. A number of eminent scientific gentlemen visited this remarkable and strange exhibition yesterday afternoon, but nothing of a definite character was arrived at relative to the cause, or the length of time it had lain there, although all agreed that several hundred years must have elapsed since it was buried. The body will be removed to the City Council Chamber, in the City buildings, this morning where it may be seen by those of our citizens who are desirous of witnessing one of the most wonderful freaks of nature. On Monday it will be shipped to the National Academy in Washington, where it will remain permanently for the inspection of the world at large.—Cincinnati Enquirer.

PAINTED REMOR OF THE PROBABLE CAPTURE OF FORT BELKNAP.—The Bonham, Texas, Advertiser, of March 9th, contains the following alarming news, which we are disposed to pronounce incorrect, inasmuch as late telegraphic despatches from Texas make no mention of it: We stop the press to give the following intelligence, which was brought last night, by George N. Bon, Esq., of these it is said that he had received a letter from the Chaplain at Fort Belknep, (transmitted by a confidential servant of Mr. B.) stating that the whole force of the garrison, except three men, were off in pursuit of the murderers of Col. Slem; and that 400 Indian warriors were about the Fort challenging the commandant, Major Merrill, to a fight. The had dispatched a party with 1000 Government cattle, of which they had taken possession.

Major Merrill was temporizing with them—giving them goods and provisions—in the hope of two companies of recruits hourly expected.

Fort Belknep is a collection of buildings on an open plain, and sixteen men can do very little for its defence. Unless the expected recruits reached them soon after dispatch of the Chaplain's letter, Maj. M. and his little command are already massacred.

A BAND OF ROGUES ARRESTED.—A regular organized band of rogues have just been nabbed in the town of Candor. They have, for the past six months, been the terror of the neighborhood, committing every species of petty crime. Five persons were arrested last week, by officers from Candor, and taken to the County Temperance Boarding House, there to await the action of the Court. Their names are Wm. Hutchinson, Wm. Wright, Platt and Charles Doty and Phil Whitney. They commenced their operations last Fall by attempting to burn the dwelling of Edward Gates, but only succeeded in driving the family out. From that time until last week they continued their operations with impunity. Last week they broke into the store of J. Thompson, at Candor Centre, and took from the drawer all the small change that was in it. This last bold burglary led to their detection. The people becoming alarmed for their safety, while such rogues were allowed their liberty, turned out, headed by the officers of the law, and succeeded in capturing their ruffian band, Wm. Wright, who confessed, and understood, who his confederates were, and also told where a lot of keys could be found; and on searching the spot, seventeen skeleton keys were found. On his person were found a revolver and a dirk knife.—Owego S. T. Times.

SINGULAR CASE.—Mr. Manter, of Stark, has suffered from a disagreeable sensation in his stomach and tickling in his throat, for a year or longer, and had occasionally raised blood, which he supposed that the sensations were various dejections, and in reality produced by worms, as various strange symptoms are known to be. The cause, however, has turned out to be stranger still. One morning, recently, Mr. Manter, feeling the tickling in the upper part of his throat, and something biting him there, he went to look into his mouth. To his astonishment he plainly saw the head and eyes of a lizard crawling over his tongue, and he saw, it alarmed him so much that he feared for the consequences, and tried to turn it off. At any rate, he was induced to take some vermitage, and shortly obtained relief by the expulsion of the extraordinary tenant of his stomach. The lizard was about six inches in length. Mr. Manter then related that about three years ago, he had drunk at a brook, in which he observed many little lizards, and expressed the opinion that he must have swallowed it at that time.—Levidon Farmer.

GREAT RACE NEAR NEW ORLEANS.—The great post stake race for twenty thousand dollars came off last Saturday afternoon, (April 1st,) on the race course near New Orleans, and caused the most intense excitement. Four horses were entered, viz: Lexington for Kentucky, Lecompte for Mississippi, Highlander for Alabama, and Arrow for Louisiana. The race was won by Lexington in two straight heats. Arrow was distanced in the first heat. The second heat Lecompte came in second, and Highlander third. The track was very heavy. The time of the first heat was 8 min 32 sec, and the second heat, 8 min. 4 sec.; Highlander was distanced in the second heat. There was great disappointment in the result, being having run very high on Highlander. It is said that over one hundred thousand dollars changed hands on the occasion.

THE METHODIST EPISCOPAL CHURCH CASE.—This case, which is now before the Supreme Court of U. S., is an appeal from a decision of the Ohio Circuit Court, adverse to the claim of the southern portion of the Methodist Church to a share of the Cincinnati Book concern. The Counsel employed by the northern Branch of the church is the Hon. Thomas Sawyer, Mr. Henry Burdette, of Ohio, and Samuel Badger, of North Carolina, advocate the cause of the southern.

The argument of the appellants closed in the United States Supreme Court, at Washington, yesterday. The case excites a great northern and southern interest, among the large sects of Methodists.

The first edition of Colonel Benton's "Thirty years in the United States Senate," is to be 50,000 copies, and most of these will be taken to fill orders which have already been received.
