In the matter of "The First Universalist Society of Towanda," Bradford county. In the Court of Com-mon Pleas of Bradford county of May T. 1854,

NOTICE is hereby given, that Stephen Powell, Geo. Sanderson, David L. Scott, Percival Pow-ell, Gordon F. Mason and others on the 21st day of February A. J. IN'INTOSEL DENTIST. HAVING entered into an arrangement by which he can have BLOCK TEETH furnished to or ler, informs the public that he is prepared to moun suction plates in this new and improved method. The great superiority of the block style of moun ing plates is at once apparant to those who have for any length of time worn artificial teeth. To those who have yet to be initiated, it is only necessary to say, that in the old method of mounting the plate with a succession of single teeth, it was no unusual thing for a tooth to drop off; by the new method no such accident can take place, the teeth being all connected by each other. In the second place, the plate with block teeth is always clean and sweet, be-

cause there is no chance for deposits of food being made, however small, the upper rim being capped thus effectually precluding even the saliva from ma king a lodgment, and in the third place, the adapta tion of the grinding surface is better fitted for mas ticatory purposes, the irregularities being made exactly to correspond with those of the teeth of the op posing jaw.

With a properly fitted suction plate, having an air chamber, and mounted with block teeth, a person may crack kickory nuts with impunity,

"And sleep in spite of"—loolkache.
