NEW GOODS!

COLLINS & POWELL,

WOULD respectfully call the attention of the public to their large stock of Men's and boys' clothing, consisting of every variety of *roadcloths, Cusumers, Doublets, Ties, Knives, Jeans, Linens, Shirts, Collars, Stacks, Cravats, Hosiery, Suspenders, Hats, Caps, Trunks, Cases, &c.*

which will be sold cheaper than the same quality can be sold in any other establishment in this country.

They have also on hand a well manufactured assortment of

Ready-Made Clothing,

to which we invite the attention of buyers. Our Clothing is mostly made up in the shop and not purchased at "shop-shops"—as some are wont.

Orders in the Tailoring line executed in the most fashionable manner, at the shortest notice, and warranted.

The public will please notice one fact, that no one not practically acquainted with the business is capable of judging of the quality and make of a garment; hence the reason why the community have been so much imposed upon by a certain class of community who deal in the article, who, if they were not practically and professionally cheats, could not possibly know nothing about the business. They are certain, if the public would consult their true interest, they would purchase only of those acquainted with the business.

Towanda, April 12, 1854.

TWICE BURNT OUT!

GEORGE H. BUNTING,

Over J. Kingsbery's Store—Entrance next door to

GRATEFUL for past favors, announces to his friends and the public in general, that he still keeps on hand a good assortment of **REAR MAKE CLOTHING**, which he will sell cheap for Cash. He believes that a "Twice burnt out" is worth more than a slow shilling. He also has commenced manufacturing Clothing—selecting the choicest materials in the city and employing the best of workmen in making them up. He would assure his customers that his Clothing is manufactured under his own eye, and in his own shop, and not let out by the job to unexperienced or incompetent workmen. Thus, persons wishing a suit or any portion thereof, can order the same with a perfect certainty of getting a good fit.

He has also on hand a general assortment of gentlemen's **Shirts and Collars**, which he will sell cheap for cash.

Custom work promptly done as usual. He invites his friends to call on him at his new quarters above Main street, in said country, and be accommodated by calling on him, where they can see it operate. It is well demonstrated that this machine is the best patent now in use. Its validity has been established by trial at law in Boston, in July, 1852. This trial resulted in fully confirming and establishing the claims of Howe's Original Patent to the exclusive right and use of all needle and shuttle machines, or their equivalents, and the stitch and seam formed thereby.

G. H. D.

The public are cautioned against purchasing spurious Machines, as an inferior Machine now in use inflicts upon this invention, and all parties who have infringed, by using Machines or otherwise, who wish to save legal expenses, may obtain proper license under the original patent by applying as above.
