purchased at "slope-shops"—as some we would
say.

fashionable manner, at the shortest notice, and war-
ranted.

The public will please notice one fact, that
no one not practically acquainted with the business
is capable of judging of the quality and make of a
garment; hence the reason why the community
have been so much imposed upon by a certain class
of community who deal in the article, who, if they
were not practically and professionally cheats, could
of necessity, know nothing about the business.
They are certain, if the public would consult their
true interest, they would purchase only of those ac-
quainted with the business.
