vices rendered. Sam, (to his steward,) bring me a b g of guiueas."

Not being disposed to prolong the interview, or accept his offer, I walked to the starboard gangway without reply, and entering the first cutter pull ed for the Constellation. The moment I reached her deck, I ordered the boat to shove off and re turn to the brig, and then walked aft to meet the commodore.

I proceeded at once to detail my adventures, so far as was necessary to explain my appearance in his vessel, and concluded by surrendering myself a prisoner. He heard me through, patiently and courteously, and then, pursuing his own investigation, inquired the particulars of Seymour's conduct and cruise. When I had finished a brief sketch of the same, he abropily asked if all her slaves were then ashore, and all hands and Seymour aboard .-I told them they were "Mr. Roberts," said he, to his fourth lieutenant,

" take ten men and board the ship which has just anchored between us and the slaver; she has long range of cable out; present my respects to her commander, and request him to heave-short; assist him with your men, and remain on board of her till recalled Mr. Thompson, (first lieutenant) clear away and man the starboard tattery -load with grape and canister, and order the gunner to open the inagazine and stand by to pass up pow

By the time these orders were obeyed, the merchantman had hove short, and the brig lay exposed lo view.

"Take good aim, my lads," said Montague, " at the slaver. All ready. Fire?' At the word, the whole of the Constellation's star

board broadside was poured into the brig, tearing open her bulwarks and dismounting her guns .-For five minutes, the frigate continued a most terrible battery, and Montague then perceiving that the brig was a total wreck, ceased firing, and ordered the boats to be manned to board her As the men were jumping into the boats, I observed that the brig was evidently beginning to sink, and was communicating that fact to an officer near me, when an explosion, londer than thunder, rent the heavens, and the slaver, blown into ten thousand fragments, flew into the air For an instant there was a dead silence, which was followed by the falling of the shattered masts, spars and planks of the brig, mingled with the dead bodies of her men And thus as it ought, ends the " CRUISE OF A GUINEA.

BLOODY WORK AT SEBASTOPOL !

# HEAVY LOSSES ON BOTH SIDES !

**Terrible Destruction of English Cavalry!** 

The Collins mail steamship Baltic, Captain Comstock, arrived at New York at nine o'clock Sunday morning. She left Liverpool at two o'clock on Wednesday afternoon, the 15th inst.

The news is four days later, and of the highest importance.

There had been a great battle before Sebastonol in which sixty thousand Russians and fifty thousand Anglo French troops were engaged. It occurred on the 5th inst., and lasted nearly the whole day. Eight thousand Russians and five thousand tion. The troops were : of the allied troops were placed hors du combat .-The allies claim the victory.

With every wish to do justice to the admirable bravery of the allies, and with no desire to blacken news already too disastrous, it is impossible to escape the conviction that the army before Sebastopol is a position of great peril. A portion of the intelligence, both good and bad, is hushed up from the public, but from the facts that have transpired, very different inferences may be drawn than those set forth semi officially in the London Times.

The best that can be said for the news on the ries gained each

CZERNOVITZ, Nov. 11-On the 6th the whole garson of Sebastopol, amounting to 65,000 men, made a sortie.

A furious battle ensued, which was not ended when the messenger left, but the allies had the advantage. This composes all the reliable intelligence re-

erved of these operations. The Russians attack f the 5.h is conceded on all sides to have been

very favorable, and to have inflicted immense loss on the allies, although they were victorious. The latest dispatches published at Vienna, dated Nov. 11, reports a sortie of the whole Russian garrison on the next day-the result of which was not known. Nothing is more likely than that such an assault would be made; and in the condition of the Allied armies after the battle of the previous day a disastrous result would not be very surprising.

## Attack upon the Allies by the Russians.

The London Times of the 15th gives the follow ing dispatch from Vienna, received by Submarine and British telegraph .

VIENNA, Monday Evening. The following is an epitome of several authenti lispatches of the 5 h from the Crimea:

" Early on the morning of the 6 h the garrison of Sebas opol and the army in the field made a vi olent attack on the right wing of the Allied army composed of the English Foot Guards, and the Second, Third and Fourth Divisions.

" Gen. Bosquet's divisions advanced to the sup port of the English, and subsequently other French

roops, under Gen. Canrobert, arrived. "The battle lasted till the afternoon, when the Russians retired, having suffered a heavy loss, and leaving several hundred prisoners in the hands of the English; the latter lost a greater number of men Gens. Brown, Bentinck, Buller and Torrens were more or less dangerously wounded.

" The prevalent opinion here is, that if such an other victory is obtained, the Allies will be obliged to raise the siege; but it is a good sign that last Russian dispatch publish only reaches up to the 5th. Its seuse is, that two sorties were made on that date-one against the right wing of the Allics, and the other against the left wing of the siege works On the right wing of the army the gons of one bat tery were spiked, and the other 15 guns were spik The loss on both sides was very severe. French division, which pursued the Russians, and

attempted to enter with them, was repulsed with great loss. " A terrific storm is raging here to-day. " Prince Gortschakoff has officially announced to Count Buol that Russia is prepared to treat direct

with Austria on the basis of the four conditions. This is considered here a palpable attempt t Sanguinary Fights on the 4th and 5th cause disunion between Austria and the Western Powers."

### Slaughter of English Cavalry.

The mast noticable incident which occurred dur ing the battle of the 5 h, was the terrible destruction of English cavalry, of which a rumor was brough by the Canada, and telegraphed from Halifax. seems that the charge of cavalry that precipitated so many into certain destruction was the result of a mistake, or, at least of a misconception of orders arising from the esprit de corps that induced the cavalry to attempt some brilliant exploit to retrieve the secondary part they played at the battle of Alma In short, misconst uing an order from the commander-in-chief, conveyed by Captain Nolan,

Lords Lucan and Card gan rode the light horse a plain a mile and a half in length, and exposed to a cross fire, full at a Russian battery of 30 guns !-The attempt was madness, and the result destructurned.

FATAL AND DISTRESSING ACCIDENT .- About noon on Thurday last, as Mr. JOHN RANSOM, wife and child were crossing the railroad track a short distance below the depot at Williamsport, in a top buggy, the horse obstinately refused to go either back ward or forward, and a wood train which was slowly backing towards them striking a loose car standing upon the track, drove it upon the buggy, which was crushed beneath it, killing Mr. Ransom almost instantly. The head of the unfortunate lady in falling struck a sharp stone which fractured her skull in the region of the eye, and she had other severe injuries upon her person. It is supposed that the violent tall from the buggy killed her, as the car did not run over her its headway being so slow that it was stopped by the tragments of the vehicle. Mr. Ransom saved himself by jumping from the buggy with the child in his arms, and endeavored to pull his wife out with him. No blame whatever for this fatal result can be attached to the engineer of the wood train or any other person .-

The accident was one of those melancholy casualties, which instantly snap the brittle thread of life expiration of their subscription; when, if it is not renewed, the paper will be stoppéd. and which human foresight cannot avoid. Special Correspondence of the N. Y. Herald. WASHINGTON, Nov. 26, 1354.

The President's message, which is already com-pleted, is to be kept back till the last moment, for ear some war like intelligence should be received before next Monday week which would render it

necessary to change its tone in speaking of our foreign relations. The message, as completed, i is unders'ood, is rather quiet, suggesting no ulterior steps as regards Spain, but simply stating the result of the negotiations up to this point, namely : a total failure in receiving any satisfactory apology or ex planations for the Black Warrior and other out rages. The President is determined-that is, as far as it is possible for a person of his peculiar or ganization to have a decided opinion--that Con gress must take the responsibility of any proceed g agains: Spain ; whilst at the same time th Message will be filled with the usual amount of

high sounding nonsense which has characterized Mr. Pierce's former messages and his editorials in the Union

The greatest alarm is telt by the Cabinet for fear Soulé should manage to kick up a row, and force the President to recommend the adoption of hosile measures. Even Marcy believes that if Soule is treated with disrespect it must be viewed as " national insult," whilst the contingency of his de

manding his passports and quitting Spain will be tantamount to a declaration of war. Of course the Cabinet are not quite so ignorant as not to under stand that under ordinary circumstances the dis-missal of a Minister would afford no reasonable ground for belligerent proceedings; but they

believe that the position which they have taken that the acquisition of Cuba is a cardinal point in their policy, leaves no resource open but to quarrel with Spain upon the slightest pretext The good sense of Congress is all that the country has to re-

It is not probable the document will be forthcoming, however, as the President does not in-tend to adopt its warlike advice.

#### Special Dispatch to the N. Y. Daily Times. Probable Dismissal of Messrs. Soule and Mason.

WASHINGTON, Monday, Nov. 27.

Mr. Piatt, Secretary of Legation at Paris, arrived n town to-day, bringing dispatches, which, unless rumor is entirely at fault, will prove a text for much talk in Washington and out. Their contents at least, are understood to be interesting and highly

mportant. Both Mr. Soule and Mr Mason he holds to have of Bridgeton, N. L. have found in the bara found in the b recklessly committed our Government in that awkward affair-the interference with the movements of Mr. Soule by France. There is reason to sus-pect, indeed, that our Secretary will not be at liberty to digest at his leisure, and quietly, his own impressions on the subject. For, Mr. Mason is while Mr. Soule is almost certain to be dismissed from Madrid. Both have anticipated dissatisfaction on the part of our Government, and have written home with that reference. Their exclusion cannot be resented, as we have repeatedly recog insurance, we are informed, will be more than nized the right of a Government to decline inter course with a Minister who is offensive to it. Mr.

Pian's dispatches probably have reference to this malter.

Correspondence of the Courier & Enquier, Nov. 23. Col. Kinney's Designs-Colony of American Rifle

men in the Mosquito Territory The meditated expedition to Central America, under Col. Kinney of Texas, may lead to important results. He is to be the local agent of the Central American Land and Mining Company, which claims to be the sole and rightful possessor of San Juan and all the surrounding territory for three or four hundred miles up and down the coast. The views of Col. Kinney are understood to be of a fil bustering character. He and his rangers will assert the title of their p incipals to the Mosquito country by the strong hand it necessary ; and will receive a million or so of acres as their fee for so valuable a service. But it may be doubted wheth er, in these degenerated days, working men are tot more essential to the foundation of empire than fighting-men. The establishment of a few hundred sharp-eved American riflemen in that region, how ever, will have a tendency to adjust some of the roublesome questions which have for a number of years disturbed our relations with Central America

ACCIDENT ON THE ELMIRA, CANANDAIGUA AND MAGARA FALLS ROAD.—The Morning's Express ain on the Elmira, Canandaigua, and Niagra Falls Road, when about two miles beyond Millport, going north met with an accident which resulted in serious injury to THOMAS BALDWIN, who was in the baggage car at the time. He had two or three ribs broken, and several severe contusions and flesh bruises. His injuries are, we are pleased to tearn, not so severe as was at first supposed. None others were injured. The accident occurred, as is supposed, while the train was descending the grade by the sliding of one of the forward wheels of the aggage car on the axle. throwing the baggage car from the track on one side, and the fast passenger car on the other. The baggage car performed a complete somerset, and was smashed fine Th passenger car was somewhat injured but not a total The train was running slow at the time, and the accident, it is but just to say, was unavoida ble. as much as a defeat. At the same time, so closely have these affairs been drawn, that the Russians itable to Brigadier General Scarlet and the officer qually with the allies, claim the advantage .-It is now admitted that the defences of Sebastopol were underrated, the bravery of the enemy underrated, and the force of Menschikoff in the field altogehter unexpected.

The intelligence of this battle, although considered a great triumph to the allied army, caused a very depressed feeling in France and England -The greatest exertions were being made to send out reinforcement to the Crimea.

It is stated in correspondence from Berlin of the 12:h. that the Russian reply to the late Proseian note has arrived there. The Russian cabinet does not unreservedly accept, but is disposed to discuss the four points as a basis for negotiation We learn that Prince Gortschakoff has officially announced to Count Buol that Russia is prepared to treat direct with Austria on the basis of the four conditions. This is here considered a palpable attempt to cause disunion between Austria and the Western Powers.

There was a rumor in Vienna that Baron Roth. schild, finding his recent purchase of the Austrian government railways a bad bargain, offered the government a loan of 200,000,000 frances to cancel the agreement. His proposal, if true, will exercise a considerable influence on financial affaire.

#### The French Official Report.

Gen. Canrobert's official report of the battle of Nov. 5 is published in the Moniteur of the 13th .-He savs :

The Russian army, swollen by reinforcements from the Danube, as well as by the combined reserves of all the southern provinces, and animated by the presence of the Grand Dukes Michael and Nicholas, attacked yesterday, Nov. 5, the right of English position before Sebastopol. Tho English army sustained the attack with the

most remarkable firmness and solidity. I supported it by a portion of General Bosquet's divisi as well as by the troops, which were nearest to the English position.

The enemy, who far outnumbered our force. beat a retreat, with a loss estimated at from 8,000 to 9.000 men.

The struggle lasted a whole day.

At the same time General Forey was forced to repulse a soitie made by the garrison, and under his energetic command, the enemy were driven back into the place, with a loss of 1,000 killed and wounded.

The brilliant day, which was not purchased without considerable loss by the allies, does the greatest honor to our arms.

The siege continues with regularity. (Signed) CANROBERT.

> FIRES IN WAYNE COUNTY .- From the Honesdale Herald of the 16th, we gather the following particulars of the recent fires in that direction :

The people of our Borough were again aroused cry of fire last Sunday morning about k. The fire was discovered to be in the by the 5 o'clock. rear part of the Barn of the Honesdale House, now kept by David Jillard. The fire companies were on on the ground and the flames were prevented from spreading to other buildings in the vicinity. There were several horses and carriages in the

barns, but a portion of the property was saved .-Three horses, one cow, and all the hay, grain. &c., were burned. Loss probably about \$15 000.

This makes seventeen horses and two cows that have been burned in this borough within about 14 months .- The Dwelling of Wm L Gainsfort, two miles below Honesdale, was destroyed by fire Thursday night at 121 o'clock, together with every

article of furniture, clothing, provisions, &c. The fire was far advanced when discovered, allowing the family barely time to escape with their lives Some of the adult members caught up the clothing they wore the previous day, but the children were carried out in their sleeping garments. His new dwelling, near by, was several times on fire, but happily saved.

Mr. G.'s, accounts, notes, and papers, were all burnt. Loss estimated at \$1200, only a small part of which is covered by insurance. The house belonged to the Del & Hud. Canal Co., and was of little value. The fires are suspected of being the work of an incendiary.

THE NEW YORK " VITRIOL" OUTRAGE .- A man named THEODORE H. GRAY had been arrested in New York on the charge of having been engaged in throwing vitriol on the dresses of ladies on leav-

ing the theaters and places of amusement at night The Express says:

" By the operations of Gray, rich opera cloaks, shawls, &c., to the value of many thousand dollars. have been rained, and in one instance the ankle of a young lady was severely burned by this dangerous fluid, thrown by Gray.

"Some of his triends, men of respectability claim that he is a religious enthusiast and partially deranged. Gray is a man of family and a mem ber of the Baptist church, and it is said in good and regular standing. He has been engaged in the printing business for five or six years, doing a large quantity of printing for various religious as-sociations. He is only twenty eight years of age, and noted for his amiable and inoffensive characler."

A large number of those who have suffered a the hands of Gray have preferred complaints against

him. The Commercial says: "The prisoner admits that he is guilty of all the charges thus far brought against him, and says he was led to commit these assaults by a religious in fluence. Being bitterly opposed to evil doers, he first commenced throwing vitriol upon the common street walkers, such as females of bad character.-He soon afterwards was convinced that person who went to theaters were almost as vile, and he was prompted to inflict this method of punishment upon them. He expresses much sorrow for his conduct "

MAIL ROBBER ARRESTED AT ELMIRA .- A series of extensive mail depredations having lately been committed at Elmira, Col. NonTH, an agent of the Department paid a visit to that place during the past week, and arrested LEWIS H. STONE, who was aken to New York.

STONE had been in the employ of the Elmira contractor, who carries the mail to and from the Erie Railroad cars ; and the opportunity thus given him to secrete mail-bags, he seems to have improved-or rather misimproved to its utmost. Ten mail bags, rifled of their contents, were found secreted in a vault near the barn where Stone stabled his horse ; and we are informed there is little doubt of his guilt. Col. North has been aided in this mat ter by Deputy Marshal C. K Loomis. The prisoner was arraigned before a U.S. Commissioner and committed to answer the charge of " abstracting the contents and embezzling valuable remittances from he U.S. Mails."

ERIE RAILROAD .- We learn from the New York Daily Times, that a strong movement in favor of Temperance has been made on the Erie Railroad The Superintandent, Mr. McCallum, has determined, so far as he is able, to prevent the sale of liquor at the Depots on the line of the Road. Turner's Station, in Orange County, has heretofore been the regular stopping place for meals, &c, and liquor has been sold at the bar in great quantities. The employes of the Company have been somewhat too prone to refresh themselves, the running of the trains was altered, so that few or none of them stopped for meals until the evil was abated. In consequence of this action, the bar at Turner's has gramme for Thanksgiving. been removed, the counter taken up and transport.

ed to parts unknown, and only coffee and spring water remain to be procured within the Depot buildings. At the private bar of the house, notice is given to the effect that no fiquor will hereafter be sold to persons known to be employed on the Road. Similar action, it is understood, will be taken at other points.

THE HARTFORD CATHOLIC EXCITEMENT .- The Bishop of Hartford, Rev. Bernard O'Rielley, pub lishes a letter in the Providence Journal, in which he states that he was not asked to give a burial place in front of the church in Hartford for Rev Mr. Brady ; that was not a suitable place for a grave being a public side walk ; that Mr. Brady owned a burial ground, where the Bishop had a right to suppose he would prefer to be buried ; that the Hartford church belonged to him, (the Bishop ;) and that had he been informed in season of Mr Brady's wish to be buried buried ' near the church' he would at once have directed his interment with-

She truly was a remarkable woman.

THE Pennsylvanian of Saturday contains an offiial call for a meeting of the State Central Com nittee, on the 26th inst., " for the purpose," as the call says, " of organizing the Democratic party on more permanent basis, consolidating it against

the secret and insidious assaults that have for : time impaired its usefulness and efficiency in carrying out our cherished principles, and to render it impregnable in future against the approaches of the various and dangerous isms and delusions of the day."

THE FOREIGN NEWS which we publish this week will be found of unusual interest. Several bloody ennagements had taken place near Sebastopol, in which the Allies were victorious but at an expense of life which is scarcely less disastrous than a defeat. The latest news is to the 6th of November on which day a final and decisive battle is believ. ed to have taken place. Further intelligence will be awaited with great anxiety.
