MUSICAL CONVENTION .- On the 6th instant the singers of several of the townships of the County, to the number of about ninety, assembled at the Methodist Church in this village. for the purpose of holding a Musical Convention, under the direction of Prof. W. B. BRAD-BURY, of New York. The Convention was in session four days-the average number in attendance must have been over one hundred. All appeared to be highly gratified with the teaching and the style of execution. These sessions were held each day, in which those present were either thoroughly drilled in the principles of the science oi music, or engaged in practicing church music, anthems, glees or chants. The Convention closed Friday evenof many, it was filled to its utmost capacity .-Several pieces of church music were sung in fine style, so far as a person who had no special ear for music, could judge. Solos, quartetts, duetts, glees and anthems, were also perry to the audience, and convincing every one, that those who took part in the performance, had improved rapidly under the instruction received the four previous days. At the close, the following resolutions, that had been prepared by a Committee appointed for the purpose,

were passed unanimously :-WHEREAS. He who commands his intelligent creatures. WHEREAS, He who commands his mielingent creatures, to sing praises to His holy name, has also given to them voices susceptible of cultivation and improvement; and, whereas, the science of vocal music is at the present time receiving special attention from persons of great experience and acknowledged musical talent—and improvements are constantly being made, both in methods of teaching and the style of execution, thereby rendering it necessary that they sing in choirs, to have occasioned reviews and oder the direction and instruction of an experience

us upon this occasion—for the faithful kindness with which has pointed out our faults, and instructed us how to correct them, and the interest he has taken in our improvement. It is our ardent wish that in his subsequent labors, he may be as successful as he has hitherto been, and that when the Last Great Day shall come, he, together with the thousands whom he has taught, may join that Heavenly Choir, and forever chant the praises of Redeeming love.

The Rev. B. J. Douglass offered the following, which was also unanimously adopted, after a few very able remarks by the mover :-

Resolved, That this Convention bear testimony to the nigh mind, tone and great utility, of the instructions of Prof. WM. B. BRADBURY, as commending him especially to the confidence of the Christian public, and that in view of the lamentable neglect of Sacred Music by the great mass of worshippers in our churches, we cannot but wish that of worshippers in our churches, we cannot but wish that his views on the true position and responsibilities of choirs; the exils incident to them and their proper remedy, together with the claims of music as part of the public worship of Almighty God. And also his remarks on the best mode of securing congregational singing were published throughout the length and breadth of our land, as tending to bring about a most desirable reformation in those mat-

We learn that a Musical Association was formed during some part of the session of the and its officers are Charles R. Coburn, of Towanda, President; S. P. Cook, of Rome, and D. L. We find the above paragraph going the rounds of the newspapers, and we desire to enter our caveat. The papers have done injury enough to "Mr. DILON H. BROWN, of New York." The first we knew of the accident to him, was by a telegraphic despatch to the N. Y. Herald. Who the deuce is "DILON H. BROWN of New York." But one span of the Bridge has fallen-and that without injury to any one.

THE WEATHER .- The intense cold of last week has been succeeded by a thaw, and on Balakava. Tuesday night a rain converted the snow into Convention, composed of the lovers of music, a state of "liquidation," extremely uncomfortin the townships represented in the Convention, able to pedestrians and ruinous to the sleighing. The indications were, that a sudden rise would take place in the river, causing many forebodings as to the damage likely to ensue by the passing away of the ice. An unusual quantity has formed, during the cold weather, and the river is frozen over almost its entire length.

## Latest from the Frozen Trains,

Great Suffering and Privation-Distress of Passengers.

We conversed this morning with a gentleman, a citizen of St. Louis, who came down last night from Springfield, and who gave us some information of the condition of affairs on the railroads. Our informant left Bloomington last Sunday, and by dint of severe labor, in which all the passengers toiled laboriously, the train succeeded in making its way through .-At one drift the snow was so deep that it overtopped the cars, and the train had to root its way through, completely hid from view, and enveloped in the bleak shroud. To aid the engine, the passengers turned out, and having a lot of shovels prepared for an emergency, worked for several hours in throwing the snow off the track. The intensity of the cold may be imagined, when it is stated that the ther-

mometer indicated thirty degrees below zero. Twenty seven miles beyond Bloomington a train of cars was frozen up in a drift, not able either to proceed or retreat, in consequence of a lack of fuel. The cars were filled with passengers, many of whom are women and children, and their sufferings may be conceived when we state that they had torn three cars to pieces ount of said note. The jury returned a ver- for fuel. While our informant was at Bloomington, an effort was made to reach the sufferers. Sleighs were started off to the spot, but after a day of weary labor, in which the horses were broken down and exhausted, they returnm, for lumber sawed, also for a certain part ed to Bloomington, having gone only twelve miles. The great depth of the snow the difficase occupied nearly three days; the court culty of getting through the huge drifts, lying the jury Thursday morning. # One Week Later from Europe.

Arrival of the Atlantic-A Ministerial Crisis -- Resignation of Lord John Russell-Nothing Important from Sebastopol.

The steamship Atlantic, Capt. West, arrived at New York, on Friday last.

The Atlantic brings Liverpool dates to the afternoon of the 27th ultimo. Her passengers number 58, including among them Hon. N. G. Upham.

The chief interest of her news centers in the proceedings of the British Parliament, the government having been severely denounced for its management of the war. The Peace Conference is to be opened about

the middle of February. The next important feature of the news is the resignation of Lord John Russel from the

British Ministry. On Friday night Lord John Russel gave an explanation of his conduct, and the opinion is that the whole Ministry must go out.

The public feeling seems tending towards peace. The affairs before Sebastopol are quite unchanged.

The British army is represented as being in a wretched state from mismanagment.

There had been a report of a battle fought n a wretched state from mismanagment. There had been a report of a battle fought

but it proves incorrect. The Swedish army is to be placed on an mmediate war footing.

Negotiations are continued between Austria and Prussia, respecting the Germanic army. The Great Britain steamship has arrived

from Australia with £750,000 sterling in gold. Numerous failures are reported in Liverpool, but the amounts are exaggerated and the cotton market influenced.

The dates from Sebastopol are to the 14th of January. The Russians had made two sorties and were repulsed with considerable The weather in the Crimea, had been cold, but at the last dates had become milder. The French have mined the flag-staff battery,

the Allied armies.

An army of 40,000 Russians with a battery of 80 guns, is said to be at Perekop.

Letters from St. Petersburg, to the 18th of January, are of a pacific character. The allies are about to establish a hospital

to contain 2000 men at Smyrna, and also an establishment for the convalescent at Rhodes. The Russians have repaired and re-occupied the quarantine fort.

General Brown is about to resume his command in the Crimea. The sickness is increasing in the camp of the

General Menschikoff is reported to have said: "Our troops may now rest. Generals January, February and March will fight our

battles better than we can." The Russians report numerous desertions

from the Allies to the Russian ranks. A letter from Odessa, under date of the 9th of January says that the Russians will shortly assume the offensive in the Crlmea, having received the necessary reinforcements. Large bodies of Russian troops have been ordered to concentrate at Perekop, with the view of attacking Eupatoria.

It is positively asserted that Omar Pacha's forces were to begin operations on the 18th of January-advancing under cover of the artillery of the fleets along the coast. The last of the Turkish convoys left Varna on the 14th for

The French eighty-gun ship "Henri Quarrre," which was run ashore during the gale of the 14th November, has been turned into a fort, and has become of much use to the Allies. A despatch from General Menschikoff, under date of the 17th, has been published at St.

Petersburg. It is to the following effect: "The seige operations do not advance. Two successful night sorties were made on the 13th and 15th. We took fourteen English and French prisoners. The Allies lost a considerable number in killed.

"The Arab deserters says that the Turks are treated with very little consideration by the Allies."

English soldiers are dressed in French uniforms. Canrobert has presented 10,000 coats to the British soldiers. It is asserted too, that General Canrobert, satisfied with the numerical strength of the force under his command, has written home to request that no more men may be sent-a state of things which differs materially from that of the British army .-Indeed, the London Times states that if the present rate of mortality should continue there will literally be no army left by the 15th of March-nothing but Lord Raglan and his staff. The weather was very changeablealternate snow, rain and frost.

The London Times continues to assault the Ministry and its management of the war. It

says in a recent article-"We are all to persevere with the whole force of the empire in carrying Lord Raglan and his staff through with it, and enabling them to redeem their credit at the risk of another army. That is what Government is prepared to ask, what Parliament is expected to grant; what the press will be thought very disloyal if it does not back up; what the British people are expected to swallow, as it has swallowed many other desperate policy. For our part, whatever others may please to do, we will take no further part in such an affair. We wipe our hands of the war under the existing managment. If Government, if the House of Commons, or the British people, choose to sell themselves to the aristocracy, and through the aristocracy to their enemies, it is their own affair; we wipe our hands of the national suicide. All that we can do is to protest, and to warn, and that we will not cease to do, though hitherto we have done it in vain."
