Capture of the Murderer of Poole.

About 5 o'clock yesterday afternoon news was received in the City that the famous clipper Grape Shot was coming up the Bay, having on hoard Lewis Baker, the murderer of Bill Poole. The news created an unwonted excitement, and was the leading theme of conversation and congratulation in every part of the town.

The Grapeshot went from this port on the 18th of March, in search, and arrived at Palmos on the 6th of April, and lay off and on the port until the 17th, wheu the brig Isabella Jewett hence hove in sight, and the police officers went on board and arrested Baker without difficulty. He now appears quite reconciled, and is in the best of health .- New York Tri-

Agricultural.

Our fellow townsman, R. M. Welles, having sold out the Athens Agricultural Stove and Tin Store, to Messrs. Overton & Wheeler, will devote his time for the coming season, to supplying the enterprising Farmers of Bradford, squehanna, Luzerne, Wyoming, Tioga, and neighboring counties with Ketchum's Mowers and Reapers, Emery's Patent Changeable Horse Powers and Threshing machines Wheelers Patent combined Thresher and Cleaner, Clover Hullers, and numerous other important improvements upon the old system, of "hand labor" for Farming purposes.

To every farmer in the United States, who has been in the habit of reading the Agricultural papers, for the past few years, the name of Metchum's Mower is familiar. It took the remium at the World's Fair at London, in 852, also at the Crystal Palace, in New York in 1853, and has remarkably sustained its reputation at all of the state and county Fairs were exhibited, as well as among the Farmers who have used it. This machine has been much improved since its first introduction, and t would seem that it has now reached the point of perfection.

Since the last season the mowing machine has been greatly improved by constructing the entire frame and Cutter Bar, of wrought iron. The scythe and other parts, have also been improved, and at the same time, lessening the weight, 150 pounds. It is simple and strong in construction, and not liable to get out of

During the past year the Mower has been improved by the addition of a Reaper attachment, making thereby a combined Mower and Reaper unrivalled in value, and of great utility the Farmer. The change from a mower to a Reaper, is effected by simply enlarging the main wheel by circular sections bolted to the rim of the wheel, and bolting the platform, which has a wheel underneath to support it to the cutter bar. Some of the advantages obtained by this arrangement : First-Raising the cutters sufficiently high for cutting grain; Second-Lessening the motion of the knives, without any change of gearing, which is very desirable in cutting grain, as much less motion is required; Third-Reducing the draft of the machine at least one third; Fourth -Raising the cogs of the driving wheel, there- Coakly, Daniel. by preventing them being filled with dirt, as otherwise would be, on stubble land; Fifth-attaining the above named objects without the least change of any part of the mower. The two horse mower is warranted capable of cutting and spreading from ten to fifteen acres of any kind of grass, standing or lodged, per Easterbrooks, Amelia. day. The combined machine is warranted capable of cuuting the same amount of grain

PRESIDENTIAL CANDIDATES .- The Concord Statesman thus describes the leading Democratic aspirants for the Presidency :-

" Mr. Buchanan is too penurious, and besides, cut his own throat by signing the Ostend document. General Cass has reached a garrulous old age. If in the Presidential Chair his Messages would probably make from fifty to seventy fire columns solid brevier. Douglas, beside his Nebraska infamy, carries a sort of a sailor boarding-house odor about him caused by liquor and cigar-smoke."

THE COAL BUSINESS ON THE CAYUGA & Susq. R. R.—One day last week we passed ver the Cayuga & Susq. R. R. in the Caboose of a Coal train, which numbered 75 loaded ars, each carrying 5 1-2 tons of coal. The Conductor, Mr. Taylor, also informed us that n the 25 days preceding, there had gone over the road 2,537 cars carrying 13,954 tons of Authracite Coal from the Coal beds at Scranton!

LARGE FIRE IN SPRINGFIELD, ILL.-A most estructive fire occurred at Springfield, Illinois, the 12th inst., consuming the best business ortion of the city. On State House square nine of the finest stores were burned to the ground. The loss, which is put down at \$150,-000, is mostly covered by insurance. The streets are filled with goods, and general consternation prevails. The fire is supposed to have been the work of an incendiary.

DROWNED .- The Union News says: We arn that a son of Mr. James Fosenburgh, aged about 16 years, was drowned on Thursay afternoon last, by falling into the mill race, the Union Mills, while fishing. We hear at he was subject to fits, and it is supposed at he was taken with a fit that was the cause his death. His body was found the same fternoon.

RAILROAD BRIDGE BURNED .- The Pennsylvania Railroad Bridge over the Juniata, at Biringham, eighteen miles east of Altoona, was estroyed by fire on Sunday night. The fire was, doubless, the work of an incendiary.

FARMERS, ATTENTION! Plant your Corn economically and scientifically!

C. H. DANA'S HAND CORN PLAN H. DANA'S HAND CORN PLANTHREE patented September 5, 1854, costs ONLY
THREE DOLLARS, and is therefore within the means of
every man who plants half an acre of ground. It is simple in its construction, and executes its work with accuracy and despatch on various kinds of soil.
Unlike other planters, it has no gearing to get out of
repair, but is carried in the hand like a cane, and can be
worked up hill or down; as well as on level ground, planting as much ground in a day as five men can with hoes.—
It may also be used to plant beans, as it can be guaged to
drop as few or as many kernels as desired. It is meeting It may also be used to plant beans, as it can be guaged to drop as few or as many kernels as desired. It is meeting with unprecedented success everywhere it is introduced, having been presented at several Agricultural fairs, and always without exception received the highest premium, being the best and cheapest implement of the kind in use. The undersigned, having purchased the right of selling the said Planters in Bradiord county, will canvass the county in April, at which time he will supply those who wish, or dispose of Town Rights to any who wish to purchase.

JAS. B. SYKES.

Owego, March 22, 1855. THE subscriber having been appointed Agent for the counties of Bradford, Sullivan and Lycoming, has the pleasure of calling the attention of the public to this useful invention. The Hive is truly a great improvement on the old square box; and the facilities it affords for taking out the honey are as harmless to the bees, as they are profitable to the owner. No resort to drums and pans is needed to hive the increase in the spring, and no resort to brimstone, fire and fagot is required to conquer the bees and procure their honey in the fall. As the bees multiply, new sections are added to the hive; and when the honey is wanted, they are removed accordingly. The arrangements for feeding the bees, for changing them to different parts of the old hive, or to a new one, for ventilation, are unquestionably ahead of anything hitherto known.

A description of this Hive is impossible, without reference to a model, but an examination will satisfy any one of its advantages. For sale, Town and Individual Rights, with books, bill of feed, &c., giving full directions for making the Hive, and managing the Bees.
