The following letter from Geo. Talbot of Centreville, Michigan, is dated May 23.

I see by your paper that you are anticipating fine crops of wheat this year. If other sections promise no better than this we shall have a very poor crop. I rode yesterday about 30 miles among the farmers, and did not see more than one field of wheat but what was badly damaged by the insects. Some who three weeks ago thought they would have twenty-five bushels to the acre, would now like to be insured ten; some say they will not get their seed.

A few had sown Mediterranean wheat last fall, that has entirely escaped, and looks very

Our corn is out of the ground and looks very well. I have forty acres planted which can be seen all across the field-will have to work it next week .- New York Tribune.

NEGRO BOY WITH SNOW WHITE WOOL .- We vesterday noticed in the streets quite "a nut for physiologists to crack," in the shape of a negro boy's head. The boy was some twelve or thirteen years of age, healthy looking, well grown, very black and "kinky haired," and what was remarkable in his physiology, was a triangular patch of snow white wool, the lower part of which ran down to the centre of his orehead, whence it extended back to the centre | Franklin. of the head gradually widening, and with perfeetly defined edges. The rest of his wool would have been whitened by a sprinkling of coal dust. The boy said he was "born that Monroe way," and evidently proud of the singularity, wore his deformity like a crown .- Mobile Ad-

Col. Bragg.-We hear from an authentic the gallant Lieut. Colonel Bragg, of the artilvictory of our troops on the Rio Grande, under Gen. Taylor, declines the Majority tendered him by the President in one of the new regiments. Col. B. prefers his own "big guns" to the sabre and carbines of the dragoons.

Gazette says with more good weather, the Ohio crop of peaches is promised. In Arkansas the

THE TEACHER'S ASSOCIATION, pursuant to adjournment, will meet in the Methodist hurch, at Orwell Hill, on the 8th day of JUNE next, at 0 o'clock, A. M.

The following Resolutions, as unfinished business, will

The following Resolutions, as unfinished business, will be considered:

Resolved, That there ought to be in each township, a School Officer, whose duty it shall be to inspect Teachers and visit the Schools in his respective township, either in connection with the County Superintendent, or alone.

Resolved, That the study of Written Arithmetic should not be commenced by the child until he is of sufficient age to fully appreciate and perfectly understand the principles of the science, and it should always be preceded by a thorough drilling in Intellectual Arithmetic.

Resolved, That every Teacher should be a subscriber for, and a constant reader of, some Educational Periodical; and also it is his duty to attend, if practicable, educational meetings, and in all other ways seek his own improvement in the subjects to be taught, as well as the best and most approved methods of teaching.

Resolved, That we respectfully and most carnestly solicit the hearty co-operation of all the School Directors of the County in carrying forward the great work of educating the rising generation.

Resolved, That Teachers should be sufficiently acquainted with Physiology, and the laws of health to be able to guard with care the health of those committed to their charge.

Resolved, That it is the imperative duty of every teach-

charge.

Resolved, That it is the imperative duty of every teacher to sustain good order in school, and adopt such means as shall secure that important end, even if it become necessary to resort to corporcal punishment.

Mr. Col. Tproposed the following amendment:

That order is essential to the success of a School. In maintaining this corporcal punishment, should be a last resort, but yet its infliction may be the imperative duty of the teacher.

The Committee on Text Books will make a partial report.
An Essay will be read by Miss Fanny O. Andrus, of Smithfield. Prof. James M'Williams will deliver an Address before the Association.

**Both Essays are solicited from members—particularly from the female members—upon subjects known to be coming up for the consideration of the Association.

FARMERS. ATTENTION!

Plant your Corn economically and scientifically C. H. DANA'S HAND CORN PLAN

H. DANA'S HAND CORN PLANTER, patented September 5, 1854, costs ONLY
THREE DOLLARS, and is therefore within the means of
every man who plants half an acre of ground. It is simple in its construction, and executes its work with accuracy and despatch on various kinds of soil.
Unlike other planters, it has no gearing to get out of
repair, but is carried in the hand like a cane, and can be
worked up hill or down; as well as on level ground, planting as much ground in a day as five men can with hoes.—
It may also be used to plant beans, as it can be guaged to
drop as few or as many kernels as desired. It is meeting
with unprecedented success everywhere it is introduced. drop as few or as many kernels as desired. It is meeting with unprecedented success everywhere it is introduced, having been presented at several Agricultural fairs, and always without exception received the highest premium, being the best and cheapest implement of the kind in use. The undersigned, having purchased the right of selling the said Planters in Bradford county, will canvass the county in April, at which time he will supply those who wish, or dispose of Town Rights to any who wish to purchase.

JAS. B. SYKES.

Owero, March 22, 1855. Owego, March 22, 1855.

DAVIS' PLATFORM BEE-HIVE. THE subscriber having been appointed Agent for the counties of Bradford, Sullivan and Lycoming, has the pleasure of calling the attention of the public to this useful invention. The Hive is truly a great improvement on the old square box; and the facilities it affords for taking out the honey are as harmless to the bees, as they are profitable to the owner. No resort to drums and pans is needed to hive the increase in the spring, and no resort to brimstone, fire and fagot is required to conquer the bees and procure their honey in the fall. As the bees multiply, new sections are added to the hive; and when the honey is wanted, they are removed accordingly. The arrangements for feeding the bees, for changing them to different parts of the old hive, or to a new one, for ventilation, are unquestionably ahead of anything hitherto known. unquestionably ahead of anything hitherto known.

A description of this Hive is impossible, without reference to a model, but an examination will satisfy any one of its advantages. For sale, Town and Individual Rights, with books, bill of feed, &c., giving full directions for making the Hive, and managing the Bees.

May 1, 1855.

GEORGE S. KEEN.

\$500 REWARD! For an improvement on

SCOTT'S PATENT BLACKSMITH'S STRIKER! THE undersigned, having purchased the right to sell in a number of the counties of this state, and elsewhere, Scott's Patent BLACKSMITH'S STRIKER, respectfully announce that they are now stopping at BLACK'S Hotel, in Towanda, where they will exhibit the Patent Striker, and explain its operation. They expect to remain about three weeks. By the aid of this invention, every Blacksmith can dispense with the additional hand required to forge iron, and will consequently effect a great saving of labor to all who become possessed of it. This is considered one of the greatest and most useful inventions of the age, and the manner in which it forges iron of every description has greatly surprised the numerous sons of Vulcar who have seen it operation.

W. W. FIELDS,

E. S. TEAGARDEN.

SPRING GOODS. HARVEY PHINNY, Jr., is just receiving a general assortment of SPRING GOODS
which he offers to the public for unusually low prices, for
Ready pay. As he is determined to sell Goods after the
lst of April for READY PAY, or keep them, persons wishing to pay cash for goods will find it for their interest to
coll and examine his stock and prices.

IMPORTANT TO LUMBERMEN.

A RARE CHANCE .- The undersigned offers for sale his undivided half part of three tracts of land, containing about 1400 acres; 1000 of which is heavily timbered with White Pine of a choice quality, having on its swly erected double STEAM MILL, just started and cuting finely—capable of gawing 3,000,000 feet yearly, to hich is attached a LATH MILL, and with power sufficient to run a single machine, and pair of learn for which cient to run a single machine, and pair of Burrs for chop

ping feed, &c.

The land is situated in Overton township, in the centre of the Coal and Iron region of Bradford County, and on it have been found large deposits of iron ore of a superior quality. This property to Lumbering men offers greater inducements than any other in Noruhern Pennsylvania, inasmuch as the timber has never been culled out, and lying as it does within 23 miles of the Barclay Coal Company Railroad, now in process of construction and control of the c pany Railroad, now in process of construction, and connecting by said Railroad, with the River and Canal at thi

place.

By There have been opened upon this property three beds of IRON ORE, of a very superior quality and richness, two of which are ten feet in thickness each, yielding about 35 to 40 per cent. pure metal, and one smaller yielding a much greater per cent; all extending through 900 acres of the property. This ore is easy of access, and can be procured at a very small expense.

Persons desirous of viewing the premises will call on the subscriber at this place.
