

Farmer's Department. Lectures on Veterinary Science.

Extract from a lecture delivered by the Dr. Dadd.

After alluding to the cause, nature and treatment of colic, the doctor stated that the lots originated from the larva of the mites...

He proved, beyond a doubt, that they seldom do any harm, and quoted from authorities their general innocuousness...

If a horse happens to have a sudden attack of colic, or any other acute disease, and should turn his head towards the side expressive of the pains and agony experienced...

The horse may be destroyed by powerful medicines, but the bot is the monarch of his own domain...

The best way to rid the horse of the bots, is to turn him into a pasture in the spring...

Bots cannot be killed by poisons, for they will live and grow fat on turpentine, and even on some of the mineral acids...

It was proved that all animals as well as man, are more or less pestered with various kinds of parasites...

The lecture was concluded with some very interesting remarks on animal physiology...

Raising Root Crops.

We hope none of our readers will let this month pass over without putting in a plentiful crop of roots for next winter's supplies...

Various experiments have proved that at least one third and probably one half less grain will do as much good...

When corn is worth ninety cents, and one dollar, and one seventy cents, and with a dozen or more cows or steers requiring feed...

Carrots, the past winter, and almost any winter have readily commanded fifty cents per bushel...

After the ground has been well plowed which should be very early in the season, the harrow should be passed over repeatedly...

It is well plowed which should be very early in the season, the harrow should be passed over repeatedly, at least twice a week...

NEW ARRANGEMENT AT THE EAGLE FOUNDRY! I. L. & H. L. LAMOREAUX, HAVING purchased the entire interest of the other members of the late firm of L. L. & H. L. Lamoreaux & Co. in the "Eagle Foundry," in the south part of the borough of Towanda, will still continue the business of said firm, and manufacture to order and keep constantly on hand a large assortment of the following articles...

PHOENIX.—North Branch, Nos. 1, 2, & 3; Blachley Nos. 1 and 2; Binghamton, Wayne County, Excelsior, and other articles too numerous to mention.

Having secured as Superintendant, J. B. JEVENS in the machine shop, and ROBERT MCCORMACK in the moulding department, the firm feel confident that they can manufacture and repair all kinds of machinery in as workmanlike a manner and on as easy terms as any establishment this side of New York.

Particular attention will be paid to the Pattern department, and all orders fulfilled on the shortest notice.

The attention of Farmers is called to J. B. JEVENS' celebrated EXCELSIOR PLOUGH, which took the first premium at the Bradford County Agricultural Fair of 1853.

With the above the firm have connected a Tin, Sheet Iron and Copper Establishment, and will be at all times ready to manufacture, repair and do job work, and will keep constantly on hand assortments in all branches of their business.

We call the public attention to the following facts:—We use the Balston Iron, which is acknowledged to be more durable and strong than any other.

Our cast plates are thicker and stronger than any of foreign manufacture, and persons purchasing stoves of us can have them repaired on short notice by calling on us, without going to the expense of having new patterns.

Farmers would save time and expense by purchasing ploughs of us, as they would not be troubled for points, as in the case of foreign ploughs.

DR. HALSEY'S FOREST WINE.—The discovery of the FOREST WINE is the greatest boon of the age. Put up in Quart Bottles, a single bottle of which does more good, and goes farther in the cure of Disease, than ten bottles of any Sarsaparilla in use, and warranted to cure without an unpleasant or weakening effect.

The method by which all Sarsaparillas, and other similar medicines are prepared, is by boiling the Root of plants to obtain the extract, and the medicinal virtues are thus principally evaporated and destroyed.

It is not to be wondered at then, that 10 and even 20 bottles of these Sarsaparillas are sometimes taken without any perceptible benefit. Not so with the Forest-Wine. By the invention of a wonderful chemical apparatus, a perfect wine is produced without heating; retaining, at the same time, all the medicinal virtues of the original medicinal plants of which it is composed, thus rendering the Forest Wine the most efficient medicine the world ever produced, at the same time the most agreeable.

This is to certify, that I have used Dr. Halsey's Forest Wine in my family with the most entire success. My wife was afflicted with Rheumatism, affections of the Spine and Kidneys, and general debility. My friends sought me for relief, and regained her health by the use of the Forest Wine.

From my own knowledge of this excellent medicine, I confidently recommend it for the good of others who may be suffering from similar complaints. It is the best medicine with which I am acquainted, and those who are afflicted with the above or any similar disease, may rely on its virtues. E. G. MUSSEY.

MORE TESTIMONY FROM COHOSUS. MARTIN CALDWELL, Dec. 1847. Dr. G. W. Halsey, Dear Sir: My first autumn was reduced to a low state of Debility. My family physician advised her to take your Forest Wine. Accordingly I went to Mr. Terry's, your agent in this town, and procured a bottle of it, which restored her in a very short time to perfect health. Cohosus, April 13, 1850. HENRY DONALDSON, DREDFUL COUGH, APETITE, AND LOSS OF SLEEP.

DR. HALSEY'S FOREST WINE. A bottle of your Forest Wine and box of Pills, which I have done wonders for me, I had used a state of decline for more than a year, afflicted with a dreadful cough, pain in the breast, general debility, and loss of appetite. I became almost a skeleton, and had been unable to leave my room for more than two months. My friends sought me for relief, and regained her health by the use of the Forest Wine.

There are thousands cured every year of this disease by the Forest Wine and Pills; Dyspepsia, Costiveness and Indigestion, are kindred complaints, frequently existing together, and the cure of one is generally the cure of the other. The Forest Wine and Pills above all remedies are pre-eminent in the cure of Dyspepsia.

TESTIMONY OF N. V. NORTON, of New York City, dated July 9, 1852. Dr. G. W. Halsey, Dear Sir:—Having been cured of Dyspepsia by the use of your Forest Wine and Pills, I take pleasure in testifying to their efficacy, believing many who know me may be benefited by your excellent remedies. For many years I have been afflicted with this malady so badly that nearly one-third of my time has been lost from business. The Forest Wine and Pills have restored me to excellent health, and I cheerfully recommend them to all who are afflicted with the disease of which I am cured. Yours, respectfully, N. V. NORTON.
