Farmer's Department.

Deep Tillage.

Deep plowing turns the drought to good account, and renders mulching and irrigation comparatively useless, or, if used, more efficacious. During a dry spell and in trenched ground, roots strike deeper in search of food and moisture, become more extensively ramified, and sooner find the rich loam and manure intermingled deeply with the soil. The leaching process, as it is called, is reversed, and takes place upwards more than at any other time, or, in more scientific phrase, capillary attraction is increased. As each particle of moisture is evaporated from the surface, it is succeeded by another, and the whole soil is filled with the ascended moisture and gases, which are appropriated by the numerous rootlets as they have need.

The wet season is also a blessing to the deep cultivator. The more rain, the more heat, ammouia, carbonic acid, and other organic elements are left in the soil as it descends. As each drop filters through, it is succeeded by another, or by air, both essential to vegetation ; and to dissolve, act on, or combine with, the inorganic elements of the soil. As the water drains off, is sure to follow, and this is the proper mode of its circulation. Each is also generally at a higher temperature than the GROCERY AND RESTAURANT. undrained land, and the warmth of the under soil is therefore relatively increased. The farmer often objects to this waste of water, and would retain it for a dry time ! The trenched and porous soil holds water like a sponge, notwithstanding the drainage. It retains or can command enough for the wants of vegetation. But let us see the operation on the undrained land.

The farmer often speaks of his "cold wet land." No variety of soil, in any location, is, of itself, colder than another. The very water which trencing, draining, &c., allow to pass off after imparting its virtues to the soil, if retained on or near the surface by hard impervious sub-soil, becomes itself by its changes, the source of the coldness complained of. Instead of running off, it evaporates, and by this process abstracts a great quantity of heat from the soil and surrounding atmosphere. - The evaporation of a pound of water requires about 1000 degrees of heat; some authors stating it less and others more. Or it reduces 100 pounds of air 45 deg. This is reversing the experiment of Prof. Johnson, in Espy's " Book of Storms." where he says, "a pound of vapor" condensed to water "would heat 100 pounds of air about 45 deg. The ground to a considerable depth i is warmer, by many degrees, where the rain is drained off, instead of being allowed to accumulate and evaporate. Hence this enormous loss of an invaluable stimulus to vegeta-

This chilling and deadly process of evaporation is going on to excess from the time frost comes out of the ground in the spring, till freezing again occurs. At this period, the undrained land, having the most water to free, becomes the warmest, say in December, when of no value to vegetation, but rather an injury For once, forsooth, the undrained land is warmer than the drained ! But for this excess of heat in winter, this kind of land must pay dearly in early spring. How is all this inquires the farmer. Simply because water, in congealing to either ice or snow, has its capacity for heat lessened about one-ninth, and this Co excess is given off to surrounding bodies ; or, in other words, its latent heart is set free. On the other hand, ice, or frost as it is calld in the ground, in melting, demands back this same heat, at the rate of from one-eighth to oneninth of 1000 deg. for every pound melted ; and under the surface it does not obtain all this

HELMBOLD'S GENUINE PREPARA-

Helmoorlin's GENCINE PREPARA-TIONS. Helmood's Highly Concentrated Fluid Extract Buchu, for Diseases of the Bladder and Kidneys, Secret Diseases, Strictures, Weaknesses, and all Diseases of the Sexual Organs, whether in Male or Female, from whatever cause they may have originated, and no matter of how long standing.

they may have originated, and no matter of how long standing. If you have contracted the terrible disease, which when once seated in the system, will surely go down from one generation to another, undermining the constitution, and sapping the very vital fluids of life, do not trast yourself in the hands of Quacks, who start up every day in a city like this, and fill the papers with glaring falsehoods too well calculated to deceive the young and those not ac-quainted with their tricks. You cannot be too careful in the selection of a remedy in these cases. The fluid extract Buchu has been pronounced by emi-nent Physicians THE GREATEST REMEDY EVER KNOWN. It is a medicine perfectly pleasant in its taste, and very

It is a medicine perfectly pleasant in its taste, and very innocent in its action, and yet so thorough that it annihilates every particle of the rank and poisonous virus of this disease; and, unlike other remedies, it does not dry up

disease ; and, unlike other remedies, it does not dry up the disease in the blood. Constitutional Debility, brought on by self-abuse, a most terrible disease, which has brought thousands of the hu man race to untimely graves, thus blasting the brilliant hopes of parents, and blighting in the bud the glorious ambition of many a noble youth, can be cured by this INFALLIBLE REMEDY. And as a medicine which must benefit everybody from the simply delicate to the confined and despairing invalid, no equal is to be found, acting both as a cure and preventive.

HEMBOLD'S HIGHLY CONCENTRATED

Compound Fluid Extract Sarsaparilla. Compound Fluid Extract Sarsaparula. For purifying the Blood, removing all diseases arising from excess of Mercury, exposure and imprudence in life, chronic constitutional disease, arising from an im-pure state of the blood, and the only reliable and effect-nal remedy known for the cure of Scrofula, Salt Rheum, Scald Head, Ulcerations of the Throat and Legs, Pains and Swellings of the Bones, Tetter, Pimples on the face and all Scalv Eruntions of the Skin.

S. FELTON would most respectfully inform his old cus-tomers and the public generally that he will still continue the LIQUOR BUSINESS at the old stand, and that he is now receiving hrge additions to his stock, direct from first hands in New-York, which he will be most happy to sell on the most reasonable terms. He is also agent for the sale of "Binghamton Ale," a supply of which he keeps al-ways on hand and for sale cheap. Towanda, November 11, 1854. and all Scaly Eruptions of the Skin. This article is now pre-cribed by some of the most dis-inguished Physicians in the Country, and has proved nore efficient in practice than any preparation of Sarsa-narilla yet offered to the public. Several cases of secon-ary Syphilic, Mercurial and Scrofulous diseases have en-inely recovered in the incursible works of an public institirely recovered in the incurable wards of our public insti-tutions, which had for many years resisted every mode of treatment that could be devised. These cases furnish treatment that could be devised. These cases furnish striking examples of the salutary effects of this medicine in arresting some of the most inveterate diseases, after the glands were destroyed and the bones already affected. NOTICE.—Letters from responsible Physicians and Pro-fessors of several Medical colleges, and certificates of cures from patients will be found accompanying both prepara-tions. GREAT BARGAINS!!! At the New Store, opposite the Court House.

Prices, Fluid Extract Buchu, \$1 bottle, or 6 bottles for \$5.

Below we name a few of the articles that may always be found in our stock: Trepared and sold by H. F. HELMBOLD, Chemist, 263 Chestaut st., near the Girard House, Philadelphia. To be had of Dr. H. C. PORTER, Towanda, Pa. and of Druggists and dealers everywhere. $g \neq All$ letters directed to the Proprietor or Agent will receive immediate attention. 1y3 befow we have a tew of the arteries that may always befound in our stock : PROVISIONS. Flour, Buckwheat Flour, Rye Flour, Corn Meal, Feed, Pork, Hams & Shoulders, Mackerel, Codfiish, Shad, Lake Trout, Pickeled and Smoked Herring, Cheese, Rice, Beans,

the agriculturist go to work and make this "cold, wet, heavy land" of his, the very best he has for any product, trees, vegetables, grains, or grasses.

FOUNDER IN HORSES .- I send you a recipe for founder in horses, which I have never seen in print. I have used and recommended it for fifteen years, and so far as my experience goes it is a sure and speedy remedy. Take a table spoonful of pulverized alum, pull the horse's tongue out of his mouth as far as possible and throw the alum down his throat ; let go of his tongue and hold up his head until he swallows : in 6 hours time (no matter how bad the founder) he will be fit for moderate service. I have seen this remedy tested so often with perfect success, that I would not make five dollars difference in a horse foundered, (if done recently, and one that was not .- Country Gentleman.

HOW TO MAKE A HORSE CARRY HIS TAIL STRAIGHT .-- I had a very fine colt, that carried his tail on one side, and was continually throwing it over the driving line, when to cure him of his habit, I braided a loop in his tail and tied it with a string to the trace on the same side on which he carried it, and when he found it was tied he would pull on it, when I would let him up a little gradually on the string until at length he came to carry his tail perfectly straight .- Boston Cultivator.

NUTRIMENT OF ONIONS .- Professor Johnson gives his opinion in favor of on'ons as very nutritous vegetable, and for laboring men with strong digestive powers quite healthy. It is not merely as a relish that onions are used so largely by many people, but because they give strength as well as a satisfaction of appetite .-Professor Johnson ranks onions in point of nutriment with peas.

TO DIVEST CALVES OF VERMIN .--- It often happens that calves become covered with vermin, causing them to lose flesh and look very rough. To clean the calf is a very dis agreeable piece of work ; if the following receipt is adhered to, they will become clean with very little trouble. Give the calf a table spoonful of brimstone for three mornings i succession ; if one trial does not completely rid the calf, the second will never fail. I have tried it several times, and once has been enough in each instance.

CABBAGES FOR Cows .- The editor of the Agricultural Gazette (Eng.) estimates one acre of cabbages to be worth three acres of turnips for cows. He recommends sowing seed in beds, either in autumn or spring, and transplanting toward the end of May, at the rate of 8,000 plants to the acre. One pound of seed will produce about 2,400 plants .- Country Gentleman.

CONFIDENCE contributes more to conversation than wit or talent.

correspondingly low. Also, a good assortment of Vestings, Scarfs, Stocks, Cravats, Linen Collars, &c.

By In purchasing his stock of Spring Goods, the sub-**Bot** In purchasing his stock of Spring Goods, the sub-scriber would say that the utmost care and economy has been exercised in order to please his customers in style, quality of goods, and prices, to correspond with the times. Thanking the public for the liberal patronage they have heretofore extended to him, he would respectfully solicit a call and examination of his stock by those wishing to purchase. JOSEPH POWELL. D discovery of the FOREST WINE is the greatest blessing of the age. Put up in Quart Bottles, a single bottle of which does more good, and goes further in the cure of Disease, than tan bottles of any Sarsaparilla in use, and warranted to cure without an unpleasant or weakening from business.

y better than any other Pill or Cathartic, producing in a ases when this class of medicines are useful, a most char-ag effect. They are purely vegetable, never gripe, m be taken at any time without fear of taking cold, hindras from business, or disagreeable effects, and pass off, let ing the bowels perfectly natural, which is all imports for the powers perfectly natural, which is all imports The method by which all Sarssaparillas, and other simi The Forest Wine accompanied with the Forest Pills

The method by which all Sarssaparillas, and other similar medicines are prepared, is by bolling the Roots of plants to obtain the extracts. Their medicinal virtues are itsus principally exaporated and destroyed. It is not to be wondered at then, that 10 and even 20 bottles of these Sarsaparillus are sometimes taken without any perceptible benefit. Not so with the Forest Wine.— By the invention of a wonderful chemical anparatus, a perfect wine is produced without beating : retaining, at the same time, all the primitive healing properties of the rare medicinal plants of which it is composed, thus rendering the Forest Wine the most efficient medicine the world ever produced, at the same time time the most agreeable. TESTIMONY.

This is to certify, that I have used Dr. Halsey's Forest TESTIMONY. This is to certify, that I have used Dr. Halsey's Forest Wine in my family with the most entire success. My wife was badly afflicted with Neuralgia, affections of the Spine and Kidneys, and general Debility. She found speedy re-lief, and regained her health by the use of the Forest Wine. From my own knowledge of this excellent medicine.

From my own knowledge of this excellent medicine, I confidently recommend it for the good of others who may be suffering from similar complaints. It is the best medi-cine with which I am acquainted, and those who are afflic-ted with the above, or any similar disease, may safely re-ly on its virtues. MORE TESTIMONY FROM COHOES. Dr. G. W. HALSEY-Dear Sir : My wife last autumn was reduced to a low state of Debility. My family physiciar udvised her to take your Forest Wine. Accordingly I went to Mr. Terry's, your agent in this town, and procur

to perfect health. Cohees, April 13, 1850. HENRY DONALDSON. DREADFUL COUGH, DEBILITY, AND LOSS OF APPETITE. DR. HALSEY: Hempstead, Dec. 1, 1847. A bottle of your Forest Wine and box of Pills, which I procured of James Carr. (your agent for this place.) has done wonders for me. I had been in a state of decline for more than a. year, afflicted with a dreadful cough, pain in the breast, general debility, and loss of appetite. I be-came almost a skeleton, and had been unable to leave my room for more than two months; my friends told me I had the Consumption and despaired of my recovery. I ould not obtain any permanent relief from any medicine I had taken, or my physician, until your Wine and Pills were procured. The first dose of the Pills brought up from ny stomach, much phlem and greenish matter, and my tools were perfectly black. I then commenced taking your Forest Wine three times a day, my appetite began to eturn immediately, my congh left me, and in less than wo weeks I was almost well. I now enjoy bette health than I ever did before, having increased twenty-five pounds an seven weeks. Your Forest Wine and Pills are highly valued in this vicinity, and I owe my recovery entirely to their virtues. Yours, respectfully. MARTIN CALDWELL. AFFECTIONS OF THE KIDNEYS. Printing. They beg to return thanks for past favors, and to sel a continuance. Their well known liberal manner of business for the past thirty years, is a guarantee to new patrons of their disposition and ability not to a the selves to be surpassed for fair dealing, whethere's are by letter or otherwise. N. B. Proprietors of newspapers are requested to is the above, provided they will trade out three times amount of their respective bills in materials of our facture, and forward us one copy of the paper contain the advertisement.
