THE YELLOW FEVER IN VIRGINIA.—The accounts of the ravages of the yellow fever in Norfolk, Portsmouth, and the Gosport naval station, are becoming truly alarming. The epidemic is on the increase, and the inhabitants, seized with a panic, have left those places by the thousands.

The Petersburg Democrat, referring to the cause of the epidemic in Norfolk and Portsmouth, says:—In Norfolk and Portsmouth they have had scarcely any rain for two months past, and the boiling heat of a vernal sun has prepared their cities for the disease, making it literally a hot-bed for the pestilence. In both these places but especially in the former, there is a large quantity of made ground—that is, ground rescued from the sea. This ground is formed by throwing logs of wood into the mud at low tide, and covering them with earth till an elevation is attained higher than the flood tide. On this precarious foundation shanties are erected, which the necessities of poor people compel them to occupy. In the course of time the sea which continues to soak through the logs which form the basis of this "made ground," gradually rots the wood, and reduces the whole mass into a state of putrefaction.—This, with the want of cleanliness, which is, alas, too often the attendant of extreme penury, renders these localities perfect plague spots, fitted for the reception and propagation of any disease, more especially one of the nature of yellow fever.

☞ The application of Passmore Williamson for a writ of habeas corpus, came up on Thursday the 16th inst., before the Supreme Court, and was argued by the Hon. Charles Gilpin and Wm. M. Meredith. Their speeches occupied the Court for three hours, and were most able arguments. All the judges were present, and some time was spent in consultation. The Court, finally, without coming to a decision with reference to the application, adjourned to meet at Sunbury on the first Monday in October next.

CENSUS OF CHICAGO.—The Census of Chicago has just been taken. The present population is 87,500; last November it was 60,140; increase in seven months, 27,000. The number of new buildings erected during the last year is 2,000, many of them of the first class.—There are now 138 vessels belonging to that port.
