following report: Whereas: The founders of this Republic, in this great truth-that all men are endowed by their Creator with the inalienable rights of life, liberty, and the pursuit of happiness, and that our government was constituted to secure these rights to us; and whereas, the National Executive, in his Inaugural Address, virtually denies these doctrines, in the expression of hi opinion that domestic slavery is based apon the same principles as other recognized rights, and that our federal government is bound to sustain the institution of slavery; and whereas: the President of the United states, and the political party which sustains him, have endeavored to son !" overthrow the principles of civil liberty proclaimed by our revolutionary fathers, by extending the bounds of slavery into territories expressly consecrated to freedom by a solemn compromise, and by obtaining territory of Mexico for the purpose of spreading the withering curse of human bondage, and by endeavoring to involve us in a war with Spain for the acquisition of Cuba, with the intention of perpetuating and strengthening the institution of slavery, and by sustaining the slave trade on our southern coast, therefore,

INSTITUTES.

To the School Directors and School Teachers of Bradford County:

Bradford County:

The recent Convention of School Directors of this County, adopted a resolution requesting the County Superintendent to hold, or cause to be held, Teachers' Institutes in the different townships of the county. In compliance with this resolution, I now give notice, that the necessary arrangements are in progress for holding a series of these Teachers' Schools. It is not deemed advisable to hold one in each township this fall. In many cases, not enough would attend to give them interest and utility. I have accordingly, selected such points for holding the first series, as has appeared to me most suitable for the different divisions of the county. The places named are only suggestive. If the School Directors of either of these divisions prefer another; I will cheerfully acquiesce in a change. The list is given at the foot of this notice.

These Institutes are intended for Teachers only; and their leading object is to improve teachers in the Art of Teaching. It is expected that the Teachers and Directors living near the place of holding these Schools, will get the School House which is to be used, in order, keep it so, have fuel supplied and make provision for boarding the Instructor.

The incidental expenses of these Institutes, such as the board of the Preceptor, fuel, light—for the evenings must be occupied with Lectures—Ac, the Teachers must bear. The amount to cach, will, of course, depend on the number attending. Four dollars, will probably, be the outside expenses of one of these Institutes. This to be equally borne among the Teachers, be their number twenty or forty.

by borne among the Peaceter, or the papers, of the com-forty.

Timely notice will be given in the papers, of the com-mencement of each of these Institutes, accompanied by a programme of the experises. The first will be held in To-wanda, early in October, and will be under the direction of Professor C. R. Coburn. In the management of the others, the Superintendent will have the assistance of able teachers. teachers. Teachers wishing to attend these Institutes, must report themselves to the Secretaries of the School Board of the township where held, before the 25th day of September.—This officer's, name and address is given in the list below. I have to request these officers, to report to me the number as soon as practicable after the 25th.

School Directors are arnestly requested to give this enterprise all the encouragement and aid they can. These Institutes can be made useful.

SCHOOL VISITATIONS.

Owing to the irregularity in the time of opening the schools, and the shortness of the time of opening the schools, and the shortness of the time a large majority are kept open, the ruperintendent cannot visit all the schools. This is the sole cause of this failure. It is my desire to remedy this, and I have a proposition to make to the school directors, which will obviate the cause and its results.

sults.

If the directors of Monroe, Albany, Wilmot, Overton, Durell and Asylum, will commence their schools in the first week of November:

The directors of Standing Stone, Wyalusing, Tuscarora, Herrick, Pike and Warren, theirs in the third week in November.

Litchfield and Sheshequin, theirs in the first week in December:
The directors of North Towanda, Ulster, Athens, Ridg-bery, South Creek, Wells, Columbia, Springfield, Smith-field and East Barlington, theirs in the third week in De-cember:

need and East Burlington, theirs in the third week in December:

And the directors of West Burlington, Troy, Armenia, Granville, Canbon, Leroy, Franklin and Towanda, theirs in the first week of January. I can visit every school house in the county, that has a school in it, during the winter; and if the order I have marked out, or something approximating it, is observed in the opening of the schools, and then remain open one month, I will agree to visit all.—Now, what say you, school directors? There is nothing to prevent this arrangement; will you go into it?

The best way to commence the work is, for each district to advertise for teachers, and give notice in this advertisement, of the time of commencing the schools. The cost of advertising will be one dollar, and if any board of directors feel unwilling to take this much out of the school fund, I will pay the dollar for advertising, on the condition that all the districts of the county go into this arrangement.

tion that all the districts of the county go into this arrangement.

I hope the different boards will co-operate with me, in every effort made to advance the schools. Complaining will not mend them. This has been tried for twenty years, and still they are very poor; and we may find fault twenty years more, and they will be no better unless we take hold. We cannot get rid of the school law. This is settled. The question then is, shall we suffer it to be a burden without any advantage, or shall we second the efforts of our law-makers to improve it? The latter seems to me to be the only wise course. Let us try it, only for a few years. But to make it better we must look after it. We must order out of chaos, or the fruit will still be bitter.
