the Instructor.

The incidental expenses of these Institutes, such as the board of the Preceptor, fuel, light—for the evenings must be occupied with Lectures—&c., the Teachers must bear. The amount to each, will, of course, depend on the number affending. Four delians will probably be the outher attending. Four dollars, will probably, be the out side expenses of one of these institutes. This to be equal ly borne among the Teachers, be their number twenty or

ly borne among the Teachers, be their number twenty or forty.

Timely notice will be given in the papers, of the commencement of each of these Institutes, accompanied by a programme of the exercises. The first will be held in Towanda, early in October, and will be under the direction of Professor C. R. Cobun. In the management of the others, the Superintendent will have the assistance of able teachers.

others, the Superintendent will have the assistance of able teachers.

Teachers wishing to attend these Institutes, must report themselves to the Secretaries of the School Board of the township where held, before the 25th day of September.—This officer's name and address is given in the list below. I have to request these officers, to report to me the number as soon as practicable after the 25th.

School Directors are arnestly requested to give this enterprise all the encouragement and aid they can. These Institutes can be made useful.

SCHOOL VISITATIONS.

Owing to the irregularity in the time of opening the schools, and the shortness of the time a large majority are kept open, the ruperintendent cannot visit all the schools. This is the sole cause of this failure. It is my desire to remedy this, and I have a proposition to make to the school directors, which will obviate the cause and its result.

suits.

If the directors of Monroe, Albany, Wilmot, Overton, Darell and Asylum, will commence their schools in the first week of November:

The directors of Standing Stone, Wyalusing, Tuscarora, Herrick, Pike and Warren, theirs in the third week in Varonber.

November: The directors of Wysox, Rome, Orwell, Windham, Litchfield and Sheshequin, theirs in the first week in December:
The directors of North Towarda, Ulster, Athens, Ridg-

bery, South Creak, Wells, Columbia, Springfield, Smith field and East Burlington, theirs in the third week in Do

field and East Burlington, theirs in the third week in December:
And the directors of West Burlington, Troy, Armenia, Granville, Canton, Leroy, Franklin and Towanda, theirs in the first week of January, I can visit every school house in the county, that has a school in it, during the winter; and if the order I have marked out, or something approximating it, is observed in the opening of the schools, and then remain open one month, I will agree to visit all.—Now, what say you, school directors? There is nothing to prevent this arrangement; will you go into it?

The best way to commence the work is, for each district to advertise for teachers, and give notice in this advertisement, of the time of commencing the schools. The cost of advertising will be one dollar, and if any board of directors feel unwilling to take this much out of the school fund, I will pay the dollar for advertising, on the condition that all the districts of the county go into this arrangement.

tion that all the districts of the county go into this arrangement.

I hope the different boards will co-operate with me, in every effort made to advance the schools. Complaining will not mend them. This has been tried for twenty years, and still they are very poor; and we may find fault twenty years more, and they will be no better unless we take hold. We cannot get rid of the school law. This is settled. The question then is, shall we suffer it to be a burden without any advantage, or shall we second the efforts of our law-makers to improve it? The latter seems to me to be the only wise course. Let us try it, only for a few years. But to make it better we must look after it. We must order out of chaos, or the fruit will still be bitter.

DR. HALSEYS' FOREST WINE. Discovery of the FOREST WINE is the greatest blessing of the age. Put up in Quart Bottles, a single bottle of which does more good, and goes further in the care of Disease, than ton bottles of any Sarsaparilla in use, and warranted to cure without an unpleasant or weakening

rine method by which all Sarssap^{*}rillas, and other similar medicines are prepared, is by boiling the Roots of plants to obtain the extracts. Their medicinal virtues are thus principally evaporated and destroyed.

It is not to be wondered at then, that 10 and even 20 bottles of these Sarsaparillas are sometimes taken without any perceptible benefit. Not so with the Forest Wine. By the invention of a wonderful chemical apparatus, a perfect wine is produced without beating retaining, at the same time, all the primitive healing properties of the rare medicinal plants of which it is composed, thus rendering the Forest Wine as me time the most agreeable.

The Forest Wine is put up in large services are the same time than the world ever produced, at the same time time the most agreeable.

DR. HALSEY: Hempstead, Dec. 1, 1847. A bottle of your Forest Wine and box of Pills, which I procured of James Carr. (your agent for this place,) has done wonders for me. I had been in a state of decline for more than at year, afflicted with a dreadful cough, pain in the breast, general debility, and loss of appetite. I became almost a skeleton, and had been unable to leave my room for more than two months; my friends told me I had the Consumption and despaired of my recovery. I could not obtain any permanent relief from any medicine I had taken, or my physician, until your Wine and Pills were procared. The first dose of the Pills brought up from my stomach, much phlem and greenish matter, and my stomach, much phlem and greenish matter, and my stomach, errest Wine three times a day, my appetite began to return immediately, my cough left me, and in less than two weeks I was almost well.
