The farmers of the Great West have doubt less secured the most bountiful crops of grain ever grown on their prolific soil. Even supposing their Indian corn to be shrunk one-fourth by excessive rain and early frost, the year's by excessive rain and early frost, the year's product of food for man and beast will yet be beyond example. After reserving generously have an improved example. After reserving generously have an improved by John C. Adams Esq. 22 He will attend to procuring Bounty Land Warrants and Pensions. for their own wants, they will still have an immense surplus to sell either directly as grain, or in the more concentrated form of beef and pork. And, as yet, there is a promise of a liberal reward for their toil. Every one must judge for himself as to the policy of selling this fall or holding over. Should the great war continue and extend, there is a strong probability that the prices of next spring will be as high as the present. And with such prices there is no reason why the great majority of farmers should not make a profit on the year's operations-reduce if not extinguish their debts, improve their lands, increase their stock of cattle and their variety of implements, and place themselves in position to grow a still larger crop next year.

Against one risk-that of selling for baseless promises-it might seem needless to proffer caution ; yet we know that thousands, undeterred by the sad experience of others, will sell their grain or cattle for the notes of speculators, if they can thereby secure a higher price than would be paid in cash. But why should any sane man do this? Grain and meat are cash articles; they can be turned, by the help of our public works, inside of sixty days at furthest; and men who have any right to credit can obtain money enough from good banks to buy and send abroad produce. No buyer who ought to be trusted will ask a farmer for credit, for he perfectly understands the advantage of buying for cash. Whoever asks a farmer to trust him for his grain or stock until it can be sent to market and sold, thereby confesses himself unfit for his business, and unworthy of cred-There may be exceptions ; but the general rule is clear, that whoever, in times like these, has any business to buy produce at all, can get money of those who make a business of lending it to better advantage than he can buy on credit of those who need pay .- New York Tribune.

Using Sprouted Wheat.

In some parts of the country the wheat crop was badly sprouted this season. An observing gentleman travelling in Western New York sets down the damage in that region at 77 per cent. In Northern Ohio the damage may vary in different localities from 2 to 10 per cent. In Northern Missouri where the crop was very heavy, the Council Bluff's Bugle, says :

"Rain began to fall copiously about the com-mencement of harvest and continued to such an extent that even the wheat in shock, became one verdant mass of growing wheat. Over three fourths the entire crop has been in this way totally destroyed, and that too, as far south as we have heard from. This will be a heavy calamity upon the region thus suffering as there will not be wheat enough to supply the country with flour."

In Michigan too we learn the wheat is badly grown in many places.

Now, how is the farmer and the farmer's

wife to remedy this damage? In the Spring of 1836, nineteen years ago, we moved to Ohio and pitched our tent among the Ashtabulas (God forgive us!) and that part of the country was full of grown wheat. Our best of wives, was a most exemplary housekeeper, and this grown wheat was a sore experience, coming as we did from the orthodox rye and Indian and Gotton Edgings, all widths; Brussells, black and white silk Edgings, all widths and prices.

WHITE GOODS—Plain and dotted Swiss Muslins, Jaconetts, Bishop Lawns, India, Book and Nainsook Muslins, Striped and Plaid Cambrics, Victoria Lawns, of all qualities. Ladies and Gents, linen H'd'k'fs., silk and cotton blonds; Bobbinett and fringed Laces, Irish linens at greating the reduced prices. ing as we did from the orthodox rye and Indian of Vermont. We (that is, she) tried eveplan that female incennity could invent including the inventions of all the neighbors, and after all came to the conclusion, that, like ringbone or heaves, the thing was about impossible to cure.

powders were not in vogue then, probably they will prove the best ameliorant; we found that quick made cakes, "hurried up" with saleratus, were less liable to run than raised bread. But we have constitutional objections to hot cakes, despite their going off, and much prefer a ripe loaf of raised bread. Of all our experience we had the best luck by pursuing a practice like the following :

Take a pan of flour and place it pefore the fire or under the stove and let it season for six or eight hours, keeping it hot to evaporate the moisture as much as possible. Then make up the sponge in the usual way. It will get lively and begin to spread itself; then knead it down as hard as possible, work in all the flour you can, and then work in a little more A little shortening and a little alum-water, put in at the commencement of the kneading, will help to hold the dough from running, when set to bake. The loaves must stand in the oven longer than for good flour, or the inside will be clammy.

For Seed, it is confidently reported by a reliable gentleman who has tried it, that grown wheat will still vegetate with scarcely any perceptible loss in quantity or luxuriance.

STAGGERS IN SHEEP .- Formerly I lost sheep by this disease, until by experiment I discovered a remedy, which has not failed me for many years, and I think it a safe as well as a sure remedy. About twelve years since I found that a nice ewe of mine, which had two fine lambs, was affected with this disease. She was down by the fence, at the side of the pas ture, and when she endeavored to walk or run, would stagger and fall, and appeared to be blind. I went to her, took my knife out, cut off an ear close to the head, and to my surprise found the blood did not start; not so much as one drop could I obtain. Thinking my sheep as good as dead, I concluded to try experiments upon her. I returned to my dwelling, and taking a bottle of spirits of turpentine in my hand, went again to the pasture. I had bean absent perhaps an hour, but the sheep had not moved from where I left her, and there was no discharge of blood from the ear. I poured perhaps twenty drops of turpentine into one e and after waiting a few minutes, I turned her over and poured the same quantity into the other. She soon began to shake her head, and a stream of blood ran from ear amoutated ear. In an hour she was apparently as well as ever. Since then I have used the same remedy, without cutting off the ear, and have never lost a acco sheep by the staggers .- Rural New Yorker.

A TOAST DONE BROWN .- The following toast, given at Plymouth, Mass., lately, is excellent : "The American Fair-too wise to take the veil, too beautiful to need it."

It is as cheap to raise one ton of grass or clover, as a ton of burdocks and pig-weeds. entire satisfaction.

Medical.

HELMBOLD'S GENUINE PREPARA

Helmbold's Highly Concentrated Fluid Extract Buchu, for Diseases of the Bladder and Kidneys, Secret Diseases, Strictures, Weaknesses, and all Diseases of the Sexual Organs, whether in Male or Female, from whatever cause they may have originated, and no matter of how long standing.

If you have contracted the terrible disease, which when once seated in the system, will surely go down from one generation to another, undermining the constitution, and sapping the very vital fluids of life, do not trust yourself in the hands of Quacks, who start up every day in a city like this, and fill the papers with glaring falsehoods too well calculated to deceive the young and those not acquainted with their tricks. You cannot be too careful in the selection of a remedy in these cases.

The fluid extract Buchu has been pronounced by eminent Physicians

nent Physicians
THE GREATEST REMEDY EVER KNOWN. THE GREATEST REMEDY EVER KNOWN.
It is a medicine perfectly pleasant in its taste, and very innocent in its action, and yet so thorough that it annihilates every particle of the rank and poisonous virus of this disease; and, unlike other remedies, it does not dry up the disease in the blood.

Constitutional Debility, brought on by self-abuse, a most terrible disease, which has brought thousands of the hu man race to untimely graves, thus blasting the brilliant hopes of parents, and blighting in the bud the glorious ambition of many a noble youth, can be cured by this INFALLIBLE REMEDY.

And as a medicine which must benefit everybody from the

And as a medicine which must benefit everybody from the simply delicate to the confined and despairing invalid, no equal is to be found, acting both as a cure and preventive.

HEMBOLD'S HIGHLY CONCENTRATED

Compound Fluid Extract Sarsaparilla.

For purifying the Blood, removing all diseases arising from excess of Mercury, exposure and imprudence in life, chronic constitutional disease, arising from an impure state of the blood, and the only reliable and effectual remedy known for the cure of Scrofula, Salt Rheum, Scald Head, Ulcerations of the Throat and Legs, Pains and Swellings of the Bones, Tetter, Pimples on the face and all Scaly Eruptions of the Skin.

This article is now prescribed by some of the most distinguished Physicians in the Country, and has proved more efficient in practice than any preparation of Sarsaparilla yet offered to the public. Several cases of secondary Syphilic, Mercurial and Scrofulous diseases have entirely recovered in the incurable wards of our public institutions, which had for many years resisted every mode of treatment that could be devised. These cases furnish striking examples of the salutary effects of this medicine in arresting some of the most inveterate diseases, after the claride conductive of the salutary effects of in arresting some of the most inveterate diseases, after the glands were destroyed and the bones already affected.

Notice.—Letters from responsible Physicians and Professors of several Medical colleges, and certificates of cure from patients will be found accompanying both preparations.

Prices, Fluid Extract Buchu, \$1 bottle, or 6 bottles for \$5. equal in strength to one gallon Syrup of Sarsaparilla.
Prepared and sold by H. T. HELMBOLD, Chemist, 263
Chestnut st., near the Girard House, Philadelphia.
To be had of Dr. H. C. PORTER, Towanda, Pa. and of

Druggists and dealers everywhere.

**All letters directed to the Proprietor or Agent will
receive immediate attention.

From my own knowledge of this excellent medicine, I From my own knowledge of this excellent medicine, I confidently recommend it for the good of others who may be suffering from similar complaints. It is the best medicine with which I am acquainted, and those who are afflicine with the above, or any similar disease, may safely rely on its virtues.

MORE TESTIMONY FROM COHOES. Dr. G. W. Halsey—Dear Sir: My wife last autumn was reduced to a low state of Debility. My family physician advised her to take your Forest Wine. Accordingly I

went to Mr. Terry's, your agent in this town, and pod a bottle of it, which restored her in a very short perfect health.
Cohoes, April 13, 1850. HENRY DONALDSON.

to perfect health.

Cohoes, April 13, 1850. HENRY DONALDSON.
DREADFUL COUGH. DEBILITY, AND LOSS OF APPETITE.

Dr. Halsey: Hempstead, Dec. 1, 1847.

A bottle of your Forest Wine and box of Pills, which I procured of James Carr. (your agent for this place,) has done wonders for me. I had been in a state of decline for more than a year, afflicted with a dreadful cough, pain in the breast, general debility, and loss of appetite. I became almost a skeleton, and had been unable to leave my room for more than two months; my friends told me I had the Consumption and despaired of my recovery. I could not obtain any permanent relief from any medicine I had taken, or my physician, until your Wine and Pills were procured. The first dose of the Pills brought up from my stomach, much phlem and greenish matter, and my stools were perfectly black. I then commenced taking your Forest Wine three times a day, my appetite began to return immediately, my cough left me, and in less than two weeks I was almost well. I now enjoy better health than I ever did before, having increased twenty-five pounds in seven weeks. Your Forest Wine and Pills are highly valued in this vicinity, and I owe my recovery entirely to their virtues.

Yours, respectfully,
MARTIN CALDWELL.

AFFECTIONS OF THE KIDNEYS.

Mr. T. J. Gillies, a highly respectable Merchant of No. 308 Broadway, New York, cured of a severe affection of the Kidneys by the Forest Wine and Pills.

Dr. G. W. HALSEY: New-York, March 12, 1853.

Dear Sir—In the summer and fall of last year I had a severe complaint of the Kidneys, which rendered me quite unfit for business. I procured your Forest Wine and Pills which cared me in a few weeks time, and I have since enjoyed better health than I had for many years previously. From their efficacy in my own case, and from what I know your medicines to have done for others, I am induced to recommend them as the best medicines with which I am acquainted.

Yours, respectfully,

T. J. GILLIES.
