The debate was participated in by Dr. Bliss, Messrs. Coburn and Morrow, and in the progress of the debate the Association adjourned till 7 o'clock this evening.

The evening session was opened with music by the Musical Association of Towanda. The unfinished business was resumed, and on motion of Mr. Coburn the resolution was amended and adopted as follows:

The Association then took up the consideration of the following resolution :-

Resolved. That when the scholar is commencing the study of Grammar, the teacher should use much oral instruction and many more and simpler illustrations than are generally contained in our text-books on the subject.

The discussion was introduced by Messrs. Coburn and Corbin, and postponed to hear the essay and address; when Miss Pitcher read an essay-subject, "Energy and Perseverance necessary qualifications of the Teacher." After music, the Rev. Mr. Hendrick, the President of the Association for the previous year, delivered an address-subject, "Discipline of the mind the great object of scholastic Education."

The discussion on the subject of Grammar was resumed, and carried on by Messrs. Colt. Corbin and Morrow. Messrs. Macfarlane. Booth, Bartlett, and Rev. Mr. Foster took part in the debate.

The discussion was throughout animated and interesting, presenting and illustrating important principles and facts on the subject. The peculiar abstruseness of the study of Grammar -its importance-the inexpediency of premature attention to this branch, a study which belongs rather to advanced than to elementary education-the importance of regarding it as an art and teaching it by exercises in Engbest English writers-the inefficacy of all attempts at extreme simplification; these and other interesting aspects of the subject, were presented by the speakers. On motion, the resolution was laid on the table.

It was on motion,

Resolved. That we tender our thanks to the Musical Association of Towanda, for their services, which have been so gratifying to the Association, and have contributed so pleasantly to engage and increase public interest in the

Mr. Morrow supported the resolution at considerable length; when Mr. Guyer moved as an amendment

Mr. Guyer was heard on the subject, and in reply to some of the arguments of Mr. Morrow; Messrs. Coburn and Booth continued the debate, when the further consideration of the subject was postponed till next meeting.

Dr. Holmes, from a committee appointed on the subject, reported the following obituary notice of the late Miss F. E. Hendrick, a mem ber of the Association, which was adopted :-

"Miss FLORA E. HENDRICK, one of the first members of the Bradford County Teachers' Association, died Sept. 12th, 1855. As a Christian, the character of the deceased was marked by decision and energy, and her fortitude in suffering was but the result of the simple faith which had sustained her through life. as a scholar, she was conspicuous, and her habits of thought were clear and accurate; deep ly impressed with the importance and responsi bility of the station of a teacher, she shrank from no toil which could contribute to the welexperience in teaching, her labors were crown-

WAR WITH ENGLAND!

We hope that the warlike aspect of the late foreign news has not awakened apprehensions of a rupture between this country and England, in the minds of any of our readers. The indications are not alarming enough to From the Montrose Demo- From the Montrose Demoeffect the nerves of the most timid old lady in the country. The latter would be slaughtered round the falls this sea- country has now on her hands quite as much as much she can attend to, and will not be likely to increase her burdens by such a load as a war with us. On the other hand, she is one of the heaviest consumers of our cotton, and a rupture with her would depreciate the price of this southern staple, as well as the property employed in its production. ATTEMPTED BANK ROBBERY .- On Sunday evening last, at 9 o'clock, as the clerk of the Pynchon Bank, Springfield, Mass., was going into the bank for the night, he was seized by their pens. There is little doing among our two men who had been awaiting him in the dark passage. They demanded where the Cashier lived, which he refused to tell, when one of them plunged a knife at his breast, which penetrated his coat but struck a thick wallet with coin it, probably preventing a serious wound. CHASE SHOWING HIS TRUE COLORS!

Our quondam friend, the ex-speaker, we are happy to say, has at last reached a point which seems to inspire him with new life and zeal from the congeniality and appropriateness of its associations. After beating about with adverse winds and tides, tacking this way and teering in every direction except the proper one, he is at last grounded by the current that faces. has all the time been steadily and surely drifting him away from his principles. We need hardly inform our readers that he has been wallowed up in the maelstrom of Slavery-propagandism, which yawns always to invite and engulph such frail and weak-headed political navigators as himself. The fate was so inevitably his, that it causes no astonishment or regret to those who have watched his strange and tortuous course. The Montrose Democrat, since the election,

has been a curiosity. We can hardly realize that it is edited by the same man who endeavappears on our outside, by which the names of ored to procure from the Harrisburg Convention an endorsement of the course of Gov. of Plummer at the head of his paper, and refused in any way to countenance or endorse the THANKSGIVING DAY has become one of the Convention. It no longer denounces the usurpations of slavery, it is villifying the advocates of Republicanism. It has no longer rebuke for Atchison and his minions, but it is filled with a holy horror of WILMOT and SEWARD and HALE and their sectional and treasonable schemes!

What a falling off is here! From Benton emotions of satisfaction that we thus place side by side the evidences of Chase's perfidy and vascillation. When the article from which we have quoted appeared in November last, ed support of Benton was all a sham, and that when the day of trial came, he would be false to all his former professions.

The political course of the Democrat has been crations of those who tolerate its eccentricities while they make a tool of its editor, and the utmitigated contempt and disgust of the true friends of Freedom. Feeling that the principles of Freedom have taken strong hold in the hearts of the people of Susquehanna, the Democrat has been piratically sailing under the colors of Freedom, for base, deceptive and dishonorable purposes.

We rejoice, as we have no doubt the true men of Susquehanna will rejoice (if, indeed, the concern is worth rejoicing over,) that Chase subterfuges, and has openly taken his place in the ranks of those who are the tools and adjuncts of the Slave-power. The only influence he ever possessed was acquired by his repeated cause of Freedom. He is no longer in a position where he can betray that cause. He has only been deterred from going over, body and the voters of Susquehanna. He has at last dom by any professions of support or regard.

DISGRACEFUL MOB IN MAINE .-- An attempt to lay the corner-stone of a Catholic church in Bath, Me., on Sunday last, was broken in upon by a gang of rowdies and prevented. We find the following account of the affair in The Bath Tribune.

On Sunday, as the Catholics attempted to hold religious services appropriate to laving the corner-stone of a new church, a large concourse assembled to witness the exercises which were prevented by rowdvism of the low est sort, and violence. During the forenoon a wooden cross which had been erected was forcibly pulled down. Early in the afternoon an ican flag was raised amid the cheering of a considerable number of persons, who showed and securities for the promotion of an emigra themselves hostile to the exercises and the oc- tion of the proper sort of men to aid the g casion. A rush was made for the corner-stone which had been previously laid, and several attempts made to remove it from its setting, which was prevented, as we learn, by the exections of Marshal Walker and Mr. Constable Leach, who kept the crowd at bay. There was much bad talk, shouting, fighting, &c. The Catholies, finding they would be opposed in their exercises, quietly withdrew and left the lawless mob in possession of the fiield. No attempt to Buchanan at one plunge! It is with no that we hear of was made to arrest any of the disturbers of the peace up to 4 o'clock. ARREST OF BOGUS MONEY DEALERS .- On Friday evening two men giving their names as Wm. F. Stoddard and J. W. Lee were arrested for passing bogus money. The sample we saw was a five dollar note on the Easton Bank, Kansas Territory-the "Kansas T." being in very small letters, placed in the lower part of the shading of the figure five on the right end, and the two so interwoven as to make it almost imperceptible. The note bears date Sept. 20, 1855, No. 20, and is signed Geo. Hervey, has at length thrown off all pretensions and President, E. Alton, Cashier. The engraving is very coarse, and many of them, we are told, very badly printed. On searching the parties arrested, a large amount of the same kind of currency, but on different banks, was found, and some papers, agreeing to certain regulations in passing it. After a hearing before Justice Ulmer, they were both committed to answer at court .- Lycoming Gazette.

The views which it attributes to the American Minister, respecting the foreign en-listment of troops in the United States, are absurd. No minister, aware what the laws of the United States are, could express himself in the way stated, and no prudent man, like Mr. Buchanan, occupying the position he does, would volunteer such opinions, however strong his sympathy in favor of the Allies. The at tempt which is made to gloss over this affair as a "blunder" on the part of the British minister is disingenuous, not to say dishonest, coming from those who affect to regard the Federal Government as too weak to enforce its own authority, and, therefore, requiring the aid of a British fleet to help it. The United States is not the only government which has consider. ed itself aggrieved in this matter. Prussia has taken notice of a similar abuse of privilege in that country, convicted a British consul of a violation of law, and sent hin to prison for three months! The United States is equally able to vindicate its own laws. We have no fear, however, that war will arise from this or any other existing cause of difference between the two Governments. The battles fought will be only in the columns of the journals. The whole fuss is nothing more than a newspaper pother, in which they succeeded in making a sensation, but rather astonished themselves with the liveliness of the apprehensions they created.

ROBBERY AND ARREST .- The safe in the office of the Williamsport & Elmira and Cattawissa, Williamsport & Erie Railroads was robed on Sunday morning of last week. The amount stolen is not precisely known, but was between three hundred and four hundred dollars. LATER FROM MEXICO AND TEXAS. - Baltimore Nov. 20 .- The Southern mail to-night brings New Orleans papers of Monday and Tuesday last, which furnish us the details of the latadvices from Mexico. The report that Gen. Alverez had resigned the Presidency is posiitively contradicted. General Comonfort had offered his resignation as Minister of War, but it was not accepted.

Gen. Vidauri had addressed a protest to Mr. Marcy, relative to the invasion of Mexico by the Texan Rangers. He charges the commander of Fort Duncan with firing on the town of Piedras Negras. Gov. Pease, of Texas, recommends to the
