Public Meeting.

Pursuant to notice, a public meeting was held in Heverly settlement school-house, Overton Twp., on Saturday evening Dec. 1st 1855. for the purpose of an interchange of sentiment on the subject of Common Schools, in connection with the County Superintendent, on motion, Wm. Hottenstein was appointed President, and Eli Heverly and Owen McCann, Secretaries.

After some discussion by Wm. Waltman and James Heverly and others, the following resolutions were introduced by Wm. Waltman and on motion of Josiah Reinbolt, were adopted by a large mojority, as expressive of the sense of the meeting.

Reselved, That in the opinion of this meeting, so much of the law "For the regulation and continuance of a system of education by Common Schools" as authorizes the School Directors in each County of the Commonwealth to meet in convention at the seat of Justice in the said Counties, to elect County Superintendent, ought not be repealed, till it be tried fairly for a term of not less than three years.

Resolved, That in our opinion, experience has already demonstrated that such an officer is necessary, for a certain number of years to co-operate with the School Directors of the several townships, to explain the law, point out the duties of Directors, examine and reject deficient and ignorant teachers; which, n our opinion, has a tendency to facilitate and elevate our Common Schools.

Resolved, That as the commonwealth pays our County Superintendent a salary to assist us in the promotion of our Common Schools. we are not so liberal as to reject his help, and not so enlightened as to reject the spontaneous instructions conferred by our Commonwealth.

Resolved, That, knowing that our Superintendent has a very large County to travel thro'. and many schools and teachers to inspect, semi anually, cannot visit the schools as often as he would if the distance would admit,

Resolved, That we would not by any means request our Superintendent not to pay us any nore visits, but to visit us as often as possible as we firmly believe that by his aid we can yet do something to advance the Common School

Resolved, That we most heartily approve of the plan of a "Uniform Tax system throughout the State" to raise a school fund, as has like her to fall asleep in Jesus' arms, and awake in heaven. been, and is being put in operation by Mr. Geyer, and we pledge ourselves that we will use our best endeavors in conjunction with our His rustling wings round a loved form are folded, County Superintendent to have the same be-

Resolved, That we have full confidence in the ability, and profound respect that our Superintendent has, with regard to his duty. Resolved. That these resolutions be published in the Bradford Reporter.

On motion meeting adjourned. Signed by the officers.

ON HIS TRACK .- A correspondent of The ston Journal, writing from New-York, tells "An incident transpired here last week that

made some talk among the parties who we had knowledge of the matter. A lady on the State of Maine came to this city her way to California. She had as arms wo revolvers and a bowie-knife. The conctor purchased her a ticket in the Califora steamer and she left in the vessel at noon. Her story is this: A short time since her band obtained possession of all her wealth, converted all he could turn into gold, and hen deserted his family, took a ship and startof for the land of gold, round Cape Horn .-But this is not the worst; he took with him a female not his wife. THE EMPRESS EUGENE.—The Paris correspondent of the Courier des Etats Unis, speakng of the French Empress, says: "Her interesting condition is becoming more and more apparent. When similarly circumstanced. some ladies endeavor to conceal the fact from the public; but Queens, on the contrary, should let it be apparent, so that there may be no doubt concerning the prospect of an heir to the throne, as has happened more than once. Modesty should give way in such a case to the interests of the State.

FLOUR FOR THE CRIMEA .- Within the past two or three weeks some 20,000 barrels of flour have been purchased by a firm in this city for the British government Its destina-tion is the Crimea. This flour has been paid for at an average of about \$7 75 per barrel, which amounts to the round sum of \$150,000. -Detroit Advertiser, Nov. 23.

"FISH AND PHILOSOPHY."

OR. JOHN M'INTOSH,

"FISH AND PHILOSOPHY."

DR. JOHN M'INTOSH,

Would inform the inhabitants of Bradford county that he respectfully solicits 600 subscribers for his local work entitled "FISH AND PHILOSOPHY, or Sketches made During a Short Sojourn in Northern Pennsylvania."
The book will consist of from 250 to 300 pages, 12mo, and will be bound in embossed muslin. The price will be \$1,00. As the work was not written to vindicate any particular theory, or to advance any particular interest, it is difficult to say what it aims at—further than to help while away a leisure hour or two, in what the Author hopes, not unprofitable reading.

The pages are chieft devoted to descriptions of local scenery; inclients while Trouting on the Schrader branch; literary criticisms and reminiscences; conversations, developments of local character, poetry and philosophisal reflections.

As the publication of the book is not a question of bread, the author can use the liberty of speaking plain—In the first place, then, he cannot afford to publish the book unaided—nor would he if he could; for the simple reason, he is unwilling to shoulder the responsibility of committing a—possibly—poor book to the world. He therefore seeks to make a corporate concern of it, and thus share with the subscribers the doium of failure, should it fail. It is a purely gratuitous matter, gentiemen, sign, or not sign. In the second place, the author is unwilling to have his stock of books added to, by too many hundred copies of a work that failed to redeem the price of its publication; neither does he desire the horror of witnessing the awful spectacle of an autoda-fe, of what cost him so much pains and time to create;—for he servisible awful spectacle of an autoda-fe, of what cost him so much pains and time to create;—for he servisible of the edition, should they remain too long on his hands. He is determined to pay the publisher on the receipt of the edition, should they fremain too long on his hands. He is determined to have the principal character, Dr. Phun. And should a

Subscription lists will be opened on Monday next, at all the stores, and at the P. O. in the borough; and at C. H. Herrerek's, at Athens. At Burlington, there will be one at Messrs. Long & Merry's store, and at Ulster Mr. John Mather, and at Mooroe, Mr. Seymour Phinney, will act as agents. Others may be authorized.

 ${f WOMAN'S}$ FRIEND!

Time, Money, and Laber Saved BY USING THE GERMAN CHEMI-cal Erasive Soap. Made from a German process, and, as believed, not known to any other manufacturer in the United States. The proprietors having tested this article in various ways during the past six months, now offer it to the public as possessing the fellowing advantages over other washing soaps:

1st. It may be used equally well with hard or soft waster.

2.d It requires but half the quantity required of other soap to accomplish the same object.
3d. Clothes need no boiling and but little rubbing, (most arlicles none,) thus avoiding their wear upon a wash board.

4th. It requires less than one half the time and labor to do the washing of a family, that it requires with the best family soap; does not limit the fabric and tends to set the colors.

the colors.

5th. For cleaning Paints, and removing Greage, Tar, and Printer's luk, it is unsurpassed.

6th. One pound will go as far, for any use, as 3 pounds of common rosin soap, or 2 pounds of best family soap.—

Machinists, Printers and Painters will find it an invaluable article for washing hands—as it does not chap, but softens the skin.
