The following are some of the most Simportant and wonderful discoveries of the age, from its ability to extract minerals from the hands proved the age, from its ability to extract minerals from the body, by galvanism; more recently, M. Verges, of New York, and electro-gilder, having suffered from the introduction of his art, conceived the idea of removing them by the same processes, he succeeded in doing so, and quickly recovered.

He then applied the same means to others similarly affected, with like results of micrals, and some were not.

More recent experiments have fully confirmed the singular power of this Bath to draw from the system all minerals that may be lodged therein, to the great detriment of the most skilful physicians, and which are the effect of poison

fore in use. With the aid of the Bath and Machine, we have at command all the available medical efficiency of Electricity. The medical power of the Machine is very great, in introducing medicines into the system through the pores of the skin—applying it directly to the parts affected, which gives an increase of medicinal power over that of taking it into the stomach, rendering it particularly efficacious in all local diseases.

I am now prepared to apply these Baths, and also the Machines, at my house in the south part of the borough of Towanda, or i will visit patients at a distance, who are unable by reason of disease to come to this place, at moderate prices.

I am also sole agent for Bradford county, for the above Machines.
