THE SCHOOL MASTER OF OUR REPUBLIC. When our tepublic rose, Noah Webster be-came its school-master. There had never been came its school-master. There had never been a great nation with a universal language with-out dialects. The Yorkshireman cannot now taik with a man from Cornwall. The peas-ant of the Liguarian Appenines, drives his goats home at evening, over hills that look down on six provinces, none of whose dialects there first thousend miles changes. The second seco down on six provinces, none of whose dialects he can speak. Here, five thousand miles change not the sound of a word. Around every fire-side, and from every tribune, in every field of labor and every factory of toil, is heard the same tongue. We owe it to Webster. He has done for us more than Alfred did for England, or Cadamus for Greece. His books have and, or Cadamus for Greece. This books have educated three generations. They are forever multiplying his innumerable army of thinkers, who will transmit his name from age to age. -Glances at the Metropolis,

DRECT & TO-& FRO ELECTRO MAGNETIC MACHINE. JAMES HARRIS, ELECTRO MAGNETIC MACHINE. JAMES HARRIS, ELECTRO TOWANDA, respect-fully informs the public that he has lately procured from New York the celebrated Electro-Chemical Bath, which has proven to be one of the most Important and wonderful discoveries of the age, from its ability to extract minerals from the human system. Some eight years ago, a physician of Cincinnati disco-reged the process of extracting minerals from the L-27, by galvanism; more recently, M. Verges, of New York, an electro-guider, having suffered from the introduction of poisonous mineralis into his system in the prosecution of his art, conceived the idea of removing them by the same processes, he succeeded in doing so, and quickly recovered. He then applied the same means to others similarly af-fected, with like results. His success exceeded his most sanguine expectations, for not only did these Baths-remove mineral poisons, but cured many diseases, some of which were the result of minerals, and some were not. Multiprover of this Bath to draw from the system all mi-nerals that may be lodged therein, to the great detriment of health. Very often persons are afflicted by diseases which are beyond the comprehension of the most skilful physicians, and which are the effect of poisonus mine-rals accumulating in the system for years, taken in the shape of calonel, lead, &c. &c. The following are some of the diseases cured by these baths: Rheumatism, Paralysis, Palsy, Paluter's Cholic, Chronic Uteers, Glandular Swellings, Scrofola, Cancer, Neuralia in all its forms, Salt Kheum and Humors of all kinds. He has also S.B. Smith's newly invented DIRECT AND TO AND FRO ELECTRO MAGNETIC MACHINE, which

derate prices. I am also sole agent for Bradford county, for the above Machines. Towanda, December 22, 1855.

TO AND-FRO ELECTRO MAGNETIC MACHINE, which is a great improvement on the Magnetic machines hereto-fore in use. With the aid of the Bath and Machine, we have at command all the available medical efficiency of Electricity. The medical power of the Machine is very great, in introducing medicines into the system through the pores of the skin—applying it directly to the parts af-fected, which gives an increase of medicinal power over that of taking it into the stomach, rendering it particular-ly efficacious in all local diseaves. I am now prepared to apply these Baths, and also the Machines, at my house in the south part of the borongh of Towanda, or I will visit patients at a distance, who are unable by reason of disease to come to this place, at mo-derate prices.
