DIRECT & TO-&-FROELECTRO MAGNETIC MACHINE. J AMES HARRIS, ELECTROR OF AGNETIC MACHINE. J fully informs the public that he has lately procured from New York the celebrated Electro-Chemical Bath, which has proven to be one of the most important and wonderful discoveries of the age, from its ability to extract minerals from the human system. Some eight years aro, a physician of Cincinnati disco-vered the process of extracting minerals from the body, an electrogilder, having suffered from the introduction of poisonous minerals into his system in the prosecution of his art, conceived the idea of removing them by the same processes, he succeded in doing so, and quickly recovered. The them applied the same means to others similarly af-feted, with like results. His success exceeded his most sanguine expectations, for not only did these Baths remove mineral poisons, but cured many disenses, some of which were the result of minerals, and some were not.
