ed to be changed and subverted in these modern times. Sir, it was no cause for a dissolution of the Union in 1789; it was none in 18-20; it is none to-day; and in my judgment it would lead to no such consequences.

But it is said that four of the northern States united to keep out of power this party, and among them the State of Illinois is named .-Sir, the State of Illinois indorses no such sentiments as those avowed by the Senator from Virginia. You could not get the friends of Mr Buchanan in Illinois to disense the onestion of the expansion of slavery. They said that Kansas would be a free state; that it was a libel on them when we charged that the effect, the purpose, the object of the repeal of the Missouri compromise was to open Kansas to slavery. They said, "Slavery will not go there ; Kansas will be a free State ;" and they discussed other questions, and were very far from discussing this question of the expansion of slavery. The great party which it is said has triumphed, was not willing to put itself on that issue; but we find it at Cincinnati overturning and casting aside all the veterans who had done service in the Kansas-Nebraska fight, and taking up another gentleman, simply because he had not been mixed up with it-a gentleman who had been abroad, who had nothing to do with the repeal of the Missouri Compromise and the opening of Kansas to slavery. He was nominated for that reason ;and it is as apparent as the noonday sun, that if he had been identified with that measure he could not have been elected. Take the State of Illinois, which Mr. Buchanan has carried. but not by a majority vote; he is in a minority in that State of nearly thirty thousand .-Thirty-seven thousand votes were cast in that State for Mr. Fillmore. The speakers in his favor denounced the repeal of the Missouri compromise, denounced the extension of slavery into Kansas, as openly, as strongly, and as boldly as did any supporter of Colonel Fremont; but they insisted that Mr. Fillmore was the better man for the Presidency. They cast their votes for him under that impression. But how was it when a man was brought up

identified with the repeal of the Missouri Compromise, and the opening of Kansas to slavery? How was it when Colonel Richardson came before the people of Illinois as the nominee of the Buchanan party for Governor-a man who had taken an active part in the repeal of the Missouri compromise-and there came up in opposition to him a gentleman who was opposed to the Kansas-Nebraska bill? The respective conventions which nominated these gentlemen passed resolutions on this subject. The one nominating Colonel Richardson indorsed the Nebraska bill : the other nominating Col. Bissell denounced and condemned it. Who is elected? Colonel Bissell triumphantly, and the whole Republican State ticket; and that, too, notwithstanding the fact that there was a Fillmore ticket voted for. Do you claim Illinois as indorsing the repeal

of the Missouri compromise and sustaining the administration of Franklin Pierce? If he had been the candidate, or any man identified with REV. SAMUEL F. COLT, Principal, Professor of Natural him in his policy, he would have been beaten ral, Mental and Moral Science; as badly as was the man in the instance where there were but two persons in Illinois running for a State office, that of State Treasurer. It so happened that we had but two candidates for that office. One was Mr. Moore, "honest John Moore," as he has been called, the old treasurer, a popular man, and deservedly so, but identified with the party which approved the repeal of the Missouri compromise. Against him the Republican candidate was Mr. Miller,

REV. JAMES McWILLIAM, A. M., Professor of Mathematics and Master of Normal School; E. Albert Ludwig, A. M., Professor of Mathematics and Master of Normal School; E. Albert Ludwig, A. M., Professor of Mathematics and Master of Normal School; E. Albert Ludwig, A. M., Professor of Mathematics and Master of Normal School; E. Albert Ludwig, A. M., Professor of Mathematics and Master of Normal School; E. Albert Ludwig, A. M., Professor of Mathematics and Master of Normal School; E. Albert Ludwig, A. M., Professor of Mathematics and Master of Normal School; E. Albert Ludwig, A. M., Professor of Mathematics and Master of Normal School; E. Albert Ludwig, A. M., Professor of Mathematics and Master of Normal School; E. Albert Ludwig, A. M., Professor of Mathematics and Master of Normal School; E. Albert Ludwig, A. M., Professor of Mathematics and Master of Normal School; E. Albert Ludwig, A. M., Professor of Ancient Languages, Instructor on the Piano and in Drawing; Miss Ellen C. Colt. M him the Republican candidate was Mr. Miller, who was elected by more than twenty-one thousand majority. Here, where there were but two candidates running, you see what was the public sentiment of that State on this is. the public sentiment of that State on this is-Mr Buchanan, it is east by a large minority of the voters of the State. So it is on the congressional ticket; a majority of thousands is given for the Republican condidates. I sue. Although its electoral vote is cast for is given for the Republican candidates. I too therein upon any permanent scholarship rented of protest that the State of Illinois never has indorsed and never will indorse the spread of slavery over free Territories. The only difficulty which we had was in getting the people to decide upon that issue. The trouble was Tuition on Piano Forte with use of instrument. that we could not bring up the opposite party to the advocacy of those doctrines which are to the advocacy of those doctrines which are proclaimed here in the Senate. If we had been able to do so, and could we have had the benefit in the State of Illinois during the canvass of the speech which the Senator from Virginia has delivered here to-day, I think that even the electoral vote of Illinois (though so cast now by a minority of its voters) would not have been cast for Mr. Buchanan.

I shall take another time when I have had a further opportunity to examine this message

a further opportunity to examine this message of the President, to comment further upon it. On the present occasion I will not longer detain the Senate. My object in rising was chiefly to protest against "the baseless assumptions" in this message, and the (as I think) nuwarranted assumptions made by Senators here when they undertake to attribute to the great Republican party, which sustained Col. Fremont, any hostility to the rights of any of the States of this Union, or to the institution of slavery in any of the States

On motion of Mr. WILSON, the Senate adjourned.

TRAPPING MICE.—The number of mice may be very materially reduced by trapping them. They are very readily caught. The little wooden traps, with a strong yoke rising over a round hole in the side, can be bought very cheaply. They are retailed for about 3 cents each, when having but one hole and for six cents with two holes. Two or three dollars will purchase a hundred of the single-hole traps. These baited with a bit of cheese, or cheese-rind, and distributed around an orchard, will thin out the mice very rapidly. We have a lot of them about the dwelling, garden, &c., and find them more effectual, and less annoying, (especially o' nights,) than a gang of cats. -American Agriculturist, November.

"If you ever think of marrying a widow, my son," said an anxious parent to his heir, select one whose first husband was hung ; that is the only way to prevent her throwing his memory in your face, and making annoying comparisons." "Even that won't prevent it," exclaimed a crusty old bachelor; ' praise him, and say hanging would be too good for you !"

A Western editor thus delivers him for the world say to the individual who ole our shirt off the pole, while we were lygin bad waiting for it to dry, that we single rely hope that the collar may cut his proat!"

THE ELECTRO CHEMICAL BATH, DIRECT & TO-&-FRO ELECTRO MAGNETIC MACHINE.

JAMES HARRIS, ELECTRICIAN, of Towarda, respectfully informs the public that he has lately procured from New York the celebrated Electro-Chemical Bath, which has proven to be one of the most important and wonderful discoveries of the age, from its ability to extract minerals from the human system.

Some eight years ago, a physician of Cincinnati discovered the process of extracting minerals from the body, by galvanism; more recently, M. Verges, of New York, an electro-gilder, having suffered from the introduction of poisonous minerals into his system in the prosecution of by galvanism; more recently, M. Verges, of New York, an electro-gilder, having suffered from the introduction of poisonous minerals into his system in the prosecution of his art, conceived the idea of removing them by the same processes, he succeeded in doing so, and quickly recovered. He then applied the same means to others similarly affected, with like results. His success exceeded his most sangaine expectations, for not only did these Baths remove mineral poisons, but cured many diseases, some of which were the result of minerals, and some were not.

More recent experiments have fully confirmed the singular power of this Bath to draw from the system all minerals that may be lodged therein, to the great detriment of health. Very often persons are afflicted by diseases which are beyond the comprehension of the most skilful physicians, and which are the effect of poisonous minerals accumulating in the system for years, taken in the shape of calomel, lead, &c. &c.

The following are some of the diseases cured by these baths: Rheumatism, Paralysis, Palsy, Painter's Cholic, Chronic Ulcers, Glandular Swellings, Scrofula, Cancer, Neuralia in all Its forms, Salt Rheum and Humors of all kinds.

He has also S. R. Swith-roomy invented DIEECT AND

He has also S. B. Smith's newly invented DIRECT AND TO-AND-FRO ELECTRO MAGNETIC MACHINE, which is a great improvement on the Magnetic machines hereto-fore in use. With the aid of the Bath and Machine, we fore in use. With the aid of the Bath and Machine, we have at command all the available medical efficiency of Electricity. The medical power of the Machine is very great, in introducing medicines into the system through the pores of the skin—applying it directly to the parts affected, which gives an increase of medicinal power over that of taking it into the stomach, rendering it particularly efficacious in all local diseases.

I am now prepared to apply these Baths, and also the Machines, at my house in the south part of the borough of Towanda, or I will visit patients at a distance, who are unable by reason of disease to come to this place, at moderate prices.

derate prices.

I am also sole agent for Bradford county, for the above
JAMES HARRIS. To wanda, December 22, 18.
