THE TRIBUNE FOR 1857.

The Election is past, and its results proves that the work devolved on the Republican party is not yet completed. In all the Eastern and Northern portions of the country—in New-England, New-York Ohio and the Nortl West—the Republican banner floats in triumph; while in Southern Jersey, Pennsylvania, Indiana and Illinois—is short, wherever few newspapers are taken, and when common schools are too new and too feelle to have educated the present generation of voters—the black flag of Slavery obstructs the sunshine. A stranger to Americanght distinguish those portions of our country most ble sed with Education, Intelligence, Thrift and Virtue by scanning the returns of the Pre-idential contest of 1856. We have failed of present success, not be cause the People are against us, but because that large portion who did not hear or read the argument and do not know what were the real questions at issue, wentalmost solid against us, reversing the verdict which the great majority of the educated and intelligent endeavored to pronounce.

These facts indicate the path of pressing duty. With no unmandy replaints over what is irre-coefule—with no abatement of heart or hope because the triumph of Liberty in her new ordeal is not won at the Long Island and White Plains of her struggle—with no shadow of regret that the responsibility of governing is not confided to her shampings before the People were fully ready to sustain

White Plains of her struggle—with no shadow of regret that the responsibility of governing is not confided to her champions before the People were fully ready to sustain them—we begin afresh the work of diffusing that vital truth which, in regard to the concerns of this world as well as of the next, makes Free indeed. Now, in the Slave Power's heydry of victory, when its ministers and servitors are gathering and plotting to make the most of their triumph and "crush out" the spirit which they vainly believe to be crucified and entombed—now, when the faint-hearted or cold-hearted who lately basked in the sunshine of our premature hopes are hauling off to repair faint-hearted or cold-hearted who lately basked in the nunshine of our premature hopes are hauling off to repair damages and talking of abandoning the rugged arena of Politics for more quie, and flowery fields—now, in this bour of weariness and shadow. The Tribune renews its yows of eternal hostility to every form of tyranny over the bodies or souls of men—to the shameful assumption that the teniglited and feeble, whether in soul or body, are to be regarded and treated as the convenience or the prey of their wiser or stronger brethren—to the domination of despots and oligarchs, whether of empires or plantations—to the enslavers of cities and kingdoms in Europe or the breeders of children for the auction-block and the cotton-field in Virginia or Alabama.

cotton-field in Virginia or Alabama.

The doctrine that no human being was ever created for the benefit or advantage of another—that all service between man and man should be free and reciprocal—that the laborer should not toil and sweat to pamper others' pride or minister to others' luxury, but for the sustenance and comfort of those near and dear to him—is destined to certain triumph. It must prevail, for God reigns, and Earth was not created to be a theatre of injustice, oppression and misery for ever. It must triumph; for all true prophecy affirms and the vindication of the Divine benignity imperatively requires it. It must triumph; for Democratic America cannot always remain the scoff of aristocrats and the shame of reformers and liberals through:

Is not a chaos or a riddle, but everywhere instinct with meaning; and no heroic effort ever failed of its effect—no drop of marty blood was ever shed in vain.

But even if we Republicans were disposed to fold our arms in slumber our adversaries would not permit it. They are busy to-day in lengthening their cords and strengthening their stakes with a vigilance and activity which reveals a consciousness on their part that their dominion must be made sure forthwith or their sceptre will have forever departed. To-day, myrmidoms of the Slave Power threaten and harass Northern Mexico, are encamped in the heart of Central America and waging a war of extermination on the distracted inhabitants of its petty Republics, while it by turns leers and sowls at Cuba, while its most ruthless bands are precipitated on devoted Kamistation. Even as we write, the telegraph informs us that twenty Free-State men, guilty of attempting to defend their homes against the rapine and violence of Buford's and Titus' blood thirsty bandlts, have been convicted by Lecompte's Court of munslaughter! and sentenced to five years' imprisonment at hard labor as felons, tis but a fair specimen of what has long passed for 'justice' in Kansas—a justice which takes the criminals into pay and aids them in hunting down, plundering and "wiping out" the innocent, whom it consigns to the State prison if they are ever goaded into the madness of versiting their oppressors. Such crimes and wrongs as unhappy Kansas has for twelve months endured, even Hungary or Poland has never known; and the Power at whose instigation these villainies were and are perpetra-

State prison if they are ever goaded into the madness of resisting their oppressors. Such crimes and wrongs as unhappy Kansas has for twelve months endured, even Hungary or Poland has never known; and the Power at whose instigation these villaimies were and are perpetrated sits enthroned in the White House, and has just achieved another four years' ascendancy in the Federal Government. Who, in view of these facts, can say that Republicans may now pile their arms, even for an hour? The Territy will be, as it has been, a Palitical Journal—acowedly, though not exclusively so. It recognizes the truth that Freedom and Slavery are here grappled in deadly conflict, and that in the result one of them must lose all control over the Federal Government. But, while it gives prominence and emphasis to the discussion and elucidation of the great issue of the day, it sinks none of the characteristics of a Business and Family Newspaper. The proceedings of Congress, like those in Kansas, will be watched and reported by an able and fearless corps of Correspondents, while from London, Paris, Constanting-ple, Havana, San Francisco, Albany and other centres of interest, our special advices will be, as they have been, fresh and reliable. A member of our Editorial corps—Bayard Taylor—is now in Northern Europe, and will spend the Winter in Sweden, Lapland, Russia, thence making his way next season across Siberia and Tartary to the mouth of the Amour, and thence homewardby the Pacific and California, unless some change of route shall promise greater interest and profit to our readers, for the most interesting Lectures, Public Meetings, Acc., will be full and reliable, and our Foreign and Domestic News made up with a careful regard to the condensation into our ample columns of the greatest amount of intelligence that is consistent with the use of type of a generous size. In short, if we fail to make Tue Federal California, the first program of the federal destrible by Republicans that Tue Tue.

make The Tribune worth its cost, it shall not be for want of expenditure or effort.

If it be deemed desirable by Republicans that The Tribunes should be circulated in their several localities, we urge them to see that Clubs be made up and forwarded in due season. The Postmasters are semi-officially admonished not to aid our circulation, but to urge instead that of journals deemed "sound" and "National" by the compatriots of Atchison and Stringfellow. We ask live Republicans everywhere to take care that these efforts be not effectual to quench the light of Freedom in the murky mists of Slavery.

THE ELECTRO CHEMICAL BATH,

DIRECT & TO-&-FRO ELECTRO MAGNETIC MACHINE.

DIRECT & TO-&-FRO ELECTRO MASNETIC MACHNE.

JAMES HARRIS, ELECTRICIAN, of Towanda, respecting the process of the process of the age, from its ability to extract minerals from the human system.

Some eight years ago, a physician of Cincinnati discovered the process of extracting minerals from the body, by galvanism: more recently. M. Verges, of New York, an electro-gilder, having suffered from the introduction of poisonous minerals into his system in the prosecution of his art, conceived the idea of removing them by the same processes, he succeeded in doing so, and quickly recovered. He then applied the same means to others similarly affected, with like results. His success exceeded his most sanguine expectations, for not only did these Baths remove mineral poisons, but cured many diseases, some of which were the result of minerals, and some were not.

More recent experiments have fully confirmed the singular power of this Bath to draw from the system all minerals that may be lodged therein, to the great detriment of health. Very often persons are afflicted by diseases which are beyond the comprehension of the most skilful physicians, and which are the effect of poisonous minerals accomulating in the system for years, taken in the shape of calomel, lead, &c. &c.

The following are some of the diseases cured by these baths: Rheamatism, Paralysis, Paisy, Painter's Cholic, Chronic Ulcers, Glandular Swellings, Scrofula, Cancer, Neuralia in all its forms, Salt Rheum and Humors of all kinds.

He has also S. B. Smith snewly invented DIRECT AND

TO-AND-FRO ELECTRO MAGNETIC MACHINE, which is a great improvement on the Magnetic machines heretore in use. With the aid of the Bath and Machine, we have at command all the available medical efficiency of Electricity. The medical power of the Machine is very great, in introducing medicines into the system through the pores of the skin—applying it directly to the parts affected, which gives an increase of medicinal power over that of taking it into the stomach, rendering it particularly efficacious in all local diseases.

I am now prepared to apply these Baths, and also the Machines, at my house in the south part of the borough of Towanda, or I will visit patients at a distance, who are unable by reason of disease to come to this place, at moderate prices. TO-AND-FRO ELECTRO MAGNETIC MACHINE, which

derate prices.

I am also sole agent for Bradford county, for the above Machines.
