TO THE MERCHENTS OF THE WEST AND NORTH TO THE MERCHENTS OF THE WEST AND NORTH PHILADELPHIA MARKET being easily accessible and alvantages, worthy of your consideration. Among its advantages may be enumerated its location having shorter lines of communication to the interior, it proximity to the Iron and Authracite Coal districts of Pennsylvania, the large and varied extent of its manufac-tures, being far in advance of any other city in the United Fitates, the moderate expenses necessary for carrying or business, &c.

The market possesses unrivalled advantages for the sale of many kinds of produce, such as Flour, Wheat, Barley Wool, Butter, Cheese, &c., while the charges incident to sales and attendant expenses, are more moderate thar neighboring seabord markets.

WM. B. ASTOR, the richest man in America. S. EELAND & Co., Proprietors of the Metropolitan Hotel, and others. Did space permit, we could give many hundred certi-ficates from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men, is found in their effects upon trial. These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present of medical science can afford.— They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies extract-ed by Chemical process in a state of purity, and combin-ed together in such a manner as to insure the best results. This system of composition for medicines has been found in Cherry Pectoral and Pills both, to produce a more ef-ficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each undividual virtue only that is desired for the cu-rative effect is pre-ent. All the inert and ohonoious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self evident the effects should prove as they have proved, more purely remedial, and the Pills a more powerful an-tidote to disease than any other medicine known to the word. As it is frequently expedient that many medicines

world. As it is frequently expedient that many medicines should be taken under the counsel of an attending Physi-cian, and as he could not properly judge of a remedy without knowing its composition. I have suppled the ac-curate Formulæ by which both my Pectoral and Pills are made, to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be forwarded hy mail to his romest.

be forwarded by mail to his request. Of all the Patent Medicines that are offered, how few

tic men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial. They operate by their powerfal influence on the inter-nal viscera to purify the blood and stimulate it into heal-thy action—remove the obstructions of the stom...ch, bow-els, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Pump Dealers, Parmers, Village Corporations and all others in want of cheap and durable Water Conductors, to the Pipes manufactured by this pro-cess. They are made from sold Pine and other scantling from 3 to 6 inches square, according to size of bore and pressure required, in sections 8 feet long, with a socket joint accurately fitted, both air and water tight. As Wy-choff's Machine bores directly through the centre every time, the timber need only be large enough to sustain the pressure wanted, as the smaller they are the more perfect-ly they become saturated with water, and the longer they will last when laid in the ground. It is a well-ascertain-ed fact that while the body or thick part of a pump log is entirely decayed, the thin sharpened end will be sound; at the same time they never stop up from impurities of the water or being flattened, are free from rust or poison-ous oxydes, lasting about as long as lead or iron, at only one-sist the cost. which produces the article so long sought after by Pu
