TO THE MERCHBNTS OF THE WEST AND NORTH WEST:

PHILADELPHIA MARKET being easily accessible, your attention is called to it, as possessing facilities and advantages, worthy of your consideration.

Among its advantages may be enumerated its location, having shorter lines of communication to the interior, its proximity to the Iron and Anthracite Coal districts of Pennsylvania, the large and varied extent of its manufactures, being far in advance of any other city in the United States, the moderate expenses necessary for carrying on business, &c.

The market possesses unrivalled advantages for the sale of many kinds of produce, such as Flour, Wheat, Barley, Wool, Butter, Cheese, &c., while the charges incident to sales and attendant expenses, are more moderate than neighboring seabord markets.

Ott. G. R. CHITTON, Practical Chemist of New York City, endorsed by Hon. W. L. MARCY, Secretary of State. WM. B. ASTOR, the richest man in America. S. EELAND & Co., Proprietors of the Metropolitan Hotel, and others. Did space permit, we could give many hundred certificates from all parts where the Pills have been used, but

Dia space permit, we could give many hundred certificates from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men, is found in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford.—
They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies extracted by Chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self evident the effects should prove as they have proved, more purely remedial, and the Pills a more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that many medicines

tidote to disease than any other medicine known to the world.

As it is frequently expedient that many medicines should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have suppled the accurate Formulae by which both my Pectoral and Pills are made, to the whole body of Practitioners in the United States and British American Provinces. It however there should be any one who has not received them, they will be forwarded by mail to his request.

Of all the Patent Medicines that are offered, how few would be taken it their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their

GREAT IMPROVEMENT IN WATER PIPE

CHAIN PUMP TUBING.

THE subscriber having lately commenced the manufac-ture of WATER TUBING, at Wilkes-Barre, Pa. with WYCKOFF'S PATENT BORING MACHINE, which produces the article so long sought after by Pump Manafacturers and others, would call the attention of Rail road Superintendents, Pump Dealers, Farmers, Village Corporations and all others in want of cheap and durable Water Conductors, to the Pipes manufactured by this process. They are made from solid Pine and other scantling from 3 to 6 inches square, according to size of bore and pressure required, in sections 8 feet long, with a socket joint accurately fitted, both air and water tight. As Wychoff's Machine bores directly through the centre every time, the timber need only be large enough to sustain the pressure wanted, as the smaller they are the more perfectly they become saturated with water, and the longer they will last when laid in the ground. It is a well-ascertained fact that while the body or thick part of a pump log is entirely decayed, the thin sharpened end will be sound; at the same time they never stop up from impurities of the water or being flattened, are free from rust or poisonous oxydes, lasting about as long as lead or iron, at only WYCKOFF'S PATENT BORING MACHINE, ous oxydes, lasting about as long as lead or iron, at only ne-sixth the cost.

one-sixth the cost.

The above-mentioned Pipes have been extensively and thoroughly tested in most of the Northern States, for the past two years, and wherever introduced they immediately supersede all other kinds of Pipe or Chain Pump Tubing. They can be made to stand any desirable head of water, and can be shipped to any part of the country with safety and at small expense.
