 Did space permit, we could give many hundred certificates from all parts where the Pills have been used, but evidence even inter convincing than the experience of eminent public men, is found in their effects upon trial. These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford.— They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetale remedies extracted by Chemical process in a state of purity, and combined by Chemical process in a state of purity, and combined to the transfer the best results.
 This system of composition for medicines has been found in Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medic-ins to undened with the cach individual virtue only that is desired for the curative effect is should prove as they have proved, more purely remedial, and the Pills a more powerful antidote to disease than any other medicine known to the world.

world. As it is frequently expedient that many medicines should be taken under the counsel of an attending Physi-cian, and as he could not properly judge of a remedy without knowing its composition, I have suppled the ac-curate Formalæ by which both my Peetoral and Pills are made, to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be forwarded by unit to his remest. world.

should be any one who has not received them, they will be forwarded by mail to his request. Of all the Patent Medicines that are offered, how few would be taken it their composition was known! Their life consists in their mystery. I have no mysteries. The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scienti-fic men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Fills, and even more confidently, and are willing to certify that their anticipations were more

same thing of my Fills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial. They operate by their powerful influence on the inter-nal viscers to purify the blood and stimulate it into heal-thy action—remove the obstructions of the stomach, how-els, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.
