Gov. Pollock has called an extra set sion of the Legislature to devise some relief to the present financial troubles. The following is the Governor's Proclamation :

IN THE NAME, and by the Authority of the Commonwealth of Pennsylvania, JAMES Pol-LOCK, Governor of the said Commonwealth : A PROGRAMATION !

Whereas. A serious financial revulsion has occurred, resulting in the suspension of specie payments by the Banks of this and other States of the Union, and the failure of many long established commercial houses, leading to the destruction of confidence, and to the general embarrassment and depression of trade, and threatening to affect disastrously the credit of the Commouwealth, and the great industrial interests of the people ;

And whereas, An occasion so extraordinary requires prompt and sufficient action to relieve an alarmed and suffering community ;

Therefore, I, James Pollock, Governor of the Commonwealth of Pennsylvania, by virtue of the powers conferred on me by the constithe members of the Senate and House of Representatives to meet in their respective house in the capitol at Harrisburg, on Tuesday, the 6th day of October, A. D., 1857, at 12 o'clock at noon of that day, then and there to take into consideration, and adopt such measures of relief in the premises as the present exigency may seem to them in their wisdom to demand.

In testimony whereof, I have hereunto set my hand, and cause the great seal of the Commonwealth to be affixed, at Harrisburg. this 28th day of September, in the year of our Lord, 1857, and of the independence of the United States the eighty-second. By the ANDREW G. CURTIN, Governor,

Secretary of the Commonwealth.

If he had acted upon his own programme, the case would have been otherwise If he spoke the truth when, in his letter, he said that he and his party would not continue the agitation of the slavery issues, what advantage could it be to him to foilow in Mr. Wilmot's wake ? THE LAST APPEAL.

This is the last opportunity we shall have to urge upon our Republican friends the duty and approbation of the sham Democracy ? necessity of Rallying at the polls on Tuesday next We trust they are already fully pre tution, do hereby convene the General As-sembly of this Commonwealth, and require latory have already been visited, and the like latory have already been visited, and the lukewarm and indifferent aroused to a sense of importance of the present contest. But in times like the present, just after a campaign has passed, conducted with much feeling for months, there is great danger from apathy and indiffer ence. Not that the voters have less interest in the success of correct principles, but they are exhausted by the excitement of the past and are prone to run into the other extreme.

In this County, the hope of the Democracy is that the Republican vote will not be polled. They have not made a County ticket, nor held a single meeting, to avoid arousing any political feeling, and directing attention to the pending election. They expect by these quiet measures, that a large number of our voters can be kept from the polls. The policy is a good cuss before the people at joint meetings the one, and calculated admirably to help them. issues of the campaign, many persons were in- without extraordinary exertions on the other clined to think Gen. TEACHERS' INSTITUTE AT EAST SMITHFIELD

The Teachers' Institute at East Smithfield was duly organized on the 21st ult., by electing the proper officers, and Prof. COBURN as principal Teacher. There were about sixty teachers present at the commencement, and the number continued to increase during the week. At the commencement of the second week, ninety names were registered, and this in attendance until the close. It was the general remark among those present, that no

were those spent in attendance at this Institute. Much valuable instruction was communicated by lectures, in the art of teaching, and the duties and responsibilities of teachers ; and the members were thoroughly drilled by the Principal and competent assistants, upon those branches required by law to be taught in our Miss A. Griffin, Miss S. Pratt, Miss E. H.

Common Schools. The exercises were interspersed throughout with music from the choir, and occasional exercises in Calisthenics. During the evening sessions, various subjects relating to school goverument, were introduced and discussed. On Wednesday, the 30th, a lecture was delivered by the Superintendent of Chemnng

County, in which he enumerated the various ssentials of a Good School. The afternoon was mostly devoted to social

njoyment. The members of the Institute and the citizens in attendance, under the direction of "Sergeant" BULLOCK and "Corporal" FARNSWORTH were marched, with martial music and colors flying, to Bullock's grove, and while performing certain military evolutions, a show-Republican meetings are held, during the er suddenly dispersed them and they retreated in confusion to the grove, where they devoted themselves to singing and swinging and fun. The last day of the session was occupied in the examination of Teachers by the Superintendent. During the evening session the valedictory was read, and a copy of Goodrich's

Universal History was formally presented to

Prof. Coburn, in behalf of the members of the Institute, as a testimonial of their appreciation of his services. It is to be most earnestly hoped and we think, it may be confidently expected, that the effect of this Institute will be widely felt in the elevation of the system of the Common School education, in increasing the teacher's estimate of their own profession, in leading to higher views of their relations and responsibilities, and to far better methods of communicating instruction and discharging their various duties. Said the Superintendent of Chemung, "I never knew a person to remain a poor teacher who was in the habit of attending Teachers' Institutes." May this this saying not be proved a false one, by the effect that shall follow the Teachers' Institute in Smithfield. The effect upon the popular mind
