of the Territorial Legislature, on the first Monday in January, on the Lecompton Constitution. This election was held after the Territory had been prepared for admission into the Union as a sovereign State, and when no authority existed in the Territorial Legislature, which could possibly destroy its existence or change its character.—The election, which was peacefully conducted under my instructions, involved a strange inconsistency. A large majority of the persons who voted against the Lecompton Constitution, were at the same time and place, recognizing its valid existence in the most solemn and authorite manner, by voting under its provisions. I have as yet received no official information of the result of this election.

Towanda, January 20, 1858. actually cost the purchaser nothing. The prizes are distributed on a simple plan of drawing, which would take too much room to explain, but which has never failed to give complete satisfaction. We have drawn and sent to purchasers 183 gold watches of various prices, 74 purses of gold dollars, 238 gold lockets, 850 gold chains, and a corresponding number of other prizes, within two months. THERE ADIC NO BLANKS, but every purchaser draws a prize worth \$2 certain, and it stands thousands of chances to be a higher figure.

We want a good agent in every neighborhood through-

of chances to be a higher figure.

We want a good agent in every neighborhood throughout the country, to solicit purchasers, and any agent, to be successful, must have a Pencil and prize to exhibit. We pay agents \$1 cash for each purchaser he obtains, and the first person in any neighborhood who applies for a Pencil and gitt, will receive the gency for that locality. Should an agent obtain a valuable prize to exhibit with his Pencil, he would have little difficulty in obtaining scores of nurchasers, and making it a naving business. ing scores of purchasers, and making it a paying business.
