farmer's Department.

Work for June.

FARM .- June is emphatically a growing month, both for vegetables and weeds Plows, cultivators, horse and hand hoes will be called into requisition now, to keep down weeds and loosen the soil about growing plants. Some late crops are yet to be put and in, failures in the comfields need replanting. No spot on the farm should lie waste. Plant or sow such spots with some soiling erop, put in buckwheat or turnips, anything rather than leave them idle to grow pestiferous weeds. We do not believe in the idea that soils need rest A good coating of manure, deep plowing, and clean tillage are the best "rests" that exhausted lands can have.

Towards the latter part of the month the ringing of the scythe and the clatter of the mowing machine will be heard in the meadows and hay-making will be the order of the day.

Barley may still be sown, if omitted till now. Beans-Plant, any not already in, among corn or by themselves.

Bees send out most of their swarms in June. Watch them closely and have hives in readiness to place over them as soon as they set'le in

may also be done now. Very good corn was may also be done now. Very good corn was raised last year from grounds planted as late as the 10th of June. Put in a good supply for Summer feeding of cattle. Plant at inter-vails of two weeks. Plow and hoe former plan-tings. Energy Do not term t cattle with poor

tings. Fences—Do not tempt caltle with poor ones. Grain Fields—Select a seed path and go over it, removing cockle and other foul stuff. Grass—Some fields will need cutting, accor ding to latitude. Begin enrly, especially if the weather is fine and you have no mowing machine. Have a quantity of hay caps im readiness for wet weather, and all of your tools and wagons or carts in order. Stock, min have now on makine, which we offer at the lowest cash prices; consisting of 'lechanic's Tools, Building Ma-terials, Iron and steel, Nails and spike, Ropes and Cord-age, Paints, Oils and Glass, Mill saws of every size and shape, either Mulay Gang or Circular. Machine Belting, of all widths, both of India Rubber & Machine Belting, of all widths, both of India Rubber & Machine Belting, of all widths, both of India Rubber & Machine Belting, of all widths, both of India Rubber & Machine Powler, Stin, seythes, Forks, &c., at Man-ufacturers prices. Tin, sheet iron, and Copper work on hand or made to order. CORTE ACTOR'S TOOLS—Wheelbarrows, Ames' Sho-vels, Blasting Powder, &c. Agents for Rich & Wilder's Patent Salamander Safes, Fairbank's Platform Scales, and Welch & Griffith's Circu-lar saws. and wagons or carts in order.

Hoes should be kept bright by constant use during most of this month. Get the most mail. Elmira, April 7, 1856. improved horse hoe and make horses do the work of many men. Push the hoeing, and weeding so as to be in readiness for hay and grain, now rapidly coming forward.

Manures-Dig out a portion of the muck swamp before having, and have it dry for Fall use. Mix lime or ashes with the muck if con-venient. Keep cattle yards covered with Network Steerse and Mental and Moral Science ; DAVID CRAFT, A. B., Professor of Mathematics and Natural Science (muck or loam and scrape up the fresh drop-pings each morning and mix with compost materials under cover. Natural Science. MISS A. ELIZA FRITCHER, Proceptress; MISS O. LOUISA JENKS, Instructor on Pinno; muck or loam and scrape up the fresh drop- MB

materials under cover. Obions—Hoe, weed, and thin early before the weeds get a start. Much after labor will thus be saved. Peas—Sow late crops, previously scalding to destroy bugs unless they have left the seed. Potatoes—Keep free from weeds but do not use the plow among them after they com-mence blooming. now receiving a large and well selected asfortment of

them out for a short time about sundown .--Keep roots dusted with plaster, charcoal or muck, scraping up and barreling the contents | frequently for guano.

Pumpkins may yet be planted, either among corn and potatoes or by themselves. We have lessons, 50c, or for practic after a second hoeing even.

sheared last month. If not wash, and shear Washing, per dozen, in about ten days afterward.

Sorghum-Drill in a quantity, for soiling with purposes.

Stock of all Kinds-Seek to improve by saving the best calves, lambs, pigs, &c. Why not keep and raise cows that will give 24 or even \$100, any day rather than be at the same cost of keeping those which give 8 to 12 or 15 quarts of inferior milk per day, and which will scarcely bring \$30 in market. Swine—Where there is an orchard or small Bealing schore the state of the size of the or even \$100, any day rather than be at the

pasture accessible, hogs may properly have the range of it, but by all means keep them from the highways and dooryards. If shut up, give them weeds, turf, and other green those qualifying themselves as teachers for constuff daily, keeping their pens and yards well supplied with manure ausorbents.

Tools for hay and grain cutting, should all be procured and put in working order. With a large quantity of hay and grain to cut, a mowing machine will doubtless pay, besides, securing it in better order.

Weeds--Keep them down while small if you would save heavy labor afterwards, and secure good crops.

ORCHARD AND NURSERY .--- If properly cared for last month, the orchard needs little attention now, other than destroying insects, pinching in, and Summer pruning. Weeds and grass should also be kept from growing about the trunks, and fruit thinned out where it has set too thickly.

Hoeing will be the chief business in the nursery, assisted by the plow or horse cultivator.

Budding may be performed, in some cases of early growth, particularly on plums, pears, and roses.

Budded Trees-Remove suckers, and tie up hads inserted last year. Where buds have become well established, and the new shoot is growing in an upright position, old stocks may be rounded.

Caterpillars-Destroy, any suffered to live till now.

Evergreens may still be transplanted with care, watering and mulching.

Grafts-Examine and loosen any bandages coment or grafting wax where it has pealed off. CAUTION .- All persons are hereby caucatting into newly grafted trees Replace Rub off suckers.

Insects-Wage incessant war upon the pillars, apple, and cherry worms, horers, &c., all want looking after. Those who wish to have abandance of good fruit must be some expense in obtaining it.
