

Farmer's Department.

From the Tioga Co., Pa., Agitator. A Good Suggestion to Farmers.

FRIEND COBS: As I heard no little complaint about cows shrinking their milk when the feed began to get dry, last season, I thought it might not be out of place to tell my brother farmers a bit of my experimenting in growing corn fodder.

I took half an acre of sward ground, turned it down and prepared it in the same way we prepare ground for a crop of corn. I then marked it in drills thirty inches apart and sowed fifteen or twenty grains of corn to the foot, along these drills. It came up finely. I ran the plow twice to the row and dressed it a little with the hoe to keep the weeds and grass under. In this way I got a very heavy crop of fodder.

Now for the result of my experiment: I had eleven cows. They began to shrink their milk in the last days of July, so that my cheese fell off about six lbs. in weight per day. I then began to cut and feed the eleven cows two good armfuls of the green corn fodder once a day. In a very few days the shrinkage was entirely overcome and the cheese was brought up to its full weight in the best of the season, and held there two months. Thus, I got six lbs. of cheese per day from two armfuls of corn fodder, which at ten cents per pound amounts to 60 cents per day for 60 days, which gives a total of \$36.00. This, I think is a sum worth saving. I had much more corn than my cows could eat, and, as considerable of it cared, found it very profitable to feed my hogs. I calculate that my cheese would have fallen off ten lbs., at least, but for this fodder. In my opinion one half acre of sward or drilled corn is worth more than six acres of the very best pasture.

I gave these facts for the consideration of my brother farmers, and assure them that should they act upon these hints they will never have cause to regret the experiment.

Delmar, April, 1855. Wm. Francis.

HAY CARS.—These articles we wish to keep before the people. We are persuaded from our own experience and observation, that no small investment, in tools to work with, will pay better than hay caps. Hay cured in the cap is much better than that overried in the sun. With these articles on hand, the farmer is master of his circumstances, and can throw the old adage, "Make hay while the sun shines," to the winds. At least, he can stop making it before the juice is all evaporated, and can put his hay into cock, without fear of rain, to finish the curing process in the best manner. A single shower will often damage a ton of half-dried hay, four or five dollars. The hay caps, to save it, would not cost much more. They are almost certain to pay for themselves every season they are used, and in some wet seasons they will save several times their cost. They can be got up for from twenty to forty cents apiece, according to size and quality. For an ordinary cock, weighing about a hundred pounds, a cap one yard and a half square is plenty large enough. It is well, however, to have a few of two yards square, for extra sized cocks, for the tops of stacks, and for shocks of grain which are not put to stand the weather. The objections to hay caps are generally made by persons who do not understand the use of them. They are best put on with hoops at corners, and pins, and with a little experience in handling, the ordinary force upon a farm in laying them will be able to secure a morning's mowing against all showers that give any notice of their coming. It is very little work to make them, they need no painting, and they do not rot the hay. Get them in season that you may not have to suffer the upridings of conscience, when you find yourself caught with six tons of hay down, all wet and mouldering for want of a few dollars worth of cotton cloth, which is now sold at an unusually low price.

GREEN CORN FOR SUMMER FODDER.—As every farmer knows, there is a season in mid summer when pastures become parched and brown, and cows fall both in flesh and in milk. Some consider this a necessary evil against which no provision can be made, but all do not so consider it. Some farmers, as we happen to know, provide against this time of scarcity by planting corn for summer feed. They often use the Southern yellow flat corn, mature the ground well, sow in drills three feet apart, leaving it so thick in the drill that no stalk will grow more than an inch in diameter. In this way, they secure fine, succulent feed for their stock, from the last of July to the middle of September. The cows keep in good flesh, and the butter and cheese show no abatement. This corn answers well also for feed fodder, though the difficulty in curing will prevent its general use on a large scale. The advantage of this corn over the common Northern varieties is that more of it can be raised on the same ground, and it grows faster. Plant about the middle of May, June 5th, and June 20th, for a succession of tender feed through the summer.

CARE OF FARM IMPLEMENTS.—We believe it may be safely asserted that the farmer in the course of years sustains as much loss in the needless injury and decay of his tools by exposure to the weather during the season that they are not in use, as he does from the actual wear of them on the farm. The plow, the mowing machine, the harness, the wagon, with the whole catalogue of minor tools and implements, we are convinced from actual observation suffer more from the influence of the sun in shrinking and cracking and in the decay caused by exposure to the wet not in use, than they would were they kept constantly employed in the work for which they were designed.

TO REMOVE A RUST.—To remove rust from steel, cover with sweet oil, well rubbed on it; in forty eight hours unclack lime, powder very fine. Rub it till the rust disappears. To prevent the rust, rub with fat oil varnish, four fifths of well rectified spirits of turpentine.—The varnish is to be applied by means of a sponge, and articles varnished in this manner will retain their brilliancy and never contract any spots of rust. It may be applied to copper philosophical instruments, &c.—London Field.

LOOK TO YOUR STRAWBERRY BEDS.—If you have not already carefully weeded out your strawberry beds, and removed the plants from the paths, not a day is now to be lost in attending to it. Grass or weeds of any kind, will soon be destructive of the best beds.

WANTED.—I wish to purchase 100,000 feet of MAPLE SCANTLING 13 feet long, and 2 1/2 inches square. Any one wishing to make an offer for any or all, can do so by calling at my Furniture Warehouse in Towanda, Pa., on or before the 15th of Sept. 1857. CHESTER WELLS.

Miscellaneous. TOWANDA HARDWARE CUTLERY, IRON AND STOVE STORE.

D. C. HALL Wholesale and Retail Dealer in Hardware and Stoves, Iron and Nails, Sash, Glass, Paints and Oils, House Trimmings—all kinds of Carriage Trimmings, Seat Cloths and Laces, Carriage Harness and Seat Springs, Car-Sulley and Seat Springs, Car-Saws, Augers, Chisels and all other Tools—Cross Cut, Mill and Circular Saws, Blacksmith Tools, Belovs, Anvils, Vices, Hammers and Screw Plates, Axes, Broad Narrow, Lath and Hand Hatchets—Cable, Rope, Trace and Hairs, Chains, Crowbars, Picks, Shovels and Spades.

Tioga Point Agricultural & Junction Iron Works, at Athens, Bradford County, Pa. WELLES, BLOOD & CO.

KIRBY'S MOWER AND REAPER. WE are manufacturing the above mentioned excellent machine for Eastern Pennsylvania and the neighboring Counties in New York, and invite the particular attention of farmers to the following features of Kirby's Mower and reaper, which we believe to be superior to all others in use, in the following particulars:—It is the lightest in use; strong and durable; simple in construction; easily worked; adapted for horses or oxen; requires much less draught than other machines; has no side draught though it cuts a wide swath; will work on rough ground where no other machine can follow it; very difficult to be clogged in any kind of grass, be it wet or dry; not liable to get out of repair; is composed principally of iron; is a perfect combined machine, working equally well for mowing or reaping; and is the cheapest in price.—Mower being only \$100, and the combined Machine \$120,—making it altogether the most desirable Mower and Reaper in market.

Farmers wanting EXCELLENT Mowers and Reapers, should by all means see our machine before making up their minds to buy any other. Additional and interesting information will be furnished on application to our Illustrated Catalogue, which also describes our other machines and implements; among which are EMERY'S PATENT CHANGEABLE RAIL ROAD HORSE POWERS;

TIOPA POINT IMPROVED T. REBERS & CLEANING MACHINES & SEPARATORS, PORTABLE SAW-MILLS, PLOWS, CULTIVATORS AND HORSE HOES, CIDER MILLS, DRILLS.

OUR PORTABLE DUG POWER is a valuable addition to the common mowed wheel, and is adapted for dairies of from 5 to 20 cows. Send for copies of our Catalogue and Price List for yourself and neighbors. WELLES, BLOOD & CO. Athens, Pa., June 10, 1858.

THE MOWING MACHINE That Everybody Likes! ALLEN'S PATENT IMPROVED MOWER, AND A MOWER AND REAPER COMBINED. Strong and simple in construction, not liable to get out of order, and easily worked, so easy as to be controlled by all day work for a light team; safe to the driver, and may be worked at a slow gait by horses and oxen.

No clogging of knives; works well on side hills, and in any kind of grass, heavy or light, lodged or standing, ripe or unripe, wet or dry, long or short, or any other kind of grass.

Not confined to localities where other machines work, but will do good where others operate inefficiently, or none at all. It is believed that no person can be found, having one, that will exchange it for the best of other kinds, and fifty dollars.

Every machine warranted to give entire satisfaction. For sale by P. P. PECKHAM, Columbia X Roads, Bradford County, Pa. May 18, 1858.

MCCABE'S CENTRAL MEAT MARKET, Between J. Kingsberg's & J. Powell's stores.

The subscriber would respectfully tender to his customers and the public generally his sincere thanks for the very liberal patronage extended to him the past season. He solicits a continuance of the same.

He would say to the public that he intends to keep constantly on hand a choice selection of MEATS of all kinds, the best the country affords, which he intends to sell for the most profit, and in the most liberal manner by the side, quarter or pound.—Please give me a call.

Meats, &c., will be delivered on short notice, when ordered, at any place in the Corporation. J. McCABE. Towanda, Feb. 12, 1857.

TOWANDA FOUNDRY. The subscriber continues to carry on the Foundry business in Towanda, and is prepared to do all kinds of work in his line on short notice and in a workmanlike manner. He will keep on hand or make to order, Steam Engines, Mill Irons, Single Shot, Wagon Boxes, and any article of cast iron that may be required. Turning and fitting up will be done on short notice and on reasonable terms. Persons wishing to purchase Stoves of any kind will find it much to their advantage to buy at the Foundry, as they can be repaired much cheaper. Please call and examine before purchasing elsewhere. Old cast iron and Brass taken in payment. Don't mistake the place—one door east of Mercer's Block.

I would also say to those having accounts standing over six months, that they must be settled without delay, and those having notes that are due will do well to pay up and save cost. JOHN CARMAN. Towanda, Oct. 22, 1856.

NEW TIN SHOP! THE undersigned respectfully informs his friends and the public generally, that he has opened a new TIN WARE & SHEET IRON ESTABLISHMENT in the Fandry, first door below Mercer's Store, where he is prepared to conduct the business in all its various branches.

Tin Ware and House Spouting of all kinds, made to order, on short notice. Stoves of various styles constantly for sale. Particular attention paid to Jobbing. Old Iron, Copper and Brass taken in exchange for goods. John CARMAN. Towanda, Jan. 1, 1858.

FLOUR! FLOUR!—A first rate article of Western Flour, may be had at Solomon's in Mercer's Block, lower than can be purchased in this vicinity. April 26, 1858. M. E. SOLOMON.

Miscellaneous. JEWELRY! JEWELRY! JEWELRY! A. M. Warner's New & Splendid Jewelry Store, one door north of Pattons Drug Store.

HAS just been opened with the largest and most choice stock of FASHIONABLE JEWELRY ever offered to a discriminating public. Indeed, he can safely say that with the opening of his new store has been inaugurated a new era in the Jewelry line, inasmuch as along with the choice and elegant assortment he gives the most reliable assurance of an almost incredible reduction in prices; the rich and tasteful articles having been all brought with ready cash.

As Mr. W. when he reflects how, for the past years, with a far less attractive stock, he has enjoyed so large a share of public patronage, flatters himself that the immense increase of Goods he now offers, which have been bought so much more advantageously, will enable him to increase the generous confidence which has hitherto been vouchsafed to him. He therefore solicits a continuance of the favor of his old customers, and invites the public generally to come and see the fashions.

THE WATCH REPAIRING DEPARTMENT will continue to be distinguished by the skill and despatch which have heretofore enabled it to enjoy the enviable reputation of being the most reliable in town. Towanda, September 24, 1855.
