ACCEPTANCE OF NOMINATION BY JOHN M. READ.

PHILADELPHIA, July 27, 1858. DEAR SIR :- I received, this morning, your letter of the 24th inst., informing me of my manimous nomination by the People's Convention, assembled at Harrisburg, for the office of Judge of the Supreme Court, and enclosing a copy of the resolutions passed by that body, which I have read with great care. I cordially approve of the sentiments of general policy expressed in them, and accept, with great diffidence, the nomination thus tendered me. If elected, I can only promise, so far as my ability will permit, an impartial and faithful discharge of the duties of this high judicial

PENNSYLVANIA CANAL.—The Pittsburg Despatch states that the western division of the Pennsylvania Canal is undergoing extensive repairs. Between Pittsburg and Tarentum some ten new bridges have been built in lieu of the former dilapidated old structures, and various others are taking place. The same repairs are said to be making throughout the entire division, and the value of the canal to those living along the line of the improvement will be materially enhanced. The entire division has laterally fallen into partial disuse, and consequently has been too much neglected. The farmers, however, are waking up to the necessity of keeping the canal in working order, and a meeting of those interested will be held in Freeport, about the latter part of this month, to make arrangements for securing this object. It is probable that an arrangement will be made to lease the division.

A serious accident, arrising from the use of intoxicating liquors, occurred in the town of West Union, N. Y., on Wednesday last. A young man by the name of George Kelly, had just left White's Corners, where he had replenished his stomach and a quart bottle with whisky. He placed the bottle in the bosom of his shirt and mounted a mule belonging to John H. White, for whom he had been to work, and started for his place of destination. While riding the mule at a furious rate, he was thrown from its back, striking a large with such force that the bottle was broken into a thousand pieces, inflicting a severe and dangerous wound in the lower part of his bowels, from which the intestines protruded to the length of from two to three feet. Young Kelly immediately divested himself of the fragments of the bottle and seizing the bowels in his hand started one of the neighbors, but after proceeding about ten rods sank from exhaustion. Dr. Masten was immediately sum moned, but not being at home did not arrive, until two hours after the accident. On his arrival he immediately proceeded to remove from the bowels all foreign substances, such as glass, dirt and gravel, with which they were literally covered, carefully washed them and returned them to their place and dressed the wound.

Young Kelly, up to this evening, is doing well, with fair prospects of recovery.

We learn, says Forney's Press, that while Mr. Buchanan was at Bedford he was one morning approached by Collector BAKER, of this city, who held in his hand a copy of The Press and directed the attention of the President to the "following extract" from the letter of Senator BIGLER to Secretary SATN-

The Administration is a little weak at the lines, and winces under the Southern thunder, but they must stand up to the work."

DARING ROBBERY.

One of the most daring robberies which we have had occasion to notice, was committed on Monday last, in North Towarda township, in this county, about two miles above this place. We give the facts as they were presented in the testimony before W. C. Bogast, Esq.-Mr. Cangly lives about two miles above Towanda, near the bank of the cansl. On Monday last he left home to go to work some two or three miles above on the canal, leaving at home his wife, an elderly woman, and his son a lad about eleven years of age. Between one and two o'clock in the afternoon, Mrs. Cangly saw two men approaching from the woods at the back of the house. The singular appearance of these men alarmed her and she shut and fastened the door.
