To Directors and Teachers.

Examination and Employment of Teachers -System and punctuality are indispensable to the successful dispatch of business, whether public or private; and not only economize time. but add greatly to the personal comfort of the acting parties. This is especially the case in the transaction of school business, where so many persons are concerned and so many interests involved. The following suggestions are therefore respectfully submitted, for the favorable consideration and adoption of districts through the State :

1. The time and place announced by the County Superintendent, for the public examination of teachers in the district, and should also be fixed upon for a regular meeting of the Board of Directors ; and they should all endeavor to be punctually on the spot, at the ap-

2. The board should, by public notice or otherwise, require all applicants for the schools to present themselves at the public examination has outraged the public feeling of the Northand should discountenance private examinations, except in cases of sickness or unavoidable

3. They should invite the citizens of the district to be present at the examination, to indicate their choice from amongst the teachers found competent. The public will thus become interested, and more satisfaction will be given to the patrons of the school.

4. Teachers for all the schools of the district should be selected, and a contract made with them, on the day of the public examinations and immediately after they are over, certificate awarded; and if there is not sufficient time for this purpose, directors and teachers will find it to their mutual advantage, to remain over till next morning, for that purpose.

5. In all cases a written contract entered into, on the spot, with each teacher; signed by the President of the Board and the teacher, and countersigned by the Secretary. The Secretary should provide himself wit printed blanks for this purpose, (any printer in the country will furnish them at very cheap rates,) or else write out in advance as many blank articles of agreement as there is teachers to be employed. In either case, it will take but a few minutes to fill them up, and have them duly executed; and all parties will know at once where they stand, and what is expected

6. In no case, whether at the public examination or otherwise, should a teacher be em ployed without producing a valid certificate from the County Superintendent. The certificate is itself, the only evidence of its existence; verbal statements that effect are inadmissible A forfeiture of the State appropriation to the district, will be the invariable result of the employment of teachers without a legal certifi-

8. No teacher should be assigned to a school of a higher grade than his or her certified qualifications. If an inspection of the branches marked in the certificate does not clearly settle the point, the opinion of the County Superintendent, based upon a statement of the character of the school, will generally be of essential service to directors.

9. The salaries should be graded to the qualifications of teachers, as evidenced by the certificates they hold; the highest wages being paid for the best certificates, and the lowest wages for the poorest certificate. This policy will stimulate teachers to improvement. Any other course must be not only unjust, but grossly unjust to teachers, to pupils and to taxpayers. In this connection, see No. 169, page 57, Com. School Laws and Decisions.

Teachers should not be employed because they are sons and daughters of people in the least ten days previous to the day of election. vicinity, unless their qualifications are equal to those of other teachers who can be had. No applicant, however, has any legal, moral or social right to the school, other than professional merit; and favoritism, not based upon qualifications, should not be permitted.

THE COMING ELECTION.

Up to this time, hardly a note of preparation has been heard, in this county, for the election which is to take place in less than two weeks. Apathy seems to have seized hold of both political parties. It is high time that our riends should begin to arouse themselves for the battle, and commence that labor which alone will ensure a respectable majority for the State Ticket. The importance of the present contest can hardly be over estimated. Indeed every State election is important, so long as there are great questions of National importance undecided, and the result in a Commonwealth like Pennsylvania, has a powerful influence in upholding or rebuking the course of a National Administration. In the present instance, we have a President, from Pennsylvania, who is recreant to all the professions and principles, the promulgation of which, enabled him to secure the vote of his own State-who and who yet looks to Pennsylvania for an endorsement of his acts by the election of a State Ticket standing upon a platform affirming his doctrines. The defeat of that Ticket will be a signal rebake of the present National Executive, coming from his own State, and is peculiarly dreaded by him. No means will be left indone to avert it.

It is the common expectation amongst the vell informed of all parties, that the People's State Ticket will be elected by a large majori y. So it will be if our friends do their duty Who knows the amount of labor and money the Administration will devote to Pennsylvania from this time until election? We know that already its emissaries are in Bradford .-Suppose, for instance, Bradford should give the State Ticket only 2000 or 3000 majority. when it should be 5000, at least, who can safely say that the State is to rebuke Lecomptonism? The minions of Slavery propagandism are never apathetic. They are always ready to bring to the polls every vote they can control. If our friends desire to rebuke the Kansas policy of the National Administration-if they would have Pennsylvania speak out upon that subject-it is here in Bradford that the work must be done. Time enough yet remains, if our friends set about it in earnest. The indifferent should be aroused to the necessity for exertion, and particularly should arrangements be made for bringing out voters to the polls.

The few days which now remain should be mproved. If they are allowed to slip by, we may be mortified by the small majority we shall contribute towards producing that result which we know is ardently desired by every Republican, and which is now within our reach, if we will only put forth the proper exertion.

STAND BY THE TICKET.

There is a great reason why the Republicans of Bradford should stand up square for the WHOLE TICKET. Candidates more worthy of your support, never asked your suffrages .-Don't permit any consideration to allow you to strike a single nam. Remember that it is necessary that our whole ticket should receive our united support, not that the offices are of any consequence, but to show that we are honestly united on principle, and determined to vote for the men who represent our principles inside of our organization.

It is necessary for the success of our organization, and for its great object for which it has been formed, that every member on the ticket should be cordially and zealously supported Don't allow appeals of any kind to swerve you from your duty. We have nominated our could have been made. They are entitled to our support, not only from their capacity, but from the fact that if the Republicans should leave any portion of their ticket, it would create distrust and lessen the usefulness of the organization hereafter. All our accounts from the different sections of the County are most flattering. The Republican phalanx, as far as we can learn, presents a united and determin-

THE NATIONAL ADMINISTRATION AT WORK.

The present imbecile and reckless national administration has its hands full of State and County politics just now. Its latest care has taken off the bowsprit. A few were picked up been the condition of things in this Judicial District and the providing of a candidate to ppose Judge Wilmor. We are informed that the Administration with the duties of managing Lecomptonism in this section of the State, has been for a week past, making his headquarters at Troy, and from there sending his nessages, issuing his circulars, and imploying those means which are deemed most potential in revivifying the BUCHANAN party of the Conn-

The appearance of Col. Bull in the political norizon, and the anxiety of the National Administration in regard to our polities, at this time, are easily explained. It is a well known fact that the active Buchanan men of this County, (or those most active in securing his election) are thoroughly disgusted with his course, and have openly expressed their determination not to vote the State Ticket, nor do mything towards its success. The probability is that the vote in Bradford will be light. But if a fight could be made on Judge Wilmor, then perhaps, the Democratic vote might be increased. Col. Bull's mission then is, to reconcile leaders to the State Ticket, to get up a candidate for Judge, and get out the Demo-

We warn our republican friends throughout the County to be on their guard. They must be active and vigilant until election. We have reason to believe that the plot is already matured, and will soon be developed, if a man can be found vain and weak enough to stand as a candidate for Judge. There is, of course, no expectation of electing such a candidate, but if the majority on our State Ticket will thereby be cut down to 2000 or 3000, the national administration will be so much less likely to be

Republicans of Bradford! shall the present disgraceful National Administration, its mercenary followers, its paid hirelings, achieve their purposes while you are supine and inactive? The present apathy will lose us thousands of votes unless our friends arouse, and devote some little time for a full Republican poll on the they can no more dictate to the Freemen of Bradford than they can our fellow citizens of Kansas, and that we are ready, when occasion impertinent interference in our local politics.

A little after 2 o'clock, on the 13th, dense volumes of smoke burst from the after entrance of the steerage. The ship was instantly put at half speed, at which she continued until the magazine exploded. The engineers, it is inferred, were instantly suffocated. Fire was next seen breaking through the lights amidships, and travelled aft with fearful rapidity. Some persons let down a boat from the portside of the quarter-deck, and she was thought candidates in good faith. No better selections to be crushed under the screw. Ballooning in Illinois.—An amateur aeronaut having gone up in Mr. Brooks' balloon at Centralia, Illinois, and having alighted safely some twenty miles distant, tried the experiment of allowing the farmer upon whose grounds he alighted to go up a short distance, say a hundred feet. This too, succeeded. Then two children went up when by some accident the rope slipped, and the balloon speedily shot up out of sight. It was feared they would be lost ed the balloon suspended in the air attached by the grappling-rope to a tree in his yard. He immediately hauled the balloon down, and found the youngest child asleep in the bottom of the basket, and the eldest carefully watch ing over her little brother. They had been wasted about by different currents of air through out the night and had come to a halt but a little while before they were relieved. The story the girl told was, that, as the hal-

loon ascended, she cried piteously to her father to pull it down. She said she passed ever a town where she saw a great many people, to whom she likewise appealed at the top of her voice. This place was Centralia The balloon was seen to pass over there, but the people little imagined it carried two persons in danger. Her little brother cried with cold and the heroic little girl took off her apron, had the effect of bringing the balloon down of the movement, she was quite content to keen the valve open, so long as by so doing she found she approached the earth.

The youthful aerial voyagers were in the balloon about thirteen hours and a quarter .-It may easily be imagined that among the neighbors where they landed they were the objects of much curiosity and interest. The for her brother may well be remembered, while the incident itself was of such a remarkable character that we opine it will not soon be forgotten in that section. The boy and girl were conveyed home as soon as practicable, and it is needless to say were received with outstretched arms.

DEAD BODY THREE WEEKS .- Early in August, John Rawle, a lad of sixteen, living in Volcano, Amador county, who had been vainly endeavoring to obtain his father's consent to go to Frazer River, disappeared, taking with him a valuable horse belonging to the family. It was supposed he had started for Frazer River, and so little anxiety was felt in regard to him. On the 15th of August his body was found in the Butte Ditch, a few miles east of Jackson, attached by a "lariat" to a half dead hors From appearances the boy, on the leaving home, lay down to sleep, with the horse during the right had run off, and dragging his master by the rope until the boy's life was extinet. The Pastors of the different Protestant churches were with him all the morning in his cell, endeavoring to prepare his mind for the future fate. They also attended him to the scaffold.

On the scaffold, Clark occupied forty-five minutes in reading his speech, in which he firmly asserted his innocence. He endeavored to implicate other parties, and declared that he was entirely ready and willing to die.
