Our Horse Powers and Threshers are, to say the least, equal to any made in the Union ; so that farmers in Sou-thern New-York and Northern Pennsylvania, will find it to their advantage to buy our Machines, on account of saving heavy expense in freights, as well as for their su-notionite. We invite the particular attention of Farmers and Deal-

We can with confidence, recommend these Hay, Straw We can with confidence, recommend these Hay, Straw and stalk Cutters on account of simplicity, durability, strength, efficiency, case of operation, rapid cutting, &c. They do away with the very serious objections heretofore urged by farmers and others, and justly 'too', against all patented feed cutters ; namely—that they are too com-plicated, too many small castings and traps, consequent-ly too liable to get out of repair : that they have too many wearing or friction places, therefore hard to operate. Our feed Cutters have two simple straight knives which can easily be shurpened, or, if ever necessary, can be made by any blacksmith. All are warranted to give sat-isfaction. Ask your merchant to order one for you, and send for our CATALOGUE, which contains additional in-tornation concerning all of the above mentioned machines and many others of our manufacture and sale.
