will not injure it in the least, ank after a few

and stick out their noses, begging to be fed In cold or wet weather watch them carefully, and feed every feeble or half starved lamb with one or more mouthfulls of cow's milk, and at night feed them until they look middling full, which can be seen by the distension of their ribs. This is the Scotch method, and I have seen the most wonderful success from it. Some years ago, when engaged in the business of wool growing in western New-York, I had the largest number of lambs in proportion to the ewes, and the largest and most evenly sized flock, raised by this method, by a Scotchman, that I ever knew. He was passing around among the ewes from morning to night, with a quart vessel, like an oil-can, filled with milk, catching and feeding every needy or suspected lamb, and after giving one mouthful, he would set them on their feet, and look at them to see if they were full enough, and if not, would take another mouthful, and give them more. For a flock, I think of 250, the quantity of milk required was so small, that he supplied it from his own two cows, without asking pay (milk being of little value there), and had enough left for his family. R. B. W

LOOK WELL AFTER THE FARM STOCK .- As the Winter wanes, the farm stock requires all our attention. If they have been well looked after thus far, they are in good condition, of course. In the coldest weather the coarse fodder can be most economically fed out, and the stock will readily eat what, in soft weather, they would reject or but barely taste. We believe in stable or shed feeding, mainly, but on most farms there is always a certain amount of rough fodder that is quite as well to be fed outside in the open yards or in the fields; and it should be done where the ground is either frozen, or covered with snow. Cattle may be even driven out, and fed at field stacks, in some cases to advantage, but not exposed to driving winds, or heavy storms. In such times they should alweys be sheltered, if possible.

Milch-cows should now be looked after, and kept warm and comfortable at night, with pleuty of sweet hay, and warm bedding. Calves. lambs, and colts should be well sheltered, watch ed in their food, to see that each gets its proper share and rations. If you have a weakly one, or an underling that the rest are run ing over 1 ok to it, and separate it from the others, that it may not get poor and weak, and lose its hide before Spring. A few roots nicely cut up, a little oats or meal will revive a pining up, a little oats or meal will revive a pining with pleasure recommend it to the public, as we believe the Grover & Baker to be the best Sewing Machine in Canal Basin of the Barclay Rail Road Co., (the same esthing wonderfully. "Murrain" skins are not use."-Deary Brothers, Allison, Tenn. half so saleable at the tanner's as those from half so saleable at the tanner's as those from "If used expressly for family purposes with ordinary healthy, fatted animals, and the carcasses are care, I will wager they will last one "three score years crows and dogs can be fed cheaper, if "they must live ;"-though "we see no necessity for that." as Samuel Johnson, L. L. D., told the thief who stole his herrings, and answered, as an apology, that he "must live." There is an adage that runs, "Well summered is half wintered," and "Well wintered is half summered." It is a wise saying, which we devoutly believe, and if more farmers practiced upon it there would be a great deal more wealth in the farming world than now.

A STITCH IN TIME. - The lengthening days and melting snows betoken the coming of Spring. Every farmer rejoices in its coming. but is every one ready for it? At the North little or nothing can be done in working the soil, this month, except in the matter of drain-But much preparation can be made for Spring work. Implements of all kinds should now be looked over and put in good repair .-Are the plows in proper condition; and of the harrows are no teeth gone and none loose ?-The manure-forks, shovels, spades, hoes, crow bars, cradles, harness, wagons, chains, are they all at home, under cover, and in complete order How often are tools lent to neighbors, and not returned till called for from necessity, and then are out of order and must be sent to the shop for repair? What a loss, then, of time and patience and neighborly good feeling.

Let us also look into the seed department As grass and clover need an early start, no time should now be wasted in securing good seed. So of wheat and oats, and corn; now is the time to look them over, and provide for sowing and planting. Whoever has not good seed of every kind he expects to use, should spare no pains or money in securing them. It gives the cultivator no little satisfaction and self-respect to know that he has taken time by the fore-lock, and made all needful preparation for his work in advance. For him, as well as for the cultivator no little satisfaction and self-reeverybody, it is a good rule to drive one's business and not be driven by it .- " A stitch in in time saves nine"-often ninety-nine.

SHOEING HORSES THAT OVER-REACH .- "Why not put the front shoes a little further forward and the hind shoes a little further backward?" Plainly, because that will not increase the speed of the fore-feet and retard that of the hinder, which is just what you want to accomplish .-But to do this, make the toe-calks of the forefeet very low, and set the shoe back as far as possible, with high-heel calks. Then, reverse this method upon the hind feet. Thus, the fore feet will be enabled to get out of the way of the hind-feet, and the clicking and loosening of shoes will cease. This will also help the speed of the horse.

It was once remarked in the hearing of a little girl of thirteen, that all things came by chance, and the world, like a mushroom, sprang sprang up in a night. "I should like to know sir." asked the child, "where the said came from ?"

Sewing Machine.

GROVER & BARES'S

CELEBRATED Family Sewing Machines.

NEW STYLES-PRICES \$50 TO \$125 EXTRA CHARGE OF \$5 FOR HEMMERS.

F. B. CHANDLER, AGENT, MONTROSE; J. M. ROBINSON, LAKE-ST., ELMIRA.

THESE MACHINES sew from two spools as purchased from the store, requiring no re-wind-of thread; they Hem, Fell, Gather, and Stich in a grior style, finishing each seam by their own opera-, without recourse to the hand-needle, as is required other machines. They will do better and cheaper ewing than a seamstress, even if she works for one cen in hour, and are, uniquestionably, the best Machines in an hour, and are, unquestionably, the best Machines in the market for family sewing, on account of their simpli-city, durability, ease of management, and adaption to all varieties of family sewing—executing either heavy of fine work with equal facility, and without special adjustment. As evidence of the unquestioned superiority of their Machines, the Grover & Baker Sewing Machine Compa-ny beg leave to respectfully refer to the following TESTIMONIALS.

"Having had one of Grover & Baker's Muchines in my amily for nearly a year and a half. I take pleasure in commending it as every way reliable for the purpose for thich it is designed—Family Sewing."—Mrs. Joshua it can swallow. The milk will strangle it a Leavitt, wife of Rev. Dr. Leavit, Editor of N. Y. Inde

little, and occasion it to struggle some, but this "I confess myself delighted with your Sewing Machin "I contess myself delighted with your sewing Machine, which has been in my family for several months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread." Mrs. Etizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate. feedings, the lambs will huddle around you

"After trying several good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."—Mrs.E. B. Spomer, wife of the Editor of Brooklyn Star.

"I have used a Grover & Baker Machine for two years and I have found it adapted to all kinds of family sewing from Cambric to Broadcloth. Garments have been worn without the giving away of a stitch. The Machine is easily kept in order, and easily used.—Mrs. A. B. Whipeasily kept in order, and easily used.—Mrs. ple, wife of Rev. Geo. Whipple, New York.

"Your Sewing Machine has been in use in my family the past two years, and the ladies request me to give out their testimonials to its perfect adaptness, as well as abor-saving qualities in the performance of family and nousehold sewing.—Robert Boorman, New York. " For several months we have used Grover & Baker's

"ror several months we have used Grover & Baker's Sewing Machine, and have cone to the conclusion that every lady who desires her sewing beautifully and quickly done, would be most fortunate in possessing one of these reliable and indefatigable "from needle-women," whose combined qualities of beauty, strength and simplicity, are invaluable.—J. W. Morris, daughter of Gen. Geo. P. Morris, Editor of the Home Journal. Extract of a letter from Thos. R. Leavitt, an American

gentleman, now resident in Sydney, New South Wales, dated January 12, 1858. "I had a tent made in Melbourne, in 1853, in which

there were over three thousand yards of sewing done with one of Grover & Baker's Machines, and a single seam of that has outstood all the double seams sewed by sailors with a needle and twine." "If Homer could be called up from his murky hades, he

would sing the advent of Grover & Baker as a more benignant miracle of art than was ever Vulcan's smithy. He would denounce midnight shirt-making as "the direful spring of woes unnumbered."—Prof. North. " I take pleasure in saying, that the Grover & Baker

ewing Machines have more than sustained myexpectation. After trying and returning others, I have three of them in peration in my different places, and, after four year's rial, have no fault to find.—J. H. Hummond, Senator of "My wife has had one of Grover & Baker's Sewing

fachines for some time, and I am satisfied it is one of the best labor-saving-machines that has been invented. I ake much pleasure in recommending it to the public."—
I. G. Harris, Governor of Tennessee.

"It is a beautiful thing, and puts everybody into an excitement of good humor. Were I a Catholic. I should insist upon Saints Grover & Baker having an eternal holiday in commemoration of their good deeds for humanity."—Cassins M. Clay. "I think it by far the best patent in use. This Machine can be adapted from the fluest cambric to the heaviest cassimere. It sews stronger, faster, and more beautifully than one can imagine. If mine could not be replaced, money could not buy it."—Mrs. J. G. Brown, Nashville,

"It is speedy, very neat, and durable in its work; is easily understood and kept in repair. I earnestly recommend this Machine to all my acquaintances, and others. — Mrs. M. A. Forrest, Memphis, Tenn.

" We find this Machine to work to our satisfaction, and

good for nothing but crow's or dog's meat; and ten" and never get out of fix." - John Erskine, Nash-"I have had your Machine for several weeks and am

feetly satisfied that the work it does is the best and the antiful that was ever made."—Maggie Aimison, "I use my Machine upon coats, dressmaking, and fine

inen stitching, and the work is admirable-far better than the best hand-sewing, or any other machine lever seen."—Lucy B. Thompson, Nashville, Tenn. "I find the work the strongest and most be untiful I have ever seen, made either by hand or machine, and regard the Grover & Baker Machine as one of the greatest bless-ings to our sex."—Mrs. Taylor, Nashville, Tenn.

"I have one of Grover & Baker's Sewing Machin use in my family, and find it invaluable. I can confiden recommend it to all persons in want of a machine.' G. T. Thompson, Nashville, Tenn.

"I take pleasure in certifying to the utility of the Frover & Baker Sewing Machines. I have used one on al-lost every description of work for months, and I find it such stronger and better in every respect than work done nger and better in every respect than wor - Mrs. D.W. Wheeler, Nashville, Tenn. " I would be unwilling to dispose of my Grover & Baker achine for a large amount, could I not replace it again at pleasure."-Mrs. H. G. Scovel, Nashville, Tenn.

"Our two Machines, purchased from you, do the work of twenty young ladies. We with pleasure recommend the Grover & Baker Sewing Machine to be the best in ase."-N. Stillman & Co., Memphis, Tenn.

"The Grover & Baker Sewing Machine works admira-y. I think the stitch and work far superior to that of by Sewing Machine I ever saw. On fine work. I think e Machine would be hard to be beat."—W. J. Dacie,

"I find the Machine easily managed, very durable, and take pleasure in recommending it to all who wish convenience, economy and pleasure. — Mrs. F. Titus, Mem

The Grover & Baker Sewing Machines have given such satisfaction that we cheerfully recommend them to all who wish a good and substantial Sewing Machine. It executes work with much care and speed, and more finely than any other machine I have seen."—Mrs. R.B. Mitch el, Memphis, Tenn.

"I am happy to give my testimony in favor of Grover& Baker's Sewing Machine, and of the perfect satisfaction it gives in every respect. It sews neatly, and is by no means complicated, and I prefer it to all others I have seen."—Mrs. Bryan, wife of Rev. A. M. Bryan, Memphis,

"It gives me pleasure to find the Grover & Raker Sev ing Machine giving so much satisfaction. I have it in constant use, and find it all that could be desired. It is the most simple and durable machine in use, and I heartily recommend it."—F. M. White, Memphis, Tenn.

" Having seen, examined, and used many other kindof Sewing Machines, I feel free to say that the Grover & Baker Machines are far superior to all others in use."—
M. Francois Seltz, Memphis, Tenn.

"I consider my machine invaluable, and would not take five times its costs, if I could not supply its place With it I can do all my family sewing in about one fourth the time I could with my hands."—M. J. Scott, Nashville

Miscellancous."

The World Challenged! Excelsior Churn The

Patented by SILAS HEWITT, July 14, 1857. Patented by SILAS HEWITT, July 14, 1857.

THIS CHURN is the result of years of experience by a practical farmer, to produce a Churn that has all the advantages of the old Dash Churn, and be a labor-saving Machine. We claim for this Churn, and are prepared to prove by actual demonstration, that it will produce more butter—a better quality—with less time and less labor—than any other Churn in market. It is perfectly simple in its construction, not liable to get out of order, and a child can operate on it. It has been thoroughly tested by several hundred farmers in Seneca and adjoining Counties, and its merits fully established wherever introduced, and is pronounced by all to be one of the greatest improvements of the age.

23 The following extract from the Seneca Falls papers

ments of the age.

**Beronounced by an observed the greatest improvements of the age.

**Beronounced by an observed the greatest improvements of May 26th, is a sample of what the "EXCELSIOR CHURN" has done, in competition with other Churns:

"A trial between the Smith Churn, of Elgiu, Illinois, which took the first premium at the State Fair at Buffalo last fall, and has taken the premium at all the Fairs where it has been exhibited) and the Excelsior Churn, of this village, took place at Woodmansee's Hotel, the 20th inst. The cream was taken from the same freessel, after being stirred up that it might be of the same temperature and quality—one quart at a time—each Churn receiving two gallons. The Excelsior Churn p oduced and gathered the Butter hard and yellow in six and a half minutes, while the Smith Churn was 12 minutes in producing the Butter, which was soft, white and oily; and Excelsior Churn produced Twelve Ounces more Butter than the Smith Churn. The Excelsior Churn then produced thirteen ounces of good Butter from the Butter Milk of the Smith Churn, being more than half as much as they got teen ounces of good Butter from the Butter Milk of the Smith Churn, being more than half as much as they got from the cream! The Smith Churn could not produce any Butter from the buttermilk of the Excelsior Churn.'

Trial of Churns—Report of the Committee.

At the trial between Smith's Churn, from Elgin, Illinois, and Hewitt's Excelsior Churn, manufactured in this village, which took place at Woodmansee's Hotel, on Wednesday morning, the following was the result of the trial: Hewit's Churn, 2½ lbs.—Butter in 6½ minutes.

Smith's Churn, 1½ lbs.—Butter in 12 minutes.

About two gallons of Cream was put in each Churn. The milk from Smith's Churn was then changed to Hewit's, and thirteen ounces of Butter extracted from it. No Butter could be brought from the milk from the Hewit Churn, which was transferred to Smith's. The quality of

Butter could be brought from the milk from the Hewit Churn, which was transferred to Smith's. The quality of Butter from Hewit's Churn was much the best, being of better color, and more solid. A second trial, which was about one-third more cream was put in the Hewit Churn than in the other, resulted nearly the same as above, Hewit's Churn being

very nearly the same as above, Hewit's Churn being shown to be greatly the superior.

EDWARD S. LATHAM., Committee.

Seneca Palls, May 29, 1858.

All that is asked for this Churn is, to let it rest on its own merits—the world is challenged to produce better.

For particulars for Rights of Churns, address:

H. F. BURT, Ridgbury, Bradford County, Pa.
February 2, 1858.

The Great Atlantic Telegraph! M. E. SOLOMON'S **CLOTHING EMPORIUM**

Prices from \$8 to \$20, according to finish REPAIRING done as usual in a neat and workmanlike manner and warranted.

N. B. The person flast fook a Breast Pin from my shop, July 3d, to show to his wife, had better call and see me in regard to the matter, perhaps it will save him some coast and trouble.

Towanda, Nov. 24, 1858. JEWELRY! JEWELRY! JEWELRY

A. M. Warner's New & Splendid Jewelry Store, one door north

of Pattons Drug Store,

HAS just been opened with the largest and most choice stock of FASHIONABLE JEWELRY ever offered to a discriminating public. Indeed, he can safely say that with the opening of his new store has been in augurated a new era in the Jewelry line, in ammuch as along with the choice and elegant assortment he gives the most reliable assurance of an almost incredible reduction in prices; the rich and tasteful articles having been all bought with ready cash.

A. M. W., when he reflects how, for the past years, with a far less attractive stock, he has enjoyed so large a share of public patronage, flatters himself that the immense in crease of Goods he now offers, which have been boughtso much more advantageously, will enable him to increase the generous confidence which has hitherto been vouch safed to him. He therefore solicits a continuance of the favor of his old customers, and invites the public generally to come and see the fashions.

**THE WATCH REPAIRING DEPARTMENT will continue to be distinguished by the skill and despatch which has heretofore enabled it to enjoy the enviable re-
