Cultivation of Buckwheat.

It has been said that buckwheat occupies the same position among grains as the donkey does among animals—useful but not popular It will grow on the poorest of sandy soils can be sown later than any other grain; and is one of the best crops for cleaning the land and for killing wireworms and other injurious grubs. It has been extensively used for plowing in as a manure. But though it has proved beneficial for this purpose, it is not as good as many other crops that might be used -- such as white lupiu, spurry, red clover, &c.

In clearing off poor and hilly land, buck-wheat is admirable for the first crop. We have seen excellent crops on such land in New England, where apparently no other crop would thrive. On such land, however, it is exceedingly grateful for manure. On the farm of Mr. HENRY SABIN, of Lee, Mass., we saw a crop of buckwheat on a rough hill-side, where half the field had been top dressed with 100 lbs. of Peruvian guano per acre; and on this half the crop was at least double what it was on the other half, where no gnano was used. An experienced farmer says, "barn-yard manure, whether green or rotted, ashes, lime, and plaster, all seem to produce a wonderful effect when applied to this crop."

Buckwheat is often sown too early. When to early, the hot sun is apt to blast the flowers The middle of June, in this section, is considered the best time to sow; though, in New England, good crops are often obtained when sown as late as 4th of July. In sections where there is danger of frosty nights early in the fall, it must be sown early, as a slight frost often destroys the crop. We must endeavor to steer between the two dangers-blasting of the flowers in the summer, when sown early and the destruction of the erop by frost in the fall, when sown late. It succeeds well sown on clover or grass sod. Formerly, it was considered best to break up the land in the spring and cultivate and harrow it a few times before sowing; but latterly the practice is to pasture the land, and break up immediately before sowing. From three pecks to a bushel is the usual quantity of seed.

Of the uses of buckwheat, we need not speak Everybody likes buckwheat cakes on a cold winter's morning. It is good food for pultry Hogs thrive upon and are fond of it. When crushed, it is good feed for horses-more nutritious, it is said, than oats. It is good for milch cows, increasing the quantity and richness of the milk. Bees will travel considerable distance to find a field of buckwheat in flower, though it is said the honey is not as good as from clover, &c.

STOP THE SUCKER .- Good cows, many times are in the habit of sucking themselves, and many ways are tried in vain to prevent the mischief; and young calves are always in the habit of sucking each other's ears. This may be prevented by a composition of spirits of turpentine, musk, and asafætida. Heat them all well together, and when cool, give the cow a large spoonful on the roots of the tongue : then rub a little on the cow's bag, about the roots of the teats. If the cow still continues in the habit, cut off the fingers of an old glove slip these over the teats, and saturate them well. They may be taken off when you want Always give your patient a good taste of the medicine before you rub it on .-Calves may be treated in the same manner .-If musk is not convenient, the composition may be made of spirits of turpentine and asafætida —A. L. Sмітн.

PLANTING POTATOES WITH CORN.-Last year I told you if my planting potatoes among corn and with what success, that being the second year. I am now to relate my third year's trial, this being with the Mercer, which have always been with me, more subject to the rot than any other kind I have raised. I digging them last fall, I found enough to prove that they were not wholly exempt from the disease, still there were far less than among those planted alone. The yield was not as good as by themselves, while I believe the corn was full as good in both quantity and quality, as if there bad no potatoes there. My method is to fit the ground for corn, mark for rows one way, and plant across the marks. This gives rows both ways. I then plant a hill of petatoes in every space between each two hills of corn. This leaves the crop so as to be cultivated only one way, which may be repeated as may be required .- D., Gates.

TEST SEED CORN BEFORE PLANTING .- Oft-re peated suggestions for saving and keeping seed corn have been given in this journal. But whether these have been followed or not, it is well to make a preliminary test of core, and of all other seeds which sometimes fail to vegetate. This is easily done. Select from the mass enough to be a fair sample, and plant in a warm situation, or in a box of earth, kept suitable warm and moist. An examination of the specimens, even before coming up, will show whether they are in a sprouting condition. Better far to do this, than to make similar experiment on a five or ten acre field, and only earn of a bad result when too late to be remedied .- Am. Agricul.

LIMA BEANS .- We see that some of our brethren of the press are recommending the pinching off of Lima beans when six feet high instead of permitting the vines to run around poles of fifteen feet. This is an excellent practice, and was first suggested by ourselves, which seems to be forgotten by those who then repudiated and now adopt it. Such treatment causes the vine to grow to a much larger crop of fine fruit, and to perfect the beans before frost, instead of continuing to bear indefinitely and to perfect but few. This an excellent crop when so managed and always profitable. It only requires full fertilization and though disintegration of the soil to raise a pint or more of public patronage, flatters himself that the immense inof Lima beans per pole, and with such a crop sold at six dollars per bushel in the dry state, the yield will equal \$400 or more per acre in value .- Working Farmer.

MULCHING is one of the best means of preleaves will be on the gooseberry, and it is the mildew on grapes. Here in checking readers tried it? It so, we should be glad to hear from them.

Sewing Machine.

GROVER & BAHER'S

Family Sewing Machines. NEW STYLES-PRICES \$50 TO \$125 EXTRA CHARGE OF \$5 FOR HEMMERS.

F. B. CHANDLER, AGENT, MONTROSE; J. M. ROBINSON, LAKE-ST., ELMIRA.

THESE MACHINES sew from two spools, THESE MACHINES sew from two spools, as purchased from the store, requiring no re-winding of thread; they Hem, Fell, Gather, and Stich in a superior style, finishing each seam by their own operation, without recourse to the hand-needle, as is required by other machines. They will do better and cheaper sewing than a seamstress, even if she works for one cent an hour, and are, unquestionably, the best Machines in the market for family sewing, on account of their simplicity, durability, ease of management, and adaption to all varieties of family sewing—executing either heavy or fine work with equal facility, and without special adjustment. As evidence of the unquestioned superiority of their Machines, the Grover & Baker Sewing Machine Company beg leave to respectfully refer to the following

TESTIMONIALS. " Having had one of Grover & Baker's Machines in my family for nearly a year and a half, I take pleasure in commending it as every way reliable for the purpose for which it is designed—Family Sewing."—Mrs. Joshua Leavitt, wife of Rev. Dr. Leavit, Editor of N. Y. Independent.

"I confess myself delighted with your Sewing Machine, "I contess myself deligated with your Sewing Machine, which has been in my family for several months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."—Mrs. Elizabeth Strickland, vife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate.

"After trying several good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recompetent for every variety of family saying." Mee B. B. mend it for every variety of family sewing."—Mrs.E. B. Spooner, wife of the Editor of Brooklyn Star. " I have used a Grover & Baker Machine for two year

and I have found it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn without the giving away of a stitch. The Machine is easily kept in order, and easily used.—Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York.

"Your Sewing Machine has been in use in my family the past two years, and the ladies request me to give you their testimonials to its perfect adaptness, as well as labor-saving qualities in the performance of family and household sewing.—Robert Boorman, New York.

" For several months we have used Grover & Baker's "For several months we have used Grover & Baker's Sewing Machine, and have come to the conclusion that every lady who desires her sewing beautifully and quickly done, would be most fortunate in possessing one of these reliable and indefatigable "iron needle-women," whose combined qualities of beauty, strength and simplicity, are invaluable.—J. W. Morris, daughter of Gen. Geo. P. Morris, Editor of the Home Journal.

Extract of a letter from Thos. R. Leavitt, an American centleman, now resident in Sydney, New South Wales, lated January 12, 1858: "I had a tent made in Melbourne, in 1853, in which

there were over three thousand yards of sewing done with one of Grover & Baker's Machines, and a single seam of that has outstood all the double seams sewed by sailors with a needle and twine." "If Homer could be called up from his murky hades,he would sing the advent of Grover & Baker as a more benignant miracle of art than was ever Vulcan's smithy. He would denounce midnight shirt-making as "the dire-

ful spring of woes unnumbered."--Prof. North. "I take pleasure in saying, that the Grover & Baker SewingMachines have more than sustained myexpectation. After trying and returning others, I have three of them in operation in my different places, and, after four year's trial, have no fault to find.—J. H. Hammond, Senator of

"My wife has had one of Grover & Baker's Sewing Machines for some time, and I am satisfied it is one of the best labor saving machines that has been invented. take much pleasure in recommending it to the public. J. G. Harris, Governor of Tennessee.

"It is a beautiful thing, and puts everybody into an xeitement of good humor. Were I a Catholic. I should sist upon Saints Grover & Baker having an eternal holiday in commemoration of their good deeds for humani-ty."—Cassins M. Clay.

"I think it by far the best patent in use. This Machine can be adapted from the finest cambric to the heaviest cassimere. It sews stronger, faster, and more beautifully than one can imagine. If mine could not be replaced, money could not buy it."—Mrs. J. G. Brown, Nashville, Tenn. "It is speedy, very neat, and durable in its work; is easily understood and kept in repair. I earnestly recommend this Machine to all my acquaintances, and others."—
Mrs. M. A. Forrest, Memphis, Tenn.

"We find this Machine to work to our satisfaction, and work warranted to be p with pleasure recommend it to the public, as we believe the Grover & Baker to be the best Sewing Machine in use."—Deary Brothers, Allison, Tenn.

"If used expressly for family purposes with ordinary care, 1 will wager they will last one "three score years and ten," and never get out of fix."—John Erskine, Nash-

"I have had your Machine for several weeks, and am perfectly satisfied that the work it does is the best and most beautiful that was ever made."—Maggie Aimison,

Nashville, Tenn.

"I use my Machine upon coats, dressmaking, and fine linen stitching, and the work is admirable—far better than the best hand-sewing, or any other machine I have ever seen."—Lucy B. Thompson, Nashville, Tenn. " I find the work the strongest and most beautiful I have

ever seen, made either by hand or machine, and regard the Grover & Baker Machine as one of the greatest bless-ings to our sex."—Mrs. Taylor, Nashville, Tenn. "I have one of Grover & Baker's Sewing Machines in use in my family, and find it invaluable. I can confidently recommend it to all persons in want of a machine."—
G. T. Thompson, Nashville, Tenn.

"I take pleasure in certifying to the utility of the Grover & Baker Sewing Machines. I have used one on al-most every description of work for mouths, and I find it

much stronger and better in every respect than work done by hand."—Mrs. D.W. Wheeler, Nashville, Tenn. "I would be unwilling to dispose of my Grover & Baker Machine for a large amount, could I not replace it again at pleasure."—Mrs. H. G. Scovel, Nashville, Tenn. " Our two Machines, purchased from you, do the work

of twenty young ladies. We with pleasure recomment the Grover & Baker Sewing Machine to be the best is use."—N. Stillman & Co., Memphis, Tenn. "The Grover & Baker Sewing Machine works admirably. I think the stitch and work far superior to that of any Sewing Machine I ever saw. On fine work, I think the Machine would be hard to be beat."—W. J. Davie, Memphis, T nn.

"I find the Machine easily managed, very durable, and take pleasure in recommending it to all who wish convenience, economy and pleasure."—Mrs. F. Titus, Memphis, Tenn.

Pictures with Cases, 25 per cent.
Frames of all kinds kept on hand also at reduced prices. Good Cases with Melainotypes, 75 cents; all other kinds in proportion. Rooms open at all hours. Pictures taken in all kinds of weather (except for children.) All work warranted.

"The Grover & Baker Sewing Machines have given such satisfaction that we cheerfully recommend them to all who wish a good and substantial Sewing Machine. It executes work with much care and speed, and more finely than any other machine I have seen."—Mrs. R.B. Mitchwork warranted.

"I am happy to give my testimony in favor of Grover& Baker's Sewing Machine, and of the perfect satisfaction it Baker's Sewing Machine, and of the perfect satisfaction it gives in every respect. It sews neatly, and is by no means complicated, and I prefer it to all others I have seen."—

Mrs. Bryan, wife of Rev. A. M. Bryan, Memphis,

"It affords me much pleasure to say that the Machine works well; and I do not hesitate to recommend it as possessing all the advantages you claim for it. My wife is much pleased with it, and we take pleasure to certify to this effect."—R. C. Brinkley, Memphis, Tenn. "It gives me pleasure to find the Grover & Baker Sewing Machine giving so much satisfaction. I have it in constant use, and find it all that could be desired. It is the most simple and durable machine in use, and I heartily recommend it."—F. M. White, Memphis, Tenn.

"Having seen, examined, and used many other kinds of Sewing Machines, I feel free to say that the Grover & Baker Machines are far superior to all others in use."

M. Francois Seltz, Memphis, Tenn.

"I consider my machine invaluable, and would not take five times its costs, if I could not supply its place. With it I can do all my family sewing in about one fourth the time I could with my hands."—M. J. Scott, Nashville, Tenn.

Raymond's Latest Improved. DOUBLE-THREADED

FAMILY SEWING MACHINE

THESE MACHINES AFTER ONE
year of constant use, have been pronounced the best
Machines in the world, and have been used entensively in
the cities of St. Louis, Mo., Cincinatti, O., and Chicago,
Ill., among the first families, and are preferred to the high
er priced Machines.

They will Stitch, Hem, Tuck, Fell, Gather, and Embroider, with perfect satisfaction, and especially adapted
to family use.

They will sew all kinds of goods, from the finest to the
coarsest, better than any Machines now extant.

The following are the advantages they possess over all
other Machines.

1st. Any person of ordinary intelligence, can in one
hour, learn to use them successfully.

2nd. They are simple, strong and durable, easily understood and managed, and not liable to get out of order.

3rd. They use cotton from the ordinary spool without
rewinding.

4th. The stitch is stronger and more difficult to it.

5th. They sew with cotton, linen and silk thread equal.

y well.

6th. They finish their work. There is no occasion to fasten the thread at either end of the seam, as is required by other shuttle stitching machines.

7th. Every Machine is made to run by hand or foot power, thus combining the advantages of both methods. All persons des rous of purchasing the best and cheapest Machine ever invented for family use, will have an opportunity after the 1st of June, by addressing or calling on the subscriber.

July 30, 1858.

WE would respectfully announce to our friends and the public generally, that we have connected with our Printing Office and Book & Stationery Store, a Plain and Fancy BOOK-BINDERY, and earnestly solicit the patronage of all who desire anything in the line.

Having secured the services of one of the best binders in the United States, we flatter ourselves that we can give universal satisfaction both in workmanship and price.—Therefore we present to the public the strongest assurances that we are prepared to bind in a workmanlike manner, all kinds of BOOKS, among which we may name Bibles, Histories, Music, Magazines, Pamphlets, Periodicals, Law and School Books, to order or pattern in

French, Italian, German and English style; in Velvet, Silk, Cloth, Leather and Paper.

Plain and Fancy Paper Boxes made to order.

DOUGLAS ELECTED!

THE MAN that makes the TIN AND SHEET IRON WARE at the EAGLE WORKS, is supposed by his admiring friends to be the best looking man, and the best workman in Tin and Sheet iron of any man in this region of country. Tin Ware made by him is warranted not to leak sand. He is always on hand, like a thousand of brick, to make work to order, or do HOUNE JOBBING, as Eave Troughs, Conductors and Roofing, or to exhibit a large Troughs, Conductors and Roofing, or to exhibit a large

For cooking with Coal or Wood, or Parior, Office or Shop Stoves made at the above works. But if you wish to give orders for CASTING OR MACHINE WORK, call at the orders for CASTING OR MACHINE WORK, call as other end of the same establishment where you can procure anything you want in the line of AGRICULTURAL IMPLEMENTS with late improvements, such as Plows, Cultivators, Corn Shellers, Cutting Boxes, Horse and Dog Powers, &c., or any kind of Casting in Brass, Iron and Composition; or Machine Work and Repairing in a neat and workmanlike manner. CASH paid for Old Pewter or Brittania.

O. D. BARTLETT.

RESPECTFULLY informs his former customers and the public generally, that he has removed his

TAILOR'S SHOP,

To one door south of Tracy & Moore's store and immediately opposite D. C. Hall's Stove and Tin Store Mainst.

He flatters himself that from his long experience in business he will be able to please all who may favor him with their custom. Owing to the low pressure in the money market, he will make Coats from \$2.50 to \$4.50 each and other work in proportion for READY PAY.

Country Produce in payment, will not be refused, if flered.

Towanda, March 20, 1858.

are the stronger and more difficult to rip than any other made by Machinery. The two threads are double-looped into each other, and firmly tied and knot ted at every stitch, which is the best and most elastic titch are made.
