farmer's Department.

How to Hos Corn. To the Editor of the American Agriculturist

When I was a boy, and first went nito the field to hoe corn, I was quite puzzled to know: what my father meant, when he directed us to be sure and "hoe where the corn wasn't." But after following him a few days, and noticing the pairs he took to have all the ground between the hills well stirred, as well as the weeds cut up, and particularly when I saw how careful he was, not to disturb the ground deeply very near the young plants, I understood his meaning. In a long acquaintance with corn I have observed enough to make me think he was right. The weeds must be cut up root and branch to have good corn, that's certain, and the ground must be kept loose enough to let the heat get in, and the moisture pass up from below, and to allow the spreading roots to make their way easily through the soil in their search for good picking. But I've seen a good many slash away with the hoe close around the stalk, when every cut there, if two inches below the surface, must have broken quite a number of the growing roots. It certainly can not be of much use to feed corn well if you then go to work and cut off its mouths, for the root are mouths to the plant. So I always cultivate lightly where the roots have extended, which is about the length that the stalk has reached above the ground, and when the corn is up breast high, I wouldn't let a man go through the field with a plow, if he'd pay wages for doing it and find himself. I do not believe i 1 hilling corn ; making the field look like a crop of young flag-staffs" planted on small pinnacles. The stalk has grown up into the air where it was intended to stay, and it isn't natural to partially bury it alive. People do it, to prop it up, so that the wind will not level it. But if it be let alone, it will do its own propping, by sending forth extra roots just above the surface, which go out and anchor it all around I have seen a field that was hilled, laid flat by a storm, while the next one to it, that grev naturally, stood up after the blow, as straight as a militia captain on training-day. When corn is hilled, it will try to send out a second growth of supporting roots, but neither the first nor the second growth will then become strong enough to be of much use. I therefore try to leave my ground nearly level, and thus also save the roots the trouble of diving down again, to get below the gullies which are sometimes left after the first plowing. JONATHAN.

LOOK OUT FOR THE INSECTS .- Owing to the decrease of birds, and perhaps to other causes insects are now alarmingly on the increase .--Their mischief is usually discovered too late to do more than prevent the possibility of their multiplying, by picking up and feeding out, or cooking the punctured fruit, and thus destroying the worm lodged in the heart. This is a tedious operation however, and hardly practicable with peaches, plums and cherries.

The parents of all these mischievous worms are winged insects, which flutter about among the trees, and lay their eggs either upon the surface of the tender fruit, or puncture it and deposit the eggs beneath the skin. Again most of these winged insects, or millers, are either naturally night flyers, or can be brought out by a strong light. Now, every one has observed that millers are so attracted by light as to fly directly into the flame of a candle. It is well to take advantage of this weakness, and kindle low fires about the orchard and fruit gardens in the evening, and thus catch the trespassers. The early part of June is the proper season to commence this war of extermination, which, if vigorously entered into by a neighborhood. would destroy vast quantities of them in the very act of providing for their progeny .--Remember, too, that with every parent moth, from fifty to one hund.ed little white maggots

THE subscriber continues to carry on the Foundry business in Towanda, and is prepared to do all kinds of work in his line on short notice and in a workmanlike manner. He will keep on hand or make to order Plows, Stoves, Mill Irons, Sleigh Shocs, Wagon-Boxes, and any article of cast iron that may be required. Turning and fitting up work will be done on short notice and on reasonable terms. Persons wishing to purchase Stoves of any kind will find it much to their advantage to buy at the Foundry, as they can be repaired much cheaper. Please call and examine before purchasing else-where. Old cast iron and Grain taken in payment.— Don't mistake the place—one door east of Mercur's Block. BF I would also say to those having accounts stand-ing over six months, that they must be settled without delay, and those having notes that are due will do well to pay up and save cost. DOHN CARMAN. Sewing Machine.

GROVER & BARER'S CELEBRATED

Family Sewing Machines. NEW STYLES-PRICES \$50 TO \$125. EXTRA CHARGE OF \$5 FOR HEMMERS.

F. B. CHANDLER, Agent, MONTBOSE ; J. M. ROBINSON, LAKE-ST., ELMIRA.

THESE MACHINES sew from two spools

THESE MACHINES sew from two spools, as purchased from the store, requiring no re-wind-ing of thread; they Hem, Fell, Gather, and Stich in a superior style, finishing each seam by their own opera-tion, without recourse to the hand-needle, as is required by other machines. They will do better and cheaper sewing than a seamstress, even if she works for one cent an hour, and are, unquestionably, the best Machines in the market for family sewing, on account of their simpli-city, durability, ease of management, and adaption to all varieties of family sewing—executing either heavy or fine work with equal facility, and without special adjustment. As evidence of the unquestioned superiority of their Machines, the Grover & Baker Sewing Machine Compa-ny beg leave to respectfully refer to the following TESTIMONIALS.

TESTIMONIALS.

"Having had one of Grover & Baker's Mnchines in my family for nearly a year and a half, I take pleasure in commending it as every way reliable for the purpose for which it is designed-Family Sewing." *Mrs. Joshua Leavitt, wife of Rev. Dr. Leavit, Editor of N. Y. Inde*pendent.

"I confess myself delighted with your Sewing Machine, which has been in my family for several months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."—Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate.

"After trying several good machines, 1 preferred yours, on account of its simplicity, and the perfect ease with which it is managed as well as the strength and du-rability of the seam. After long experience, I feel com-petent to speak in this manner, and to confidently recom-mend it for every variety of family sewing."—Mrs.E. B. Spooner, wife of the Editor of Brooklyn Star.

" I have used a Grover & Baker Machine for two years, and I have found it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn without the giving away of a stitch. The Machine is easily kept in order, and easily used.—Mrs. A. B. Whip-ple, wife of Rev. Geo. Whipple, New York.

"Your Sewing Machine has been in use in my family the past two years, and the ladies request me to give you their testimonials to its perfect adaptness, as well as labor-saving qualities in the performance of family and household sewing.—Robert Boorman, New York.

"For several months we have used Grover & Baker's Sewing Machine, and have come to the conclusion that every lady who desires her sewing beantifully and quickly done, would be most fortunate in possessing one of these reliable and indefatigable "iron needle-women," whose

combined qualities of beauty, strength and simplicity are invaluable.—J. W. Morris, daughter of Gen. Geo P. Morris, Editor of the Home Journal.

Extract of a letter from Thos. R. Leavitt, an American gentleman, now resident in Sydney, New South Wales, dated January 12, 1858 : "I had a tent made in Melbourne, in 1853, in which there were over three thousand yards of sewing done with one of Grover & Baker's Machines, and a single seam of that has outstood all the double seams sewed by sailors with a needle and twine."

" If Homer could be called up from his murky hades, he would sing the advent of Grover & Baker as a more be-nignant miracle of art than was ever Vulcan's smithy. He would denounce midnight shirt making as " the direful spring of woes unnumbered."-Prof. North.

"I take pleasure in saying, that the Grover & Baker SewingMachines have more than sustained myexpectation. After trying and returning others, I have three of them in operation in my different places, and, after four year's trial, have no fault to find.—J. H. Hammond, Senator of South Carolina.

"My wife has had one of Grover & Baker's Sewing Machines for some time, and I am satisfied it is one of the best labor-saving-machines that has been invented. take much pleasure in recommending it to the public." J. G. Harris, Governor of Tennessee.

" It is a beautiful thing, and puts everybody into an excitement of good humor. Were I a Catholic. I should asist upon Saints Grover & Baker having an eternal hoday in commemoration of their good deeds for human ."—Cassias M. Clay.

" I think it by far the best patent in use. This Machine can be adapted from the finest cambric to the heaviest cassimere. It sews stronger, faster, and more beautifully than one can imagine. If mine could not be replaced, than one can imagine. If mine could not be replaced, money could not buy it."-Mrs. J. G. Brown, Mashville, Tenn.

" It is speedy, very neat, and durable in its work ; i easily understood and kept in repair. I earnestly recommend this Machine to all my acquaintances, and others."-Mrs. M. A. Forrest, Memphis, Tenn.

"We find this Machine to work to our satisfaction, and

with pleasure recommend it to the public, as we believe the Grover & Baker to be the best Sewing Machine in use."—Deary Brothers, Allison, Tenn.

"If used] expressly for family purposes with ordinary care, 1 will wager they will last one " three score years and ten." and never get out of fix."—John Erskine, Nash-ville, Tenn. for The attention of the public is requested to the very general ind excellent assortment always on hand at the Argus Book and Stationery Store first huilding north of chasing elsewhere. A large quantity of Tin ware, Stove Pipe and Elbows always on hand, wholesale and retail. All kinds of Job Work done to order, on short notice and warranted. Don't mistake the place to buy STOVES and HARD-WARE cheap—one door South of Tracy & Moore's, and Powell's new block on Main street, in the new Wood Building, lettered all over. the Ward House. Call and examine our stock. " I have had your Machine for several weeks, and am perfectly satisfied that the work it does is the best and most beautiful that was ever made."-Maggie Aimison, EAGLE FOUNDRY! Nashville. Tenn. AND "I use my Machine upon coats, dressmaking, and fine linen stitching, and the work is admirable—far better than the best hand-sewing, or any other machine I have ever seen."—Lucy B. Thompson, Nashville, Tenn. Building, lettered all over. Grain and Country Produce, old Iron, Brass, Brittania and Copper, Dried Fruit of all kinds, Feathers and Bees-wax wanted for goods. 10,000 Sheep Pelts wanted, for which the highest price MACHINE SHOP ! HE Subscriber having purchased the above " I find the work the strongest and most beautiful I have THE SUBSCIPCE having purchased the above works, situated at the lower end of town, near the Canal Basin of the Barclay Rail Road Co., (the same es-tablishment formerly carried on by Lamoreux, Hall & Russell.) and having employed a competent set of work-men, is now prepared to execute orders for Castings or Machinery of almost any kind. He also manufactures a variety of Cook, Parlor and Office stoves. He respect-fullys olicits a share of public patronage. Towanda, Sept. 8, 1858. O. D. BARTLETT. ever seen, made either by hand or machine, and regard the Grover & Baker Machine as one of the greatest bless-ings to our sex."—Mrs. Taylor, Nashville, Tenn. CASH will be paid. So No credit given over four months, and all hav-ing accounts or notes over due had better call and pay mmediately, if they wish to save cost. Towanda, October 13, 1858. "I have one of Grover & Baker's Sewing Machines i use in my family, and find it invaluable. I can confidentl recommend it to all persons in want of a machine." ______ G. T. Thompson, Nashville, Tenn. H. A. BURBANK'S BAKERY One Door North of the Ward House.

Miscellancous.

Raymond's Latest Improved,

DOUBLE-THREADED FAMILY SEWING MACHINE

THESE MACHINES AFTER ONE year of constant use, have been pronounced the best Machines in the world, and have been used entensively in the cities of St. Louis, Mo., Cincinatti, O., and Chicago, Ill., among the first families, and are preferred to the high er priced Machines. They will Stitch, Hem, Tuck, Fell, Gather, and Em-broider, with perfect satisfaction, and especially adapted to family use. They will sew all kinds of goods, from the finest to the coarsest, better than any Machines now extant. The following are the advantages they possess over all other Machines.

other Machines. Ist. Any person of ordinary intelligence, can in one hour, learn to use them successfully. 2nd. They are simple, strong and durable, easily under-stood and managed, and not liable to get out of order. 3rd. They use cotton from the ordinary spool without

rewinding. 4th. The stitch is stronger and more difficult to rip than any other made by Machinery. The two threads are double-looped into each other, and firmly tied and knot-ted at every stitch, which is the best and most elastic stitch ever made. 5th. They sew with cotton, linen and silk thread equal-

ly well. 6th. They finish their work. There is no occasion to fasten the thread at either end of the seam, as is required fasten the churtle stitching machines.

fasten the thread at either end of the scam, as is required by other shuttle stitching machines. 7th. Every Machine is made to run by hand or foot power, thus combining the advantages of both methods. All persons des rous of purchasing the best and cheap-est Machine ever invented for family use, will have an op-portunity after the 1st of June, by addressing or calling on the subscriber, B. F. SHAW, Ulster, Bradford County, Pa., N. B. These Machines are warranted, and any person purchasing them can return them and get their money, if after one month's trial, do they not give satisfaction. May 3, 1859.

MYER'S MILLS.

THE undersigned having purchased the above well known mills and attached to it a Steam Engine, and also put every thing connected with it in perfect repair, with all the modern improvements now in use in first class Flouring Mills-would respectfully solicit the pa-tronage of the community-trusting that the reputation the mill has heretofore borne may not suffer in the hands of the new firm. It shall be our aim to do all work em-trusted to us promptly and in the best possible m nner. Customers from a distance may rely upon having their work done at once, so as to make but one trip "t to mill." Mr. FROST will continue to give his own personal at-tention to the business at the mill. CASH paid for all kinds of GRAIN ; also Flour. Meal and Feed for sale at the lowest market prices. MYER, FROST & CO. ISAAC MYER.

are destroyed. Follow this practice up night after night, for two weeks, and an immense number of insects will be cut off. Tie old rags upon short sticks, and dip them first into tar, and then in saw-dust or powdered charcoal, until of a large size. These will burn with a bright light for a long time, dazzling and attracting the unlucky moths or millers from some distance around.

NOT TOO LATE TO PLANT CORN .- The prospect of better prices for farm produce should cad every one to get in all the crops possible the present year. It is by no means too late to plant corn during the first week in June ---Some good farmers purposely delay their principal corn planting until the last of May or the first of June. Their experience has taught them that, as a general rule, corn planted June 1st is as forward by the end of July, as that planted May 10th. They say, that when planted late, the ground is warm and quickly germinates the seed, and starts it at once into vigorous growth, and that it will soon overtake and go ahead of the early planted. They also argue that one hoeing is saved by the late working of the soil previous to planting, as a large number of weeds which have started, are then killed. This year it is safe to act upon this theory, where there is a spare plot that may be used. The quick growing varieties, like the King Philip, are most desirable for late planting, and for filling up vacant spots in that already above ground. Of course, it will not do to mix in the different varieties where pure seed is to be gathered.

WASH FOR FRUIT TREES .- We would remind our readers again of the soda wash for fruit trees, which we have so often recommended. This is the time of year for the application .--Heat sal soda to redness so as to drive out the water of crystalization and carbonic acid ; then dissolve the caustic soda in water at the rate of one pound to the gallon, and apply it when cold to the trunks and larger branches of fruit trees. It will destroy cocoons and ova of ininsects, mosses of all kinds, decompose dead bark, and present a fine glossy surface not likely to be attacked by insects. Unlike potash it does not destroy any living portion of the plant, while it decomposes the dead portion more readily .- Working Farmer.

ASHES FOR POTATOES. -Rufus Brown, of Chelsea, Orange county, Vt., says that in an experiment tried by him, the grain in a crop of potatoes by use of ashes, at the rate of a teacupfull to the hill, was about a bushel and a half of potatoes for each bushel of ashes used. The kind of potatoes was the " English pink-eye." and yield 200 bushels per acre .--The ground was planted May 7, with the ashes in holes, and a little dirt over them, It was plowed and hoed June 18, the rows being four feet apart and the hills three feet. The ashes cost 12 1-2 cents a bushel, and potatoes sold at 35 cents, returning fall 50 cents a Lashel for the ashes employed.

"I take pleasure in certifying to the utility of the Grover & Baker Sewing Machines. 1 have used one on al-most every description of work for months, and I find it much stronger and better in every respect than work done by hand."-Mrs. D.W. Wheeler, Nashville, Tenn.

"I would be unwilling to dispose of my Grover & Baker Machine for a large amount, could I not replace it again at pleasure."-Mrs. H. G. Scovel, Nashville, Tenn.

" Our two Machines, purchased from you, do the work of twenty young ladies. We with pleasure recomment the Grover & Baker Sewing Machine to be the best use."-N. Stillman & Co., Memphis, Tenn.

" The Grover & Baker Sewing Machine works admirably. I think the stitch and work far superior to that of any Sewing Machine I ever saw. On fine work, I think the Machine would be hard to be beat."-W. J. Davie, Memphis, T nn.

"I find the Machine easily managed, very durable, and take pleasure in recommending it to all who wish conve-nience, economy and pleasure."-Mrs. F. Titus, Memphis, Tenn.

"The Grover & Baker Sewing Machines have given such satisfaction that we cheerfully recommend them to all who wish a good and substantial Sewing Machine. It executes work with much care and speed, and more finely than any other machine I have seen."—Mrs. R.B. Mitch-el, Memphis, Tenn.

" I am happy to give my testimony in favor of Grover& Baker's Sewing Machine, and of the perfect satisfaction it gives in every respect. It sews neatly, and is by no means complicated, and I prefer it to all others I have seen."— Mrs. Bryan, wife of Rev. A. M. Bryan, Memphis Tenn.

"It affords me much pleasure to say that the Machine vorks well; and I do not hesitate to recommend it as possessing all the advantages you claim for it. My wife is much pleased with it, and we take pleasure to certify to this effect."-R. C. Brinkley, Memphis, Tenn.

" It gives me pleasure to find the Grover & Baker Sew-ing Machine giving so much satisfaction. I have it in con-stant use, and find it all that could be desired. It is the

most simple and durable machine in use, and 1 heartily recommend it."-F. M. White, Memphis, Tenn.

"Having seen, examined, and used many other kinds of Sewing Machines, I feel free to say that the Grover & Baker Machines are far superior to all others in use."— M. Francois Seltz, Memphis, Tenn. "I consider my machine invaluable, and would not

take five times its costs, if I could not supply its place. With it I can do all my family sewing in about one fourth the time I could with my hands."—M. J. Scott, Nashville, Tenn.

DOUGLAS ELECTED!

THE MAN that makes the TIN AND SHEET IRON WARE at the EAGLE WORKS, is supposed by his **1** WARE at the EAGLE WORKS, is supposed by his admiring friends to be the best looking man, and the best workman in Tiu and Sheet iron of any man in this region of country. Tin Ware made by him is warranted not to leak sand. He is always on hand, like a thousand of brick, to make work to order, or do HOUSE JOBBING, as Eave Troughs, Conductors and Roofing, or to exhibit a large variety of

STOVES,

STOVELTS, For cooking with Coal or Wood, or Parior, Office or Shop Stores made at the above works. But if you wish to give orders for CASTING OB MACHINE WORK, call at the other end of the same establishment where you can pro-cure anything you want in the line of AGRICULTURAL IMPLEMENTS with late improvements, such as Plows, Cultivators, Corn Shellers, Cutting Boxes, Horse and Dog Powers, &c., or any kind of Casting in Brass, Iron and Composition; or Machine Work and Repairing in a next and workmanlike manner. CASH paid for Old Pewter or Brittania. O. D. BARTLETT. Towanda, Jan. 5, 1859. Towanda, Jan. 5, 1859.

GEO. H. BUNTING, RESPECTFULLY informs his former customers and the public generally, that he has removed his

TAILOR'S SHOP,

To one door south of Tracy & Moore's store and imme-diately opposite D. C. Hall's Store and Tin Store Main st. He flatters himself that from his long experience in bu-siness he will be able to please all who may favor him with their custom. Owing to the low pressure in the mo-ney market, he will make Coats from \$2 50 to \$4 50 each and other work in proportion for READY PAY. Country Produce in payment, will not be refused, if

efused. if Country Produce in payment, will not be refused. fered. Towanda, March 20, 1858. ffered.
