THE STATE CONVENTION.

The proceedings of the late Republican State Convention are published in this week's issue. The Convention was fully attended, and its deliberations harmonious and enthusiastic. The candidates placed in nomination, command the respect of our opponents. Thomas E. Coch-RAN, of Lancaster county, (lately from York) nominated for Auditor General, has no superior in the Commonwealth for the qualifications necessary to the proper discharge of the duties of that important office. Honest and capable, he will guard the interests of the State with scrupulous fidelity. Of Gen. KEIM, of Berks cannot speak with so much of personal knowledge; but the fact that he beat J. GLANCY JONES' law partner, for Congress, last fall, in tion of the dam. Appearances seem to indicate that his continued hostility to the extension of Slavery Berks county, ought to be a sufficient recommendation. The success of this ticket is admitted on all hands, and it is a source of rable end. congratulation that the Convention acted so wisely in their choice of candidates.

THE JUNE FROST.

The late unfavorable weather, and particularly the frost of Sunday morning, June 5th, will long form an epoch to the Agricultural interests. Fairer prospects of a bountiful harvest never greeted them, than gladdened the sight previous to that time. A favorable winter and an early spring, had brought forward the crops to a point of promise rarely attained so early in the season. But in a few hours the aspect of things was changed. A blighting frost spread over the country, with destruction agement and protection from the last Congress in its visit. Where hope and confidence had been indulged in, doubt and despair now took up their abode. A general fear prevailed that the growing crops were entirely cut off, and that ruin and suffering stared the country in the party now in power; and we believe the the face. Time enough has now elapsed to allow a pretty accurate estimate of the damage to be made. We are gratified in believing that it has been greatly exaggerated, and that with a reasonably favorably season, the harvest gardens, the damage has been trifling. We hear of localities in Western New York, however, where the trees are blasted as if in the " sere and yellow leaf"-rye turned to a sickly portions of Ohio and Illinois, yet we believe it is limited, and that the great breadth of ground sown, and the promise of an extraordinary yield, will more than supply the loss from the

A Committee was appointed to submit the views of the Convention to the General Assembly. and to ask appropriate legislation. The minorty report recommended the passage of a law compelling free negroes to leave the State or
