NEW AGRICULTURAL SETTLE-A MENT.—To all wanting farms, a rare opportunit in a delightful and healthy climate 25 miles southeast of Philadelphia on the Camden and Atlantic Railroad, Nev Philadelphia on the Camden and Atlantic Railroad, New Jersey. An old estate consisting of several thousands of acres of productive soil has been divided into Farms of various sizes to suit the purchaser. A population of some Fifteen Hundred, from various parts of the middle States and New England have settled there the past year, improved their places, and raised excellent crops. The price of the land is at the low sum of from \$15 to \$20 per acre, the soil is of the best quality to the production

racre, the soil is of the best quality for the production Wheat, Clover, Corn, Peaches, Grapes and Vegetes. It is considered the best fruit soil in the Union. bles. It is considered the best fruit soil in the Union.—
The place is perfectly secure from frosts—the destructive enemy of the farmer. Crops of grain, grass and fruit are now growing and can be seen. By examining the place itself, a correct judgment can be formed of the productiveness of the land. The terms are made easy to secure the rapid improvement of the land, which is only sold for actual improvement. The result has been that within the past year, some three hundred houses have been erected, two mills, one steam, four stores, some forty vinyard and Peach orchards, planted, and a large number of other aprovements, making it a desirable and active place o

business.

The Market, as the reader may perceive from its location, is the best in the Union. Produce bringing double the price than in locations away from the city, and more than double the price than the West. It is known that the earliest and best fruits and vegetables in this latitude come from New Jersey, and are annually exported to the

land and Middle States, he is near his old friends and as-sociations, he is in a settled country where every improve-ment of comfort and civilization is at hand. He can buy every article he wants at the cheapest price, and sell his produce for the highest, (in the West this is reversed,) he has schools for his children, divine scrvice, and will-enjoy an open winter, and delightful climate, where fev-ers are utterly unknown. The result of the change upon those from the north, has generally been to restore them to an excellent state of health.

In the way of building and improving, lumber can be

to an excellent state of health.

In the way of building and improving, lumber can be obtained at the mills at the rate of \$10 or \$15 per thou sand. Bricks from the brick yard opened in the place, every article can be procured in the place, good carpenters are at hand, and there is no place in the Union where buildings and improvements can be made cheaper.

The reader will at once be struck with the advantages here presented, and ask himself why the property has not leen taken up before. The reason is, it was never thrown.

been taken up before. The reason is, it was never thrown in the market; and unless these statements were correct, no one would be invited to examine the land before purhasing. This all are expected to do. They will see the land under cultivation, such is the extent of the settlement that they will no doubt, meet persons, from their own neighborhood; they will witness the improvements and can judge the character of the population. If they come with a view to settle, they should come prepared to stay a day or two and be ready to purchase, as locations

cannot be held on refusal.

There are two daily trains to Philadelphia, and to all settlers who improve, the Railboad Company gives a Free Ticket for six months, and a half-perice Ticket for three years.

THE TOWN OF HAMMONTON.—In connection with the agricultural settlement, a new and thriving town has naturally arisen, which presents inducements for any kind of business, particularly stores and manufactories. The Shoe business could be carried on in this place and mark to good advantage, also cotton business, and manufactories of agricultural implements or Fourderies for casting small articles. The improvement has been so rapid as to insure a constant and permanent increase of business.—Town lots of a good size, we do not sell small ones, as it

The best combined Monner & Resper in the world! IT IS A PERFECT MOWER! IT IS A PERFECT REAPER!

IT IS A PERFECT REAPER!

WE WARRANT it as a complete Mower, and as a complete Reaper, and also as a Complete Combined Machine. It is simple, durable, convnetent to handle, easily operated, no side draft, the lightest draft machine known, and the cheapest Combined Mower and Reaper now made. It does not bear upon the horses' necks. It is admirably adapted to rough ground and for all kinds of work. It is easy for the raker in reaping, and delivers the gavels in good shape at one side. It is very difficult to clog. It is almost entirely made of iron, except the seat, pole and reaping attachment. It is readily thrown in and out of gear, and by means of a lifting lever and wheel, the driver can, when moving, at pleasure elevate either end or both ends of the finger bar, to move over obstructions, carry his swath, or pass from field to field.

Farmers of Bradford! the Kirby Harvester is manufactured at the TIOG a POINT AGRICULTURAL WORKS, in your own County, almost at your very doors, and therein your own County, almost at your very doors, and therefore, as well as on account of its superior merits. the best machine for you to buy. Raymond's Latest Improved,

FAMILY SEWING MACHINE THESE MACHINES AFTER ONE year of constant use, have been pronounced the best dachines in the world, and have been used entensively in he cities of St. Louis, Mo., Cincinatti, O., and Chicago, II. among the first families, and are preferred to the high

ler, with perfect satisfaction, and especially adapted milv use. o family use.
They will sew all kinds of goods, from the finest to the poarsest, better than any Machines now extant.
The following are the advantages they possess over all other Machines.
1st. Any person of ordinary intelligence, can in one four learn to use them successfully.
2nd. They are simple, strong and durable, easily understood and unangged, and not liable to get out of order.

tood and managed, and not liable to get out of order 3rd. They use cotton from the ordinary spool without winding.

4th. The ctitch is stronger and more difficult to rip an any other made by Machinery. The two threads are subjectioned into each other, and firmly tied and knot-d at every stitch, which is the best and most elastic

They sew with cotton, linen and silk thread equally well.

6th. They finish their work. There is no occasion to fasten the thread at either end of the seam, as is required by other shuttle stitching machines.

7th. Every Machine is made to run by hand or foot power, thus combining the advantages of both methods.

All persons des rous of purchasing the best and cheapest Machine ever invented for family use, can now have an opportunity, by addressing or calling on the subscriber,

Ulster, Bradford County, Pr.

ber.

Dister, Bradford County, Pr.

N. B. These Machines are warranted, and any person purchasing them can return them and get their money, if after one mouth's trial, do they not give satisfaction.
