[From the Harrisburg Telegraph.] Sale of the Fublic Works.

MR. EDITOR :- My attention was called some time since to the subject of the sale of the Public Works of the State, the public debt, &c., by a controversy between " Investigator," of the Patriot and Union of Harrisburg, and the editor of the Clinton Democrat.

I was long aware that there was a great and, for a time successful, attempt to keep the honest, hard-working taxpayers in the dark as to the true financial condition of our State, as well as the profitableness of the Public Works.

out to enable the people to see that all was not right. Hence the demand of the masses that our Public Works should be sold.

The plunderers of "the Exact Science class were loud and furious in opposition, from Judge Black down, or up, to the Locktender.

I have examined the subject with a great deal of care, aided only by the reports of Democratic officers, and have been perfectly astonished at the gross deception practiced upon the people. I find the public debt on the

Again, had the whole Public Works been Havana. giren away on the said S0th of November 1850 the State would this day have been \$1,625,-997,49 the gainer.

Startling as the above facts are, they do not present the full loss of the State. Those who profited by the operation, have so mixed up items that it is almost impossible at this day to discover their tracks. Expenses which should have been charged to Public Improvements, are hid away under heads or "lying won the stakes. around loose."

BUCHANAN "DECLINES."

We have an official announcement in the Bedford Gazelle, that President BUCHANAN will not be a candidate for re-nomination. As of State at Bedford Springs, this declaration might be considered as final and authoritative mination, together with the equally well known | date from that period. fact that the efforts of his office-holders are directed towards the same consummation. That Mr. BUCHANAN has anxiously desired a re-nomination, has been apparant for some time. The patronage of his Administration has been employed for this purpose ; while he has stultified himself and outraged the best interests of the country, to conciliate that sectional interest which controls the Democratic party, and makes or unmakes its Presidential candidates. It would be difficult to satisfy the public that he freely and voluntarily gives up the hope he has cherished, of being his own successor. We should rather consider it as a feint, in strict accordance with the history of his public life, and the unreconcilable and tortuous course of his Presidential career, in which not content with disappointing the hopes of the country, he has violated and disregarded Bates emancipated the last of his slaves several years elevated to office, forgotten and repudiated old friends, and taken to his confidence and his affections, his life-long and bitterest enemies. If Mr. BUCHANAN has really resigned all hope of a re-nomination, it does credit to his sagacity. Surrounded by flatterers and sycophants, we had not expected him to realize the

general estimation in which his Administration is held, and the universal verdict of condemnavious Administrations may have forced upon him the unwelcome conclusion, that the South having used him to effect its purposes, would fail him at the Charleston Convention, and seek for some more serviceable candidate, to use and repudiate.

ANOTHER DISSOLUTION BUGBEAR .- It is reorted in Washington that the Mississippi State Convention have instructed their delegates to the Charleston Convention to withdraw from that body unless they succeed in engrafting upon the platform the repeal of all laws against the African Slave Trade, and the enact-

THE PUBLIC WORKS.

In another column, will be found an article from the Telegraph, on the subject of the value to the State of the Public Works. We are aware that this subject is one in which public interest has in a great measure abated, being succeeded by a general feeling of relief at the transfer by the State of her interest in Public Improvements, but we publish this article to show how fallacious are the statements that the Public Works have ever been a source of revenue to the Commonwealth. The article

was prepared from official documents, and the figures given may be relied upon as accurate. Leaving figures out of view, one fact has

been sufficient to satisfy us of the unproductiveness, as a source of Revenue, of the State Improvements, and that was, that they have

not contributed to the relief of the tax-payers, nor towards liquidating the debt of the Commonwealth. It has always been very easy to make out tables showing the enormous amount derived from the Public Works, but the money never found its way into the Treasury ; but on the contrary, the outgo has been constant. If the Public Works had been the profit to the State, claimed by those interested in thieving along the lines, the Public debt ought to have been paid off before this time.

The proudest day Pennsylvania has seen for his Excellency is now reposing from the cares years, was that on which she divested herself of all interest in Public Improvements. The future will bear us out in saving that her but for the fact that papers known to be in progress towards extinguishing her public debt, the confidence of "J. B." are urging his re-no- and lightening the taxes of her people, will

> FOREIGN NEWS .- By the arrival of the Vanderbilt steamship Ocean Queen off Cape Race, and the Canadian steamship Anglo-Saxon at Further Point, on her way, to Quebec, we are put in possession of highly interesting European advices to the 20th inst., four days later than those brought by the Europa at New York. The unexpected Peace continued to be the absorbing topic of the English and Continental Press, and its provisions appear to be very generally unacceptable. The Paris correspondent of the London Post, Lord PAL-MERSTON'S OFGAN, even asserts that the Emperors of France and Austria have become con-

> vinced that the bases upon which it was founded are impracticable in many respects. The Post had commenced an attack upon the proceedings at Villafranca, and with all the other English journals, treated them with ridicale. The Vienna correspondent of the Times says that the representatives of France, Austria and Sardinia were soon to meet at Zurich to conclude the Treaty of Peace, and the Post's Paris correspondent says that the conference has just been arranged at St. Cloud, to meet early next month. The proceedings in the British Parliament had been interesting. The Budget had been submitted by the Chancellor of the Exchequer, and it exhibits a deficit of nearly £5,000,000, which it is proposed to make up by direct taxation. The financial and commercial news is highly important. The English funds were flat, and a decline had taken place in Cousols. The Austrian funds were buoyant. The subscribers to the proprsed Austrian Loan had been relieved from their obligations. The Markets were gener-

nor At a meeting of the Bradford County Medical Society, held at the Odd Fellows Hall in the pit, and in so doing nearly lost his own life. borough of Monroe, July 6, 1859, the following members were present :

Dr. C. K. Ladd, Towanda, President ; V. Homet, and G. F. Horton, Terrytown ; W. L. Clagett, Standing Stone; D. Holmes, Canton ; H. P. Moody, Frenchtown ; G. H. Morgan, Monroe ; C. T. Bliss, LeRoy ; A. K. Axtell, Troy ; T. F. Madill, Wysox ; E. H. Mason, Towanda. The minutes of last meeting were read and approved. Mr. Morgan reported a case of local paralysis.

Dr. Bliss reported a case of dropsy, and exhibited a large mass of steatomatous matter found attached to the ovaria and filling up the pelvis on autopsy of the case. Dr. Moody reported a case of empyema, with the dis-

charge of small concretions, after the operation of paraentesip.

Dr. Holmes reported a case of follicular pharyngitis. Dr. Holmes offered the following resolution, which was adopted :

Resolved. That the clinic hours of this Society shall be between the hours of 2 and 3 o'clock, P. M., on each day of its meetings, and hat the persons presented for exam-ihation must be patients of members of this Society. Dr. Morgan, chairman of the committee on Vaccine

Virus, read a report, and asked that the committee be ontinued until next meeting, which was granted. The committee to whom was referred the case of Dr. Axtell, for mal practice, made the following report which

was unanimously adopted : WHEREAS : Dr. A. K. Axtell has been prosecuted for an alleged injury done to the knee joint, while producing extension, by force applied above the condyles of the femor, or in that vicinity; and whereas, it is asserted that the leg was flexed upon the thigh while extension was being made ; and whereas, a majority of your committee were present to examine the patient's knee, and heard the testimony at the trial, and are perfectly conversant with the facts in the case, therefore **Resolved**. That in the opinon of your committee, the force applied to the knee, or its vicinity, did not nor could not produce the alleged injury, as much greater force is perfect impanity, to the knee joint, and that the course pursued by Dr. A. is highly commendable, and in accord-ance with the best surgical practice. **G. H. MORGAN**, Committee was unanimously adopted :

Dr. Holmes presented a resolution adopted by the Medcal Association of the eastern district of the State of New York, inviting the nembers of the Bradford County Medical Society to become members of their Association. Dr. Horton offered the following resolution which was adopted :

WHEREAS : At the instance of Dr. Holmes, a mem! the Medical Association of the eastern district of the state of New York, that Association have invited the nembers of this Society to membership with them, there Resolved. That the members of this Society tender their hanks to the Medical Association, and recommend the nembers of this Society to comply with their invitation

Drs. Holmes and Bliss were appointed to read essays at the next meeting.

The subject of Dysentery was selected for discussion at he next meeting.

Dr. Moody offered the following resolution which was nanimously adopted :

Resolved, That the thanks of this Society are tendered the Odd Fellows, for the gratuitous use of their Hall Adjourned to meet at Towanda, Wednesday September 7.

TERRIBLE ACCIDENT AND DEATH .- A horrible accident occurred on the Delaware and Hudson Co's Railroad at Prompton, last Thursday afternoon, resulting in the death of Mr. RICHARD ADDYMAN, a well known citizen of this piace, and maiming in a terrible manner a German by the name of Rouse, who is yet lying in a very critical situation.

It appears Mr. Addyman was engaged at his business (painting.) in Prompton for a few days, and was in the habit of coming home in the evening, on the coal cars. At this time he was running after a train in motion, to jump on, and a short distance behind this train a few cars were coming, on which were men

working on the road, returning home. Just as Mr A. was reaching out to catch on the last car, he fell into a cow-pit. It is supposed the fall stunned him, and before he could get entirely out, the cars behind came upon him, killing him almost instantly. The German, who was also so much injured, jumped off the cars and attempted to pull him out of the cow-

AN ESCAPE - While an express train bound East, Wednesday, on the Eastern division of the Erie railroad, was running at full speed, the passengers were suddenly startled by a shrill whistle from the engine and the quick and noisy action of the brakes. The train was soon brought to a stop, when the alarmed passengers learned that the engineer had discovered a pile of stones on the track in time to avoid the imminent peril. The stones had been heaved up by some unknown miscreant.

-Last Sabbath was Quarterly Meeting of the M. E. Church, and as usual on such occasions. the Sacrament was administered. After the terday, and so also says the Harrisburg Patriot and Unmeeting adjourned, the members went their im several ways, some to dine with friends in town some to their homes in the country. In about an hour the doctors were in requisition in every direction : the whole membership was seized with a simultaneous " bilious attack," and the demand for remedial agents was general. The first smell of the sumptaous dinners prepared provoked sudden and involuntary eructation on the part of all the orthodox members of the respective families. FIRE AT TROY .- On Tuesday night, July

24th, about twelve o'clock. the barn of Gen. ELISHA CASE, in Troy, was discovered on fire, and all at tempts to save it proved useless. It was entirely consumed, together with its valuable contents, consisting of two hundred bushels of fine wheat, two hundred bushel of barley, and about one hundred and fifty tons of hay. We are not informed as to the extent of Gen. CASE'S los or whether any portion of it is covered by insurance. The fire was undoubtedly the work of an incendiary, a o person in Gen. CASE's family or employ had been in the barn after the harvest hands had quit work the pre vious evening. Gen. CASE is a highly esteemed citizen f Troy, and is not aware that he has a solitary enemy in the place. The fiend waited until the whole harvest of the farm had been gathered into the barn before he attempted to perpetrate his damning deed, the last ton of hay having been deposited in the barn but a few hours previous to the fire.
