Caution .- In our last paper appeared an advertisement headed \$800, purporting to be from Carey & SMITH, 321 Pearl st. New York, and offering inducements to agents to take orders for Tobacco. We confess to being sold by the gentlemen in question. They are Peter Funks of the worst kind, and we trust that none of our readers have been led to place any reliance in their

Oregon, Carson Valley and the Fraser River
region. The Mail left San Francisco on the 12th ult. From Victoria we learn that the Island of San Juan, between Vancouver's Island and the main land, claimed by our Government as a part of Washington Territory, had been taken possession of by Gen HARNEY who had placed upon it a small body of United States troops. Gov. Douglass had issued a protest, and had sent armed vessels and troops there but it was believed that the matter would be compromised by a joint occupancy of the Island, until the two Governments could take action in the matter. The mining news of almost every description from 50 cents to \$20,00. Indian troubles continue. A battle had been From \$1,50 to \$10.00, all of which are new and beautiful fought between fifty troops under Maj. ARMIabout fifty of the latter were killed. The loss wear, cheaper than ever offered before. of the troops is not stated. The Paloz Indians in Oregon are stated to be harrassing Lieut. MULIEN'S wagon road expedition. The citizens of Carson Valley have declared themselves detached from Utah, and have framed a Constitution for a Provisional Government, naming their Territory Nevada. Political affairs were in a very excited state in California.

TERRIBLE FATE OF SIX HUMAN BEINGS .-An eye-witness gives us the horrible details of the destruction by fire of the Steuben County Poor House at Bath, on Sunday morning last at 2 o'clock. The building contained quite a large number of inmates among whom were three or four lunatics. One of these unfortu nate beings, over whose bewildered imagination the destructive element seemed to predominate collected a quantity of combustible materials, deposited them in an unguarded crevice in the building, and applied a lighted match. The flames spread with rapidity and but feeble resistance could be offered to their progress .-Affrighted inmates thus aroused at the dead hour of night without the slightest warning, were thrown into the wildest confusion, and the unearthly yells of the lunatics mingling with shricks of despair, hightened the terror of the scene. Although the utmost exertions were made to-save the unhappy beings, they were attended with but measurable success. In CARPETS, OIL CLOTHS, MATspite of every effort six of them were inextricably walled in by the flames, and the curling element slowly burned them to a crisp! Upon searching for the remains after the conflagration had subsided they were discovered in such a roasted and mutilated condition, that only one from the number could be recognized as having the least semblance of a human body. A coroner's jury was summoned, and held an inquest yesterday afternoon. They probably rendered a verdict in accordance with the facts as above stated — Elmira Daily Press.
