THE history of the grape is almost as old as that of man growing in its highest perfection in Syria and Persia, its hichost bruit and the annivalled beverage which its fermented juice affords, recommended it to the especial care of the Patrianchal tillers of the soil; and vineyards were exfensively planted, long before orchards or collections of other fruit trees were at all common.

The grapes of the old world are all varieties of the wine grape, which, though so long and universally cultivated and naturalized in all the Middle and Southern portions of Europe, is not a native of that Continent, but came originally from Persia. From the latter country, as the civilization advanced westward, this plant accompanied it first to Egypt, then to Greece and Sicily, and gradually to Italy, Spain, France, and Britain; to which latter country the Romans carried it about two hundred years after Christs. To America the seeds and plants of the European varieties were brought by numerous Emigrants and Colomists, within the first fitty years after its the European varieties were brought by humerous Emi-grants and Colonists, within the first fifty years after its

grants and Colonists, within the first fitty years after its settlement.

The wild grapes of our own country, are quite distinct species from the wine grape of Europe, and are usually stronger in their growth, with longer and more entire folding, and in their native state with a peculiar foxy odour or flavor, and more or less hardness of pulp; these traits, however, disappear in process of cultivation; and we have already obtained from the wild type, new varieties of high quality, and of superior hardiness and productiveness in this, our Northern climate.

The universal experience in all countries, has established the fact that dry, warm soil is the very best for the vine. All in this latitude may raise the grape successfully by setting the vine I in a favorable exposure to the sun. The late varieties that I offer for sale, are all carlier than the Isabella but one, and that ripens full as soon as the Isabella There is no fruit grown, in my opinion, in this world, more beautiful, delicious, or useful than the grape. If a man is not too lazy, he may have round him all the varieties of grapes in a high state of cultivation, and his garden adorned with all the beautiful and social productions of this fair world of ours, and a mind that has any str in if at all, by little enquiry and practice, may learn to cultivate anything that grows.

I consider the following variety of grapes the very best to cultivate for out door culture in our northern climate, out of the vast variety.

BURGUNDY.

out of the vast variety.

This excellent hardy grape, is the true Burgundy grape so highly valued for wine in France. The fruit is very sweet and excellent, and the hardiness of the vine renders it one of the best varieties in the open air in this climate. Bunch small, compact, (i.e. berries closely set,) Berries midle-sized, roundish-oval, black, juice sweet, good, ripens about 20th of Sept. Thompson gives more than forth symmetries to this grape. than forty synonymes to this grape.
PRICE SEVENTY-FIVE CENTS.

CATAWBA.

This excellent native grape, was first introduced to notice by Maj. Addum. of Georgetown, D. C., and was found by him in Maryland. It probably has its name from the Catawha river, it is one of the most productive and excellent of our native sorts. There is is no grape in some portions of the United States, so good for wine or table use. Beautiful bunches, pale red, rich musky flavor, and very sweet when ripe.

PRICE, TWENTY-FIVE CENTS.

CLINTON.

Origin uncertain, said to have originated in Western New York, growth vigorous, hardy, and productive, bunches compact, berries round, rather below medium size, black, covered with a thick bloom, eatable eight or ten days before Isabella, frosts make them very good.

1 PRICE, TWENTY-FIVE CENTS.

CONCORD.

This exceeding fine hardy native grape, was raised rem seed by F. W. Belli, Concord. Mass. It is very earlity, vizorous habit, and very productive bunch rath-r compact, large shouldered, almost black, covered with born, very sweet, it is more hardy than the Isabella, and about ten days earlier. Consequently it is very

PRICE, ONE DOLLAR. DELAWARE.

precise origin of this is not known, we have the ring account of it from A. Thomson, of Delaware, It was proport to Delaware, by a German, its exellence attracted his attention, and an inquiry as to its istory. It was prought from New Jersey some eighteen repeaty wons ago, having been obtained from the garen of a French gentlemen, PACL H. Phovosa, in Kingsood two, Hunterdon Co., N. J. It was known in that comby, as the distinctions of the property of the comby as the distinctions. sciently as the stains Gape, sent from Italy, tunch small, a beautiful light red, or slesh color, exceedingly sweet one of the most delicious, hardy grupes. It is a vigorous grower, an early and profuse bearer, and probably more hardy than the Isabella, it ripens two or three weeks before the Isabella. No grape more desirable for our climate. for our climate.
PRICE, THREE DOLLARS.

DIANA.

A seedling of the Catawba raised by Mrs. Diana Crehon, of Roston, and named by the Massachusetts Horticultural Society. It was announced the best and most beautiful of American grapes, particularly valuable for its earliness. The color is a fine reddish like, it hangs long on the vines and is not injured by severe frosts; it is exceedingly productive and vigorous.

PRICE, ONE DOLLAR.

HARTFORD PROLIFIC.

Raised by Mr. Steel, of Hartford, Conn. Hardy, vig rous and productive, bunch large shouldered, rather compact, berry large globular, black covered with bloom, ripe about ten days before the Isabella. ISABELLA.

This very popular grape, a native of South Carolina was brought to the North and introduced to the notice of cultivators about the year 1-18. Mrs. Isabella Gibbs, the wife of Gronge Gibbs, Esq., in honor of whom it was named. Its great vigor, hardiness, and productiveness, with the least possible care, have caused it to be most widely disseminated. It is probably more hardy and ripens carlier than the Catavba, which renders it most valuable at the North. It is so well known it is hardly worth while to describe the beautiful fruit it bears. PRICE TWENTY-FIVE CENTS.

EARLY NORTHERN MUSCANDINE This grape ripens the last of Sept., is perfectly hardy evariety is a seedling from the native white grap naised by Philippon Syrvens. Shaker Village, New Leb-ation, Columbia Co., N. V. Banch thie and large, light amber color, and very delicious, very highly spoken of, and very hardy and productive.

PRICE ONE DOLLAR. REBECCA.

than the Isabella, keeping a long time after it is gathered. This superior white gape is undoubtedly a native—chance seedling in the garden of E. M. Plass, of Hudson, N. Y., proved perfectly hardy and productive. It is not so vigorous in its habits as the Isabella or Oatawba; but hardy and healthy, and being exceedingly beautiful, as well as excellent, it must be regarded as a very great acquisition, it is so well adapted to the North.

PRICE_TWO DOLLARS PRICE, TWO DOLLARS.

UNION VILLAGE.

This very attractive grape originated among the Shakers at Union Village, Ohio, and was introduced by Mr. Losgworth, of Cincinnati. It is undoubtedly a seedling of Isabella, is very Vigorous in growth, and its fruit often nearly equals the size of the Black Hamburg. It ripens about the time of Isabella. PRICE, ONE DOLLAR.

The following tender variety of grape vines are all raised under glass with one exception, the Chasselas. I have succeeded admirably in out door enture with the vine. Black Hamburg, Red Museat, White Syrian, Golden Hamburg, Bishop, White Frontignan, Black Prince, Elk. Damask, Golden Chasselas, may be found at my garden well routed.

well rooted.

The Isabella, Catawba and Clinton, by the 100 or 1000 all well rooted, to any that wish to set vineyards at exceeding low rates. I warrant all true to name, any mistake or errors shall be made good. I do not want something for nothing. A legal thief is the most despicable. I wish to advertise a simple fact only—no puffing in papers is wanted. By my own merit I stand or fall, earthly tribunals cannot keep me up or down. All the above grape vines can be had at the garden of HAERY MIX.

Mr. John A. Garbara being equally interested, will Mr. John A. Gamera being equally interested, will travel throughout the county and adjoining counties, and will give instructions about culture, &c., and be able to show drawings of some of the new varieties of grapes hich are in great demand and very scarce. Towanda, Pa., 1859.

PARM LANDS FOR SALE 25 MILES large tract, divided into small farms, and hundreds from parts of the country are now settling and building. The crops produced are large and can be seen growing. The climate is delightful, and secure from frosts. Terms The chimate is delightful, and secure from 10 sets. Terms from \$15 to \$20 per acre, payable within four years by instalments. Recenters, Septem! er 15, 1859. NOTICE is hereby given that an application will be made at the next session of the Legislature of Pennsylvania for the incorporation of a Bank, to be called the "Bradford County Bank;" with banking privileges of Issue, Discount and Deposit; with a capital of Two Hundred Thousand Dollars, with the right to increase the capital stock to Four Hundred Thousand Dollars, and to be located in the borough of Towanda, in the capital of Bradford.

county of Bradford.
Towanda, June 20, 1859,

North Branch Canal Company. NOTICE. THE Stockholders of the North Branch of the Board of Managers, an Instalment of Two and a Half Dollars per share, is required to be paid to the Treasurer or his Assistant, at their office in Wilkes Barre, by the 15th day of September next, and if not paid with thirty days after that time, the stock will be forfeited. GEO. M. 101 LENBACK, Treasurer, July 21, 1859. W. G. Stelling, Asst. Teas'r.

FRUIT TREES. Shrubs and Vines. Shrubs and Vines.

THE undersigned will be prepared the coming Fall, to supply the public with a well selected and choice variety of trees, shrubs and vines. All orders sent or given I will attend to filling and delivering myself, and hope to make satisfactory. Trees that shed the leaf should be transplanted in the fall, evergreens late in the spring. As some people think that nursery men should replace all trees that do not live, I would say, to those buying of me, that I do not agree to do so, but I will warrant my trees to be in good order when delivered. I will warrant all to live, but in, such a case I will have an extra price, and attend to setting out myself.

N. B.—The following Insurance Companies have aphave an extra price, and attend to setting out mysest.

N. B.—The following Insurance Companies have appointed me their Agent, to take risks of all classes where local agents are not found: The Fariner's Union Insurance Co., and Great Western, united, now of Philadelphia, the Keusington of Philadelphia, the Lycoming County Mutual Insurance Company, of Muncy Pa., Any thing in this line promptly attended.

DANIEL HARKINS.

DANIEL HARKINS. Towanda, July 25, 1859. 500 CORDS OF BARK WANTED!—
Cash will be paid for OAK AND HEMLOCK
BARK, and HUDES AND SKINS, at the highest market
rate, by aug9 HUMPHREY & WICKHAM.

A FARM FOR SALE. THE SUBSCRIBER OFFERS for sale a FARM in North Towarda township, about three miles from the Borough of Tow-anda, and about one half mile from the road anda, and about one half mile from the road leading from Waverly to Towanda. This farm contains about forty-three acres, of which thirty acres are improved, with a good house and barn and apple or-chard thereon. Offering great inducements to purchasers, as the farm will be sold cheap, and terms of payment made easy. Inquire of "JOHN HOLMES."
