THE GRAPE. THE history of the grape is almost as old as that of man — growing in its highest perfection in Syria and Per-sia, its lucious fruit and the unrivalled beverage which its fermented juice affords, recommended it to the especial care of the Patriarchal tillers of the soil ; and vineyards were extensively planted, long before orchards or col-lections of other fruit trees were at all common. The grapes of the old world are all varieties of the wine grape, which, though so long and universally cultivated and naturalized in all the Middle and Southern portions of Europe, is not a native of that Continent, but came originally from Persia. From the latter country, as the civilization advanced westward, this plant accompanied

originally from Persia. From the latter country, as the civilization advanced westward, this plant accompanied it—first to Egypt, then to Greece and Sicily, and gradu-ally to Italy, Spain, France, and Britain; to which lat-ter country the Romans carried it about two hundred years after Christ. To America the seeds and plants of the European varieties were brought by numerous Emi-grants and Colonists, within the first fifty years after its settlement.

The wild grapes of our own country, are quite distinct

The wild grapes of our own coxntry, are quite distinct species from the wine grape of Europe, and are usually stronger in their growth, with longer and more entire follage, and in their native state with a peculiar foxy odour or flavor, and more or less hardness of pulp ; these traits, however, disappear in process of cultivation ; and we have already obtained from the wild type, new varie ties of *high quality*, and of superior hardiness and pro-ductiveness in this, our Northern climate. The universal experience in all countries, has estab-lished the fact that dry, warm soil is the very best for the vine. All in this latitude may raise the grape suc-cessfully by setting the vine in a favorable exposure to the sun. The late varieties that I offer for sale, are all earlier than the Isabella. There is no fruit grown, in my opinion, in this world, more heautiful, delicious, or use-ful than the grape. If a man is not too lazy, he may have round bim all the varieties of grapes in a high state of cultivation, and his garden adorned with all the beautiful and social productions of this fair world of ours, and a mind that has any strv in it at all, by little enquivy and practice, may learn to cultivate anything that grows. I consider the following variety of grapes the very best to cultivate for out door culture in our northern climate, out of the vast variety.

out of the vast variety.

BURGUNDY. This excellent hardy grape, is the true Burgundy grape so highly valued for wine in France. The fruit is very sweet and excellent, and the hardiness of the vine ren-ders it one of the best varieties in the open air in this climate. Bunch small, compact, (i.e. berries closely set.) Berries midle-sized, roundish-oval, black, juice sweet, good, ripens about 20th of Sept. Thompson gives more than forty synonymes to this grape.

PRICE SEVENTY-FIVE CENTS.

CATAWBA.

CATAWBA. This excellent native grape, was first introduced to notice by Maj. ADLUM, of Georgetown, D. C., and was found by him in Maryland. It prohably has its name from the Catawba river, it is one of the most productive and excellent of our native sorts. There is is no grape in some portions of the United States, so good for wine or table use. Beautiful bunches, pale red, rich musky flavor, and very sweet when ripe.

PRICE, TWENTY-FIVE CENTS. CLINTON.

Origin uncertain, said to have originated in Western New York, growth vigorous, hardy, and productive, bunches compact, berries round, rather below medium size, black, covered with a thick bloom, eatable eight or ten days before Isabella, frosts make them very good. PRICE, TWENTY-FIVE CENTS.

CONCORD.

This exceeding fine, hardy native grape, was raised from seed by E. W. BCLL, Concord, Mass. It is very healthy, vigorous habit, and very productive, hunch rath-er compact, large shouldered, almost black, covered with bloom, very sweet, it is more hardy than the Isabella, and ripens about ten days earlier. Consequently it is very valuable for a large Northern range. PRICE, ONE DOLLAR.

DELAWARE.

DELAWARE. The precise origin of this is not known, we have the following account of it from A. Thonson, of Delaware, Ohio. It was brought to Delaware by a Germar, its ex-cellence attracted his attention, and an inquiry as to its history. It was brought from New Jersey some eighteen or twenty years ago, having been obtained from the gar-den of a French gentlemen, PAUL H. Phovosr, in Kings-wood twp., Hunterdon Co., N. J. It was known in that vicinity as the Italian Grape. sent from Italy, bunch small, a beautiful light red, or flesh color, exceedingly sweet, one of the most delicious. hardy grapes. It is a vigorous grower, an early and profuse bearer, and prob-ably more hardy than the Isabella, it ripens two or three weeks before the Isabella. No grape more desirable for our climate. PRICE, THREE DOLLARS.

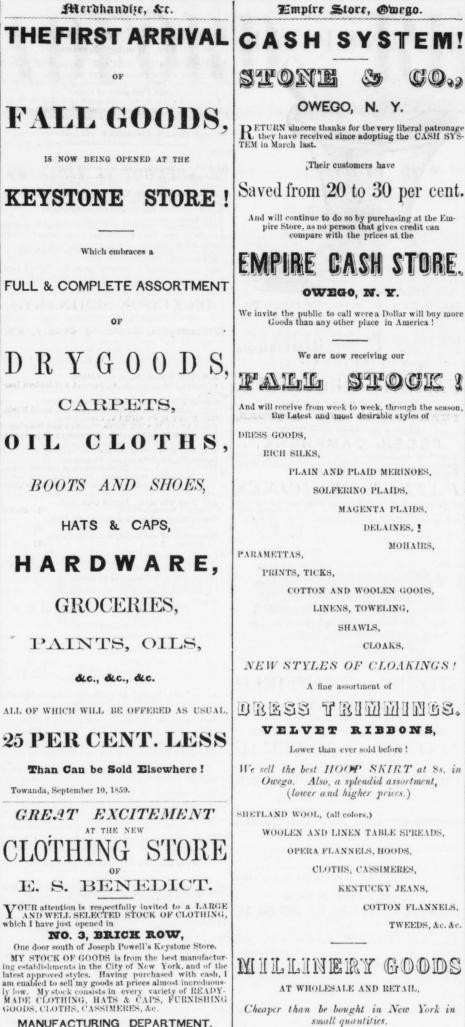

PRICE, THREE DOLLARS.

DIANA.

A seedling of the Catawha raised by Mrs. Diana Cre-hon, of Boston, and named by the Massachusetts Horti-cultural Society. It was announced the best and most beautiful of American grapes, particularly valuable for its earliness. The color is a fine reddish lilac, it hangs long on the vines and is not injured by severe frosts; it is ex-ceedingly productive and vigorous.

PRICE, ONE DOLLAR.

Raised by Mr. STEEL, of Hartford, Conn. Hardy, vig-orous and productive, bunch large shouldered, rather compact, berry large globular, black,covered with bloom, ripe about ten days before the Isabella. Torous and September 14, 1970 PRICE, ONE DOLLAR. ISABELLA.

ISABELLA. This very popular grape, a native of South Carolina. was brought to the North and introduced to the notice of cultivators about the year 1818. Mrs. ISABELLA GIBBS, the wife of GRONGE GIBBS, Esq., in honor of whom it was named. Its great vigor, hardiness, and productive-ness, with the least possible care, have caused it to be most widely disseminated. It is probably more hardy, and ripens earlier than the Catawba, which renders it most valuable at the North. It is so well known it is hardiy worth while to describe the beautiful fruit it bears. PRICE TWENTY-FIVE CENTS. PRICE TWENTY-FIVE CENTS.

EARLY NORTHERN MUSCANDINE.

This grape ripens the last of Sept., is perfectly hardy. The variety is a seedling from the native white grape raised by PHILEMON STEVENS, Shaker Village, New Leb-anon, Columbia Co., N. Y. Bunch fine and large, light amber color, and very delicious, very highly spoken of, and very hardy and productive. PRICE ONE DOLLAR PRICE ONE DOLLAR.

REBECCA.

REBECCA. A new variety, bunches four inches long, and two and a half inches in diamater, very compact, color light green in the shade, or golden in the sun, and covered with a light bloom, sweet and delicious, ripens ten days carlier than the Isabelia, keeping a long time after it is gather-ed. This superior white grape is undoubtedly a native-chance seedling in the garden of E. M. PEARE, of Hud-son, N. Y., proved perfectly hardy and productive. It is not so vigorous in its habits as the Isabella or Catawba; jo but hardy and healthy, and being exceedingly beautiful, as well as excellent, it must be regarded as a very great acquisition, it is so well adapted to the North. PRICE, TWO DOLLARS. PRICE, TWO DOLLARS.

UNION VILLAGE.

This very attractive grape originated among the Shak-ers at Union Village, Ohio, and was introduced by Mr. Loxoworru, of Cincinnati. It is undoubtedly a seed-ling of Isabella, is very vigorous in growth, and its fruit often nearly equals the size of the Black Hamburg. It ripens about the time of Isabella.

I wish to advertise a simple fact only—no puffing in pa-pers is wanted. By my own merit I stand or fall, earth-ly tribunals cannot keep me up or down.
