Farm .- October brings with it labor enough to keep the farmer steadily employed. Before the end of this month most crops will need to be harvested. The turnips are still growing, and, except at the far north, may be left in the ground until next month. Some of the corn will probably remain unhusked at the close of the month, but it is always best to secure all that is possible before cold weather and late Autumn rains set in.

We are quite of the opinion of the farmer's widow, who wished it "would always rain on nights and Sundays, so that hired men might rest," but we think the occasional rest furnished by a rainy day to all workers on the farm -proprietor and boys as well as hired menis a valuable recuperative of strength and vigor. Rainy days should, in part be devoted to reading and thought; still, as many persons will not improve the time thus, and as work for dull weather, by having under cover fenceposts and rails to be fitted, gates, or portable fence to make, muck to be manipulated with manure, grain to thresh or clean apples to be ground into cider or prepared for drying, and, other jobs that can be attended to when field work is impracticable.

Buildings-Wait not for cold storms of winto compel outside repairs. The windows and shutters of the house need examining, the roof may want a few shingles, a crevice lets in the storm behind the cattle stalls of the barn, and a batten is off near the horses. Repair then early, and make provisions for sufficient for all the live stock during Winter.

Beeves-Complete fattening and kill before very cold weather. It will cost less in warm

Cattle-As the Fall pastures are getting short, some feeding will be needed. There is much refuse about the gardens, such as half grown turnips, and their tops, cabbage trimmings, small beets and carrots, unripe tomatoes cucumbers and squashes, the remnant of the corn patch, eet., which may well be fed out now, in connection with the field pumpkins. Cellars .- Look to the drain, that no water be allowed to stand in the cellar.

Cisterns should be provided for the barn if no well or Spring water is convenient. Construct them before Winter sets in.

Corn .- Select seed, if not already done .and shock any fields still standing. Husk early and save the fodder in good condition for feeding. Avoid putting the corn in a green or wet condition into large bins or cribs, with poor ventilation. Save all the stalks and husks for Winter feeding of cattle.

Draining .- October is a good month for this operation, and the sooner it is now done the better, before Fall rains set in. See that open ditches on wheat and rye fields and elsewhere are clean to carry off the surface water during Winter. Farmer's Clubs .- Now is a good time to

form them, as the evenings will afford a good opportunity for weekly meetings to discuss important agricultural topics. Forest leaves make a good manure, and also

a large supply. Grain .- Thresh out as fast as practicable. It can be kept with less waste after it is threshed. In winnowing, take especial care to screen out cockle and other foul seeds. Save the straw for bedding or to cut and mix with ground feed for cattle and horses next Winter. It is too

valuable to be wasted.

Hogs.—Fatten early, as it takes less food to do it in mild weather. Grind the corn and cook Work done to order, on short notice and warranted. valuable to be wasted. both meal and vegetables before feeding. If the corn and took the corn can not be ground, boil it until soft. Do not neglect their manure apartments.—
Make the hogs pay their way in part.

Ice Houses.—Construct now rather than

Ice Houses.—Construct now rather than wax want Ice Houses.—Construct now rather than leave until near the time for filling. They need cost but few dollars

Indoor Work .- While butter making is going on by day, the lengthened evenings allow of a systematic course of reading, or the younger members of the family may take up a series of studies, to very good advantage. Give your wife a sewing machine now that the Winter clothing is to be made up, and dispense with the annual services of the seamstress, who has usually been employed for weeks at least, at this season. Paring apples is an evening operation in many places. With a good machine the work may be much facilitated.

Manures-Manufacture all that is possible drawing up the muck deposit, pond or canal sediment, collecting saw dust, spent tan, and forest leaves as absorbents. Turf from the road sides or headlands may also be added, especially to the compound in the hog yards, throwing in a little corn to induce rooting cr turning over of the mass. Continue to work the muck swamps until excessive wet drives you from the claim. We have even seen a pump rigged in a pit which one worked while the other shoveled out muck. Draw a large F. Tyler. Pres't. Bank. quantity to the buildings for bedding and an G. W. Buck, Esq. absorbent of liquids. It pays.

Paint Buildings and Fences now, rather than leave them until Spring. There is less danger of flies and dust now and the paint hardens better than in warm weather.

Plow stiff or clayey soils, turning them up

to the action of air and Winter frosts. Potatoes.-Complete digging, before frost has injured them, and store for Winter with

as little exposure to sun as possible. Poultry require a greater supply of meat or

fish as their insect food dirainishes. Cleanse their roots often, and barrel the contents for home guano. Pack away a quantity of eggs in salt, or pickle in lime water for Winter use

Pumpkins will need housing, before hard frosts. By keeping them in a cool, dry place, under cover, until freezing weather sets in, and then in a dry cellar or other place, out of the reach of frost, pumpkins may be kept for table use nutil winter, sometimes longer. Of course they should be handled with much care. Feed plentifully to milch cows and other stock, if

the crop is large. Root Cellars-If there is not room to store turnips, ect., in the house or barn cellar, a good place can easily be made by digging into a side hill. Fill with roots and make a roof over, covering with several feet of earth. Good

the skimmings for vinegar.

Miscellancous.

THIS IS THE ESTABLISHMENT where you can find a very fine assortment of WATCHES AND JEWELRY of all descriptions, also a good stock of CLOCKS, prices ranging from 10 shillings up, and warranted to give good satisfaction or no sale. June 28, 1859.

A NEW AGRICULTURAL SETTLE-MENT.—To all wanting farms, a rare opportunity in a delightful and healthy climate 25 miles southeast of Philadelphia on the Camden and Atlantic Railroad, New Jersey. An old estate consisting of several thousands of acres of productive soil has been divided into Farms of various sizes to suit the purchaser. A population of some Fiften Hundred, from various parts of the middle States and New England have settled there the past year, improved their places, and raised excellent cross. The proposed their places and raised excellent cross. The Jersey. An one case of productive soil has been divided into Farms of various sizes to suit the purchaser. A population of some Fifteen Hundred, from various parts of the middle States and New England have settled there the past year, improved their places, and raised excellent crops. The price of the land is at the low sum of from \$15 to \$20 per acre, the soil is of the best quality for the production of Wheat, Clover, Corn, Peaches, Grapes and Vegetables. It is considered the best fruit soil in the Union—less. It is considered the best fruit soil in the Union—Callagiate, per term. of Wheat, Clover. Corn. Peaches, Grapes and Vegetables. It is considered the best fruit soil in the Union. The place is perfectly secure from frosts—the destructive enemy of the farmer. Crops of grain, grass and fruit are now growing and can be seen. By examining the place itself, a correct judgment can be formed of the productiveness of the land. The terms are made easy to secure the rapid improvement of the land, which is only sold for actual improvement. The result has been, that within the past year, some three hundred houses have been erected. two mills, one steam, four stores, some forty vinyard and Peach orchards, planted, and a large number of other improvements, making it a desirable and active place of business.

The Market, as the reader may perceive from its location, is the best in the Union. Produce bringing double the price than in locations away from the city, and more than double the price than the West. It is known that the earliest and best fruits and vegetables in this latitude come from New Jersey, and are annually exported to the extent of millions.

In locating here, the settler has many advantages. He is within a few hours ride of the great cities of New England and Middle States, he is near his old friends and associations, he is in a settled country where every improvement of comfort and civilization is at hand. He can buy

extent of millions.

In locating here, the settler has many advantages. He is within a few hours ride of the great cities of New England and Middle States, he is near his old friends and associations, he is in a settled country where every improvement of comfort and civilization is at hand. He can buy every article he wants at the cheapest price, and sell his produce for the highest, (in the West this is reversed.) he has schools for his children, divine service, and will enjoy an open winter, and delightful climate, where fevers are utterly unknown. The result of the change upon those from the north, has generally been to restore them to an excellent state of health.

In the way of building and improving, lumber can be obtained at the mills at the rate of \$10 or \$15 per thou sand. Bricks from the brick yard opened in the place every article can be procured in the place, good carpenters are at hand, and there is no place in the Union where buildings and improvements can be made cheaper.

The reader will at once be struck with the advantages here presented, and there is no place in the Union where buildings and improvements can be made cheaper.

The reader will at once be struck with the advantages here presented, and unless these statements were correct, no one would be invited to examine the land before purchasing. This all are expected to do. They will see the land under cultivation, such is the extent of the settlement that they will no doubt, meet persons, from their own neighborhood; they will witness the improvements and can judge the character of the population. If they come with a view to settle, they should come prepared to stay a day or two and be ready to purchase, as locations cannot be held on refusal.

There are two daily trains to Philadelphia, and to all settlers who improve, the Railboad Company Gives A Free Ticket for six Months, and A HALF-PRICE Ticket For six Months, and A HALF-PRICE Ticket For six Months, and the process of the production has hither to enjoyed, and they of future patronage

THE TOWN OF HAMMONTON.—In connection with THE TOWN OF HAMMONTON.—In connection with the agricultural settlement, a new and thriving town has naturally arisen, which presents inducements for any kind of business, particularly stores and manufactories. The Shoe business could be carried on in this place and market to good advantage, also cotton business, and manufactories of agricultural implements or Founderies for easting small articles. The improvement has been so rapid as to insure a constant and permanent increase of business.—Town lots of a good size, we do not sell small ones, as it would effect the improvement of the place, can be had at from \$100 and upwards.

The Hammonton Farmer, a monthly literary and agricultural sheet, containing full information of Hammonton, can be obtained at 25 cents per annum.

cultural sheet, containing full information of Hammonton, can be obtained at 25 cents per annum.

Title indisputable—warrantee deeds given, clear of all incumbrance when money is paid. Route to the land: leave Vine street wharf, Philadelphia, for Hammonton by Railroad, at 7½ A.M., or 4½ P.M. Fare 90 cents. When there inquire for Mr. Byrnes. Boarding conveniences on hand. Parties had better stop with Mr. Byrnes, a principal until they have decided as to nurchasing, as he will. pal, until they have decided as to purchasing, as he will bat, into they have declared as to purchasing, as he will show them over the land in his carriage, free of expense. Letters and applications can be addressed to Landis & Byrnes, Hammonton P. O., Atlantic Co., New Jersey, or S. B. Coughlin, 202 South Fifth Street, Philadelphia.— Maps and information cheerfully furnished.

TIOGA POINT AGRICULTURAL WORKS!

TIOGA POINT IMP'VED RAILWAY HORSE POWERS

WE are manufacturing the above unrivalled Powers for One and Two Horses, under Emory's Patent What are warranted greatly superior to the common Rack and Pinion Power. Our Horse Power is unequalled for convenience by any other;—being adapted to a great variety of uses where power is needed; for the reason that it is double geared, and that both ends of the main and counter shafts have couplings all alike, permitting the converge gear wheel, pinion and hand-wheel to be shipped from shaft to shaft and from side to side of the Power at pleasure; by which arrangement five different degrees of motion are obtained without extra gearing; and also, any desirable length and velocity of crank motion for cross cut sawing, pumping and charning. These Powers run easily, are strong, well finished and made from good materials.

THRESHERS AND SEPARATORS.

These are made of various sizes. They are superior to those of any other manufacture, of which fact any person well acquainted with the heretofore leading machines, will be satisfied upon examination. Our FANNING MILLS, which are the very best in market, are fitted for power to be run in connection with the Tresher and Separator. THRESHERS AND CLEANERS.

We have succeeded beyond our most sanguine expectations in inventing and constructing a combined Thresher & Cleaner of our own, which, we believe, for two horse power, has not its superior nor equal. It runs easily and threshes and cleans fast, without wasting the grain, which is delivered in the measure cleaned fit for market.

These Winnowers are simple, easily managed, and are warranted to give entire satisfaction. warranted to give entire satisfaction.

E We are prepared to furnish at once, or on very short notice, THRESHERS and WINNOWERS from any of the leading New York manufactories at the same prices as our own, and no charge for freight. All who want

The Best Horse Power

In market to run Threshers and Cleaners of any other manufacture, should by all means purchase their entire sete of machines from us, or FROM OUR AGENTS, and thereby save heavy freights from distant places, and at the same time get BETTER SETS OF MACHINES.

37 All kinds of Horse Powers and Threshers repaired at short notice. The Best Horse Power

TOWANDA FOUNDRY.

THE subscriber continues to carry on the THE subscriber continues to carry on the Foundry business in Towanda, and is prepared to do all kinds of work in his line on short notice and in a workmanlike manner. He will keep on hand or make to order Plows, Stoves, Mill Irons, Sleigh Shoes, Wagon-Boxes, and any article of cast iron that may be required. Turning and fitting up work will be done on short notice and on reasonable terms. Persons wishing to purchase Stoves of any kind will find it much to their advantage to buy at the Foundry, as they can be repaired much cheaper. Please call and examine before purchasing elsewhere. Old cast iron and Grain taken in payment—Don't mistake the place—one door east of Mercur's Block.

Twould also say to those having accounts standing over six months, that they must be settled without delay, and those having notes that are due will do well to pay up and save cost.

Towanda, Oct. 22, 1856. THE CASH DRUC STORE
