DIED.

In Springville twp., on Thursday. Oct. 13th 1859. GEO. SPALDING, Esq., aged 46 years, after ten months affliction of paralysis, having been speechless about four At a meeting of Laceyville Lodge. No. 429, I. O. of O. F. Oct. 15th, 1859, the following preamble and resolutions ere adopted :

WHEREAS, In the wise providence of God, our beloved brother P. D. D. G. M. GEO. SPALDING, has been removed, as we trust, to the celestial, Grand Lodge above, there-

as we trust, to the celestial, Grand Lodge above, therefore,

Resolved. That our order has sustained, by this bereavement, the loss of a tried friend, and faithful officer. Our
Lodge is called to mourn for one of its brightest ornaments, and most zealous supporters.

Resolved. That we shall ever cherish and revere the
the memory, of our departed Brother, who in all the relations of life, has fulfilled the duties of a good citizen, he
was a devoted Christian, a bright Mason, a loving husband; and as an Odd Fellow, has become endeared to
the brotherhood, by his zealous devotion to its principles, and practical datas.

Resolved, That in this heavy affliction, we tender our
cordial sympathies to our bereaved sister, the widow,
daughter, and relations of our dee'd Brother.

Resolved. That our Lodge room be clad in mourning
for three months, and that the Brethren wear the usual
badge for the same length of time, in respect of his memory.

Resolved. That a cony of the foregoing resolutions he

Resolved, That a copy of the foregoing resolutions be sent to Tunkhannock & Towanda, for publication, and a copy forwarded to the bereaved family.

THE GRAPE

THE history of the grape is almost as old as that of man growing in its highest perfection in Syrla and Persia, its lucious fruit and the unrivalled beverage which its fermented juice affords, recommended it to the especial care of the Patriarchal tillers of the soil; and vineyards were extensively planted, long tefore orchards or collections of other fruit trees were at all common.

The grapes of the old world are all varieties of the wine grape, which, though so long and universally cultivated and naturalized in all the Middle and Southern portions of Europe, is not a native of that Continent, but came originally from Persia. From the latter country, as the civilization advanced westward, this plant accompanied it—first to Egypt, then to Greece and Sicily, and gradually to Italy, Spain, France, and Britain; to which latter country the Romans carried it about two hundred years after Christ. To America the seeds and plants of the European varieties were brought by numerous Emigrants and Colonists, within the first fifty years after its settlement.

grants and Colonists, within the first fifty years after its settlement.

The wild grapes of our own country, are quite distinct species from the wine grape of Europe, and are usually stronger in their growth, with longer and more entire foilage, and in their native state with a peculiar foxy odour or flavor, and more or less hardness of pulp; these traits, however, disappear in process of cultivation; and we have already obtained from the wild type, new varieties of high quadity, and of superior hardness and productiveness in this, our Northern climate.

The universal experience in all countries, has established the fact that dry, warm soil is the very best for the vine. All in this latitude may raise the grape successfully by setting the vine in a favorable exposure to the sun. The late varieties that I offer for sale, are all earlier than the Isabella but one, and that ripens full as soon as the Isabella There is no fruit grown, in my opinion, in this world, more beautiful, delicious, or useful than the grape. If a man is not too lazy, he may have round him all the varieties of grapes in a high state of cultivation, and his garden adorned with all the beautiful and social productions of this fair world of ours, and a mind that has any star in it at all, by little enquiry and practice, may learn to cultivate anything that grows.

I consider the following variety of grapes the very best to cultivate for out door culture in our northern climate, out of the vast variety. to cultivate for out door culture in our northern climate out of the vast variety.

This excellent hardy grape, is the true Burgundy grape so highly valued for wine in France. The fruit is very sweet- and excellent, and the hardiness of the vine renders it one of the best varieties in the open air in this climate. Bunch small, compact, (i.e. berries closely set.) Berries midde-sized, roundish-oval, black, juice sweet, good, ripens about 20th of Sept. Thompson gives more than forty synonymes to this grape.

PRICE SEVENTY-FIVE CENTS.

CATAWBA.

This excellent native grape, was first introduced to notice by Maj. Addum, of Georgetown, D. C., and was found by him in Maryland. It probably has its name from the Catawba river, it is one of the most productive and excellent of our native sorts. There is is no grape in some portions of the United States, so good for wine flavor, and very sweet when ripe.

PRICE, TWENTY-FIVE CENTS. CLINTON.

Origin uncertain, said to have originated in Western New York, growth vigorous, hardy, and productive, bunches compact, berries round, rather below medium size, black, covered with a thick bloom, eatable eight or ten days before Isabella, frosts make them very good.

PRICE, TWENTY-FIVE CENTS.

CONCORD.

This exceeding fine, hardy native grape, was raised from seed by E. W. Bell., Concord, Mass. It is very healthy, vigorous habit, and very productive, bunch rather compact, large shouldered, almost black, covered with bloom, very sweet, it is more hardy than the Isabella, and ripens about ten days earlier. Consequently it is very valuable for a large Northern range. PRICE, ONE DOLLAR.

DELAWARE.

The precise origin of this is not known, we have the ollowing account of it from A. Thomson, of Delaware, blio. It was brought to Delaware by a German, its exclence attracted his attention, and an inquiry as to its distory. It was brought from New Jersey some eighteen history. It was brought from New Jersey some eighteen or twenty years ago, having been obtained from the garden of a French gentlemen, Paul H. Provost, in Kingswood twp., Hunterdon Co., N. J. It was known in that vicinity as the Italian Grape, sent from Italy, bunch small, a beantiful light red, or flesh color, exceedingly sweet, one of the most delicious, hardy grapes. It is a vigorous grower, an early and profuse bearer, and probably more hardy than the Isabella, it ripens two or three weeks before the Isabella. No grape more desirable for our climate.

DIANA.

A seedling of the Catawba raised by Mrs. Diana Crehon, of Boston, and named by the Massachusetts Horticultural Society. It was announced the best and most beautiful of American grapes, particularly valuable for its earliness. The color is a fine reddish lilac, it hangs long on the vines and is not injured by severe frosts; it is exceedingly productive and vigorous. ceedingly productive and vigoro

HARTFORD PROLIFIC.

Raised by Mr. STEEL, of Hartford, Conn. Hardy, vigrous and productive, bunch large shouldered, rather ompact, berry large globular, black covered with bloom, pe about ten days before the Isabella. PRICE, ONE DOLLAR.

PRICE, ONE DOLLAR.

ISABELLA.

This very popular grape, a native of South Carolina, was brought to the North and introduced to the notice of cultivators about the year 1818. Mrs. Isabella Gibbs, the wife of Grorge Grebs, Esq., in honor of whom it was named. Its great-vigor, hardiness, and productiveness, with the least possible care, have caused it to be most widely disseminated. It is probably more hardy, and ripens earlier than the Catawba, which renders it most valuable at the North. It is so well known it is hardly worth while to describe the beautiful fruit it bears.

PRICE TWENTY-FIVE CENTS. PRICE TWENTY-FIVE CENTS.

EARLY NORTHERN MUSCANDINE. mily for cash on delivery of goods.

J. HARVEY PHINNEY, Jr.
anda Oct. 12, 1859.

No. 3. Patton's Block.

ANTED.—Hides and Skins, for which
the highest market price will be paid, either in

PRICE ONE DOLLAR. REBECCA.

A new variety, bunches four inches long, and two and a half inches in diamater, very compact, color light green in the shade, or golden in the sun, and covered with a light bloom, sweet and delicious ripens ten days earlier than the Isabella, keeping a long time after it is gathered. This superior white grape is undoubtedly a native—chance seedling in the garden of E. M. Prake, of Hudson, N. Y., proved perfectly hardy and productive. It is not so vigorous in its habits as the Isabella or Catawba; but hardy and healthy, and being exceedingly beautiful, as well as excellent, it must be regarded as a very great acquisition, it is so well adapted to the North.

PRICE, TWO DOLLARS.

PRICE, TWO DOLLARS.

UNION VILLAGE. This very attractive grape originated among the Shakers at Union Village, Ohio, and was introduced by Mr. Longworth, of Cincinnati. It is undoubtedly a seedling of Isabella, is very vigorous in growth, and its fruit often nearly equals the size of the Black Hamburg. It ripens about the time of Isabella.

PRICE, ONE DOLLAR. The following tender variety of grape vines are all raised under glass with one exception, the Chasselas. I have succeeded admirably in out door culture with the vine Black Hamburg, Red Museat, White Syrian, Golden Hamburg, Bishop, White Frontignan, Black Prince, Blk. Damask, Golden Chasselas, may be found at my garden and result social social

well rooted.

The Isabella, Catawba and Clinton, by the 100 or 1000 all well rooted, to any that wish to set vineyards at exceeding low rates. I warrant all true to name, any mistake or errors shall be made good. I do not want something for nothing r A legal thief is the most despicable. I wish to advertise a simple fact only—no puffing in papers is wanted. By my own merit I stand or fall, carthly tribunals cannot keep me up or down.

The above grape vines can be had at the garden of HARRY MIX.

Mr. John A. Gamper being equally interested, travel throughout the county and adjoining counties, and will give instructions about culture, &c., and be able to show drawings of some of the new varieties of grapes which are in great demand and very scarce.
