# CELEBRATED Family Sewing Machines.

NEW STYLES-PRICES \$50 TO \$125. EXTRA CHARGE OF \$5 FOR HEMMERS.

F. B. CHANDLER, AGENT, MONTROSE; J. M. ROBINSON, LAKE-ST., ELMIRA.

THESE MACHINES sew from two spools. THESE MACHINES sew from two spools, as purchased from the store, requiring no re-whuding of thread; they Hem. Fell, Gather, and Stich in a superior style, finishing each seam by their own operation, without recourse to the band-needle, as is required by other machines. They will do better and cheaper sewing than a seamstress, even if she works for one cent an bour, and are, unquestionably, the best Machines in the market for family sewing, on account of their simplicity, durability, ease of management, and adaption to all varieties of family sewing—executing either heavy or fine work with equal facility, and without special adjustment. As evidence of the unquestioned superiority of their Machines, the Grover & Baker Sewing Machine Company beg leave to respectfully refer to the following

"I confess myself delighted with your Sewing Machine, which has been in my family for several mouths. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by eimply changing the spools of thread."—Mrs. Elizabeh Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate.

"After trying several good machines, 1 preferred yours, on account of its simplicity, and the perfect case with which it is managed as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."—Mrs.E. B. Spooner, wife of the Editor of Brooklyn Star.

"I have used a Grover & Baker Machine for two years, and I have found it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn without the giving away of a stitch. The Machine is easily kept in order, and easily used.—Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York. "Your Sewing Machine has been in use in my family the past two years, and the ladies request me to give you their testimonials to its perfect adaptness, as well as labor-saving qualities in the performance of family and household sewing—Robert Boorman, New York.

"For several months we have used Grover & Baker's Sewing Machine, and have come to the conclusion that every lady who desires her sewing beautifully and quickly done, would be most fortunate in possessing one of these reliable and indefatigable "iron needle-women." whose combined qualities of beauty, strength and simplicity, are invaluable.—J. W. Morris, daughter of Gen. Geo. P. Morris, Editor of the Home Journal.

Extract of a letter from Thos. R. Leavitt, an American

gentleman, now resident in Sydney, New South Wales, dated January 12, 1858. "I had a tent made in Melbourne, in 1853, in which there were over three thousand yards of sewing done with one of Grover & Baker's Machines, and a single seam of that has outstood all the double seams sewed by sailors with a needle and twine."

"If Homer could be called up from his murky hades he would sing the advent of Grover & Baker as a more benignant miracle of art than was ever Vulcan's smithy. He would denounce midnight shirt-making as "the direful spring of wees unnumbered."—Prof. North.

"I take pleasure in saying, that the Grover & Baker Sewing Machines have more than sustained myexpectation. After trying and returning others, I have three of them in operation in my different places, and, after four year's trial, have no fault to find.—J. H. Hammond, Senator of

"My wife has had one of Grover & Baker's Sewing Machines for some time, and I am satisfied it is one of the best labor-saving-machines that has been invented. I take much pleasure in recommending it to the public."—
J. G. Harris, Governor of Tennessee.

"It is a beautiful thing, and puts everybody into an excitement of good humor. Were I a Catholic. I should insist upon Saints Grover & Baker having an eternal holiday in commemoration of their good deeds for humanity."—Cassins M. Clay.

"I think it by far the best patent in use. This Machine can be adapted from the finest cambric to the heaviest cassimere. It sews stronger, faster, and more beautifully than one can imagine. If mine could not be replaced, money could not buy it."—Mrs. J. G. Brown, Nashville, Tenn.

TIOGA POINT IMP'VED RAILWAY HORSE POWERS.

WE are manufacturing the above unrivalled Powers for One and Two Horses, under Emory's Patent, which are warranted greatly superior to the common Rack and Pinion Power. Our Horse Power is unequalled Rack and Pinion Power. Our Horse Power is unequalled for convenience by any other;—being adapted to a great variety of uses where power is needed; for the reason that it is double geared, and that both ends of the main and counter shafts have couplings all alike, permitting the converge gear wheel, pinion and hand-wheel to be shipped from shaft to shaft and from side to side of the Power at pleasure; by which arrangement five different degrees of motion are obtained without extra gearing; and also, any desirable length and velocity of crank motion for cross cut saving, numping and churning. These tion for cross cut sawing, pumping and churning. These Powers run easily, are strong, well finished and made from good materials.
