Miscellaneous.

THE GRAPE.

THE history of the grape is almost as old as that of man —growing in its highest perfection in Syria and Persia, its lucious fruit and the unrivalled beverage which its fermented Juice affords, recommended it to the especial care of the Patriarchal tillers of the soil; and vineyards

care of the Patriarchal tillers of the soil; and vineyards were xten sively planted, long kefore orchards or collections of other fruit trees were at all common.

The grapes of the old world are all varieties of the wine grape, which, though so long and universally cultivated and naturalized in all the Middle and Southern portions of Europe, is not a native of that Continent, but came originally from Persia. From the latter country, as the civilization advanced westward, this plant accompanied it—first to Egypt, then to Greece and Sicily, and gradually to Italy, Spain, France, and Britain; to which latter country the Romans carried it about two hundred years after Christ. To America the seeds and plants of the European varieties were brought by numerous Emigrants and Colonists, within the first fifty years after its settlement.

settlement.

The wild grapes of our own country, are quite distinct species from the wine grape of Europe, and are usually stronger in their growth, with longer and more entire foliage, and in their native state with a peculiar foxy odour or flavor, and more or less hardness of pulp; these

foliage, and in their native state with a peculiar foxy odour or flavor, and more or less hardness of pulp; these traits, however, disappear in process of cultivation; and we have already obtained from the wild type, new varieties of high quality, and of superior hardiness and productiveness in this, our Northern climate.

The universal experience in all countries, has established the fact that dry, warm soil is the very best for the vine. All in this latitude may raise the grape successfully by setting the vine in a favorable exposure to the sun. The late varieties that I offer for sale, are all earlier than the Isabella- but one, and that ripens full as soon as the Isabella There is no fruit grown, in my opinion, in this world, more beautiful, delicious, or useful than the grape. If a man is not too lazy, he may have round him all the varieties of grapes in a high state of cultivation, and his garden adorned with all the beautiful and social productions of this fair world of ours, and a mind that has any strr in it at all, by little enquiry and practice, may learn to cultivate anything that grows.

I consider the following variety of grapes the very best to cultivate for out door culture in our northern climate, out of the vast variety. out of the vast variety.

BURGUNDY.

This excellent hardy grape, is the true Burgundy grape so highly valued for wine in France. The fruit is very sweet and excellent, and the hardiness of the vine renders it one of the best varieties in the open air in this climate. Bunch small, compact, (i.e. berries closely set.) Berries midde-sized, roundish-oval, black, juice sweet, good, ripens about 20th of Sept. Thompson gives more than forty synonymes to this grape.

PRICE SEVENTY-FIVE CENTS. CATAWBA.

This excellent native grape, was first introduced to notice by Maj. ADLUM. of Georgetown, D. C., and was found by him in Maryland. It probably has its name from the Catawba river, it is one of the most productive and excellent of our native sorts. There is is no grape in some portions of the United States, so good for wine or table use. Beautiful bunches, pale red, rich musky flavor, and very sweet when ripe.

PRICE, TWENTY-FIVE CENTS. CLINTON.

Origin uncertain, said to have originated in Western New York, growth vigorous, hardy, and productive, banches compact, berries round, rather below medium size, black, covered with a thick bloom, eatable eight or ten days before Isabella, frosts make them very good.

PRICE, TWENTY-FIVE CENTS. CONCORD.

This exceeding fine, hardy native grape, was raised from seed by E. W. Bull, Concord, Mass. It is very healthy, vigorous habit, and very productive, bunch rather compact, large shouldered, almost black, covered with bloom, very sweet, it is more hardy than the Isabella, and ripens about ten days earlier. Consequently it is very valuable for a large Northern range. PRICE, ONE DOLLAR.

DELAWARE.

DELAWARE.

The precise origin of this is not known, we have the following account of it from A. Thomson, of Delaware, Ohio. It was brought to Delaware by a German, its excellence attracted his attention, and an inquiry as to its history. It was brought from New Jersey some eighteen or twenty years ago, having been obtained from the garden of a French gentlemen, Paul H. Provost, in Kingswood twp., Hunterdon Co., N. J. It was known in that vicinity as the Italian Grape, sent from Italy, bunch small, a beautiful light red, or flesh color, exceedingly sweet, one of the most delicious, hardy grapes. It is a vigorous grower, an early and profuse bearer, and probably more hardy than the Isabella, it ripens two or three weeks before the Isabella. No grape more desirable for our climate.

PRICE, THREE DOLLARS. DIANA.

A seedling of the Catawba raised by Mrs. Diana Crehon, of Boston, and named by the Massachusetts Horticultural Society. It was announced the best and most beautiful of American grapes, particularly valuable for its earliness. The color is a fine reddish like, it hangs long on the vines and is not injured by severe frosts; it is exceedingly productive and vigorous.

PRICE, ONE DOLLAR.

HARTFORD PROLIFIC.

Raised by Mr. Steel, of Hartford, Conn. 'Hardy, vig-orous and productive, bunch large shouldered, rather compact, berry large globular, black, covered with bloom, ripe about ten days before the Isabella. PRICE, ONE DOLLAR.

ISABELLA. This very popular grape, a native of South Carolina, was brought to the North and introduced to the notice of cultivators about the year 1818. Mrs. Isabella Gibbs, the wife of Grorge Gibbs, Esq., in honor of whom it was named. Its great vigor, hardiness, and productiveness, with the least possible care, have caused it to be most widely disseminated. It is probably more bardy, and ripens earlier than the Catawba, which renders it most valuable at the North. It is so well known it is hardly worth while to describe the beautiful fruit it bears.

PRICE TWENTYLEIVE CRYSS.

PRICE TWENTY-FIVE CENTS. EARLY NORTHERN MUSCANDINE.

This grape ripens the last of Sept., is perfectly hardy. The variety is a seedling from the native white grape raised by Philemon Stevens, Shaker Village, New Lebanon, Columbia Co., N. Y. Bunch fine and large, light amber color, and very delicious, very highly spoken of, and very hardy and productive. PRICE ONE DOLLAR.

REBECCA.

A new variety, bunches four inches long, and two and a half inches in diamater, very compact, color light green in the shade, or golden in the sun, and covered with a light bloom, sweet and delicious, ripens ten days earlier than the Isabella, keeping a long time after it is gathered. This superior white grape is undoubtedly a native—chance seedling in the garden of E. M. PEARE, of Hud. John & Doubleday, do. Rev. O. Crane, www. Putnam, on N. Y., proved perfectly hardy and productive. It is not so vigorous in its habits as the Isabella or Catawba; but hardy and healthy, and being exceedingly beautiful, as well as excellent, it must be regarded as a very great acquisition, it is so well adapted to the North.

PRICE TWO DOLLARS. PRICE, TWO DOLLARS.

UNION VILLAGE.

This very attractive grape originated among the Shakers at Union Village, Ohio, and was introduced by Mr. Longworth, of Cincinnati. It is undoubtedly a seeding of Isabella, is very vigorous in growth, and its fruit often nearly equals the size of the Black Hamburg. It ripens about the time of Isabella. PRICE, ONE DOLLAR.

The following tender variety of grape vines are all raised under glass with one exception, the Chasselas. I have succeeded admirably in out door culture with the vine. Black Hamburg, Red Muscat, White Syrian, Golden Hamburg, Bishop, White Frontignan, Black Prince, Bik. Damask, Golden Chasselas, may be found at my garden well rooted. The Isabelia, Catawba and Clinton, by the 100 or 1000

The Isabelia, Catawba and Clinton, by the 100 or 1000 all well rooted, to any that wish to set vineyards at exceeding low rates. I warrant all true to name, any mistake or errors shall be made good. I do not want something for nothing. A legal thief is the most despicable. I wish to advertise a simple fact only—no puffing in papers is wanted. By my own merit I stand or fall, earthly tribunals cannot keep me up or down.

The above grape vines can be had at the garden of HARRY MIN.

Mr. JOHN A. GAMPER being equally interested will

Mr. JOHN A. GAMPER being equally interested, will travel throughout the county and adjoining counties, and will give instructions about culture, &c., and be able to show drawings of some of the new varieties of grapes which are in great demand and very scarce.

TIOGA POINT IMP'VED RAILWAY HORSE POWERS. We are manufacturing the above unrivalled Powers for One and Two Horses, under Emory's Patent, which are warranted greatly superior to the common Rack and Pinion Power. Our Horse Power is unequalled for convenience by any other:—being adapted to a great variety of uses where power is needed; for the reason that it is double geared, and that both ends of the main and counter shafts have couplings all alike, permitting the converge gear wheel, pinion and hand-wheel to be shipped from shaft to shaft and from side to side of the Power at pleasure; by which arrangement five different degrees of motion are obtained without extra gearing; and also, any desirable length and velocity of crank motion for cross cut sawing. pumping and churning. These Powers run easily, are strong, well finished and made from good materials.

THRESHERS AND SEPARATORS. These are made of various sizes. They are superior to those of any other manufacture, of which fact any person well acquainted with the heretofore leading machines, will be satisfied upon examination. Our FANNING MILLS, which are the very best in market, are fitted for power to be run in connection with the Tresher and Separator.

THRESHERS AND CLEANERS. We have succeeded beyond our most sanguine expectations in inventing and constructing a combined Thresher & Cleaner of our own, which, we believe, for two horse power, has not its superior nor equal. It runs easily and threshes and cleans fast, without vasting the grain, which is delivered in the measure cleaned fit for market.

These Winnowers are simple, easily managed, and are warranted to give entire satisfaction.

ET We are prepared to furnish at once, or on very short notice, THRESHERS and WINNOWERS from any of the leading New York manufactories at the same

of the leading New York manufactories at the same prices as our own, and no charge for freight. All who The Best Horse Power In market to run Threshers and Cleaners of any other manufacture, should by all means purchase their entire sete of machines from us, or FROM OUR AGENTS, and thereby save heavy freights from distant places, and at e same time get BETTER SETS OF MACHINES.

We manufacture or have on hand for sale very superior FANNING MILLS, FEED CUTTERS, PORTABLE CIR. CULAR and CROSS-CUT SAW MILLS, CLOVER HULLERS & CLEANERS, FARM GRIST MILLS, and a great variety of Improved Agricultural Implements and Machines. 55 Before purchasing any other be sure io call and xamine our Machines.
