TIOGA POINT IMP'VED RAILWAY HORSE POWERS. E are manufacturing the above unrivalled Powers for One and Two Horses, under Emory's Patent, which are warranted greatly superior to the common Rack and Pinion Power. Our Horse Power is unequalled for convenience by any other:—being adapted to a great variety of uses where power is needed; for the reason that it is double geared, and that both ends of the main and counter shafts have couplings all alike, permitting the converge gear wheel, pinion and hand-wheel to be shipped from shaft to shaft and from side to side of the Power at pleasure; by which arrangement five different degrees of motion are obtained without extra gearing; and also, any desirable length and velocity of crank motion for cross cut sawing, pumping and churning. These Powers run easily, are strong, well finished and made from good materials.

THRESHERS AND SEPARATORS. These are made of various sizes. They are superior to those of any other manufacture, of which fact any person well acquainted with the heretofore leading machines, will be satisfied upon examination. Our FANNING MILLS, which are the very best in market, are fitted for power to be run in connection with the Tresher and Separator.

THRESHERS AND CLEANERS.

We have succeeded beyond our most sanguine expectations in inventing and constructing a combined Thresher
& Cleaner of our own, which, we believe, for two horse
power, has not its superior nor equal. It runs easily and
threshes and cleans fast, without wasting the grain, which
is delivered in the measure cleaned it for market.
These Winnowers are simple, easily managed, and are
warranted to give entire satisfaction.
