The reputation of this Machine is now fully established as the most reliable Machine in the market for family use, and has been attested too by thousands of the most respectable families in the Union.

This Machine makes the celebrated "Double Lock Stitch," the only one made by machinery that meets all the requirements of Family Sewing. Each stitch is tied twice, so that every one is securely fastened and wholly independent of all the other stitches for strength, so that if the seam is cut or every fourth stitch broken, the sewing must hold good while the fabric will wear. The machinery which makes this stitch is a marvel of simplicity, requiring no mechanical skill to manage it, nor does it require adjustment more than the mere change of thread and needles to adopt it to the character of the work to be sewed—coarse or fine as the case may be. It will sew gauze laces, and all varieties and kinds of fabrics between and including heavy beaver cloth, without changing either needles or thread equally well, and return to either variety of work with perfect satisfaction. turn to either variety of work with perfect satisfaction No other Machine ever offered to the public will do as
