Hemmer, Feller, Binder & Tucking guage, combined, \$5.

The reputation of this Machine is now fully established as the most reliable Machine in the market for family use, and has been attested too by thousands of the most respectable families in the Union.

This Machine makes the celebrated "Double Lock Stitch," the only one made by machinery that meets all the requirements of Family Sewing. Each stitch is tied twice, so that every one is securely fastened and wholly independent of all the other stitches for strength, so that if the seam is cut or every fourth stitch broken, the sewing must hold good while the fabric will wear. The machinery which makes this stitch is a marvel of simplicity, requiring no mechanical skill to manage it, nor does it require adjustment more than the mere change of

much.

A perfect Sewing Machine, one making a stitch answering all the requirements of the family, sewing coarse and fine work equally well, was the great desideratum of the home-circle, previous to the invention of Edwin Clark's Revolving Loopen. The stitch is beautiful, trong, and elastic, and will not rip in wear or in accidental breaking a thread.

Every Machine is warranted to give satisfaction or the money refunded.

"To be, or not to be—hat is the question! Whether its nobler in the mind to suffer The slings and arrows of outrageous opposition, Or by taking up arms against a sea of printing ink, And opposing, end them."

The proprieter of the Argus takes occasion in advertising his Bindery to include in an uncalled for fling about a 'sort of a concern,' which is hoping "to delude the public." As I have opened a Bindery on my own account, the inference is that if the public bring their binding to me, they are in no danger of being defrauded. For two years I have worked for Mr. Parsons, and he has taken great pains t satisfy the public I was the 'best Binder in America," as the columns of the Argus will testify. Has he been all that time "deluding the public?" If I have been engaged in a fraud, he has been the principal. But I refer to my work during that time as evidence that there has been no frand practiced.

Having served a long apprenticeship at the Bindery ount, as I know of nothing which prevents me from fol-owing a legitimate and bawful calling for my support.— shall endeavor by good work and attention to my busi-tess to give-public satisfaction.
